SMOKING AND FIRES

How many fires are actually caused by smokers will never be known, but occasionally one reads in the press that a lighted match or cigar stump thrown in a box or waste basket was responsible for fires that resulted in loss of property. Some men have the habit of smoking a cigarette or cigar during the night, the match being struck on a chair near the bed and slipped aside as if it were perfectly harmless. A curtain is frequently ignited, and more frequently the lighted cigar or cigarette catches bedclothing, and thus starts a serious fire.

Many employees, who are forbidden the use of stores and factories for the purpose of their smoking in basements or other places where loose paper or excelsior may be exposed. Smokers and employees can not exercise too great care in handling matches and "smokeables" around exposed places.

LOVE OF CATS NO TEST.

Aged Spinster Who Harbors Stray Animals is Sane, Say Physicians.

Ithaca, N. Y.—Miss Jennie Butts, a spinster, sixty years of age, residing in McLean, Tompkins county, has "an abnormal pity for animals and cats that dominate her house, but she has no delusions and therefore cannot be adjudged crazy," declare two physicians appointed to pass on her sanity.

Miss Butts has twenty-seven cats in her house at the present time, and they are housed in almost every room in it. She also keeps three horses and thirteen cows, and her alleged failure to take care of these properly because of her devotion to the cats led to a complaint.

Miss Butts says she is too kind hearted to kill the cats. She said that the unusual number of them in her house was not necessarily due to a natural increase, but said that any resident of her township who desired to get rid of a cat just "drops it in front of the house."

TOOTH SHOWS HIS GUILT.

Robber of Paris Dentist Betrayed by a Cast From His Mouth.

Paris.—An expert crook, Julien Lemas, was caught here in an ingenious manner.

The specialty of Lemas was robbing dentists. He called on a fashionable dentist and asked that a gold crown be fitted on one of his teeth. The dentist took a cast of the tooth, and a few moments later, when he went into his laboratory with the mold, Lemas pocketed a costly gold set of teeth which had been left for repairs by a marquis, and also \$100 worth of silet gold.

Lemas was arrested shortly afterward and taken before a magistrate. He strenuously denied the theft and was about to be set free when the magistrate decided to send for the cast taken by the dentist. When this was brought into court it was found to fit Lemas' tooth exactly, and the thief was held for trial.

ANNOUNCEMENT.

To My Friends and Fellow Citizens of Beaufort County:

I hereby announce myself as a candidate for the Sheriff's office. I have only one promise to make to you people should I be elected and that is the same promise that I made to my good friends who so ably supported me in the last campaign when they made me their choice as Recorder for Washington, Long Acre and Chocowiny townships, and that is the same promise I now make to the county as a whole, that is, if you will make me your sheriff I will do nothing to bring reproach upon the county or myself, and you will not be ashamed of me as your Sheriff. If elected, I shall be as lenient as possible with you in settling your taxes; but will collect when they become due as the law directs. Be sure and pay your poll tax before the first day of May, 1914, so you can vote on election day without being challenged.

Thanking you in advance for any support that you may give me.  
Respectfully,  
WILLIAM B. WINDLEY,  
Washington, N. C.

Good Cheer Aids Digestion of Food

Dyspeptics Can Make the Rest of the Family Happy by Using a Laxative-Tonic.

The temper of the family and the good cheer around the table depend so much on the good digestion of each individual present that the experience of some former dyspeptics who overcame their trouble should be of interest to those now suffering in this way.

The best advice one can give—but it is advice that is seldom heeded—is to eat slowly and masticate each mouthful carefully. However, if slow eating and careful mastication fall the next aid is an excellent digestant, and in addition to helping in the digestion of the food, acts gently on the liver and bowels, ridding them of the accumulation of waste that should long ago have been passed off. It is safe, reliable, pleasant-tasting, and results are guaranteed.

Maj. S. Martin of Joplin, Mo., now 77, thanks Dr. Caldwell's Syrup Pepsin has helped him to a longer and happier life. He has not felt so good in years as he has since taking this excellent medicine and in spite of his 77 years he says he feels like a boy.

It is the ideal remedy for indigestion, no matter how severe; constipation, no matter how chronic, biliousness, headaches, gas on the stomach, drowsiness after eating

and similar annoyances.  
You can obtain Dr. Caldwell's Syrup Pepsin at any drug store for fifty cents or one dollar, the latter size being bought by heads of families already familiar with its merits. Results are always guaranteed or money refunded.  
When you use Syrup Pepsin you will see the fallacy of chewing mints and tablets or of taking cathartics, salts, pills and similar drastic medicines. Unlike these, Syrup Pepsin does not lose its good effect, and by automatically training the stomach and bowels muscles to do their work soon restores these organs to normal.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. R. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

The Kind You Have Always Bought

Bears the Signature of J. C. Watson

Beaufort county, North Carolina, is trying to repay the loan.  
Williston, N. D.—J. J. Mayer, who five years ago hired a horse from Boyd Bros. of this city, failing to return with it, has been converted and wants to settle. In a letter from Kellough, Ida, to Sheriff Olson, Mayer explains the circumstances surrounding his theft.  
Mayer engaged the horse, riding eight or ten miles west of Williston, where he traded it for another animal, continuing westward. Now Mayer believes the horse was found by his right owners and seeks to settle with the injured third person. But it so happens that Boyd Bros. never found their horse, and they submitted to Mayer a proposition of settlement.

TO ATTEMPT OCEAN FLIGHT.

Allen, Sent Out of Russia, to Fly an American Flag.

Minneapolis, N. Y.—Since Alan Baykov, a graduate of the Russian flying school in Paris, announced his intention of trying for Lord Northcliffe's prize of \$50,000 for a flight in an aeroplane across the Atlantic, many have sought for hanger at the aviation field, where Baykovsky said he would construct his machine.  
According to his meager description, the craft he has in mind would be a

gigantic affair with two propellers, a tremendous spread of wings and four 200-horsepower motors.  
He now has a machine which he has been experimenting with at Mincola, keeping his hand in the game until he can fulfill his desire to carry an American flag across the Atlantic in an aeroplane. And Baykovsky says he will carry an American flag, as he came to this country following an edict of the Russian government that he could not fly in that country because he is a Jew.

GIRLS' COLLEGES AID RACE DEGENERACY

Professor Johnson Says He Can Prove This by Statistics.

Washington.—That women's colleges, from the viewpoint of eugenics, contribute toward the degeneracy of the race and ought to be abolished is the conclusion of Dr. Rowell H. Johnson, professor of biology in the University of Pittsburgh, after a careful investigation. His figures show that women's colleges discourage girls from marrying.

Professor Johnson believes the time is coming when all women's colleges must be converted into coeducational institutions, and he suggests that, for the present the anti-eugenic influence of the colleges might be mitigated through the substitution of men and women for teachers.

Professor Johnson sets forth the results of his investigation in the current issue of the Journal of Heredity, the official organ of the American Genetic association. He has collected data in regard to Wellesley college which are significant. Professor Johnson says:

"Taking the Wellesley graduates of the classes of 1905 to 1912 inclusive, it was found that 19.1 per cent of them were already married in the fall of 1912, when the facts were collected. But for those whose scholarship was sufficiently high to entitle them to membership in the honor society, Phi Beta Kappa, the ratio of marriage to that of those who did not make this society was as 15 to 19. In other words, high scholarship in college women is, in this case at least, not found to be an aid to marriage, while with the normal schoolgirls the opposite is the case.

"In this same tabulation it was found that the alumnae of Wellesley college who were members of the Phi Beta Kappa had an average of .065 of a child each, while the rate for the girls who had not attained the same distinction in scholarship was .085.  
"The ominousness of this declining marriage rate is aggravated by the low birth rate. Only the earliest classes, with one or two exceptions, have enough children to reproduce the class."
