MORE MONEY FOR GOOD ROADS.

According to figures compiled by the department of agriculture, expenditures in the United States for improvement of roads have more than doubled since 1904. In that year money spent for road improvement amounted to \$79,771,417, while in 1913 the expenditure was in excess of \$103,000,000.

EXCELLENT ROADS ABROAD.

Average Cost of Maintenance in France and England.

So much is heard about the excellence of roads in England and France that occasionally some consideration of their cost is helpful to a fuller appreciation of what will be necessary in order that systems of equal merit might be developed here, says a writer in a recent issue of the Engineering Review.

The road mileage of France is 571,000, and the cost at a time when wages were very low, was \$1,000,000,000. On this basis to secure a system for the 23,000 miles of highways in Massachusetts would require the expenditure of \$100,000,000. Moreover, France spends \$45,000,000 per annum for maintenance. This is about 130¢ a mile a year, a figure which, of course, as an average means very little, since on the main roads a much greater amount is spent and on the minor roads considerably less. The minister of public works, too, is recommending that \$50,000,000 additional be provided during the next ten or twelve years for some bituminous binder on 6,000 miles of national highways, where it is greatly needed.

Turning now to England, where the road surfaces are, on the whole, better than those in France, it is found that the average cost of maintenance on the 27,500 miles of main roads in England and Wales is \$75 per mile per annum and that on the 85,000 miles of rural roads in England the average cost of maintenance is \$115.

While these figures should not and in fact will not discourage persistent effort to improve highway systems in this country, they may well be borne in mind to silence those who see little good in our own work and much good abroad. True it is that in some sections of this country appropriations for a few selected routes have compared well with those quoted; but, taking the country generally, the amounts available have been pitifully small as compared with English and French practice.

The Voice of Cash.

Apropos of a young girl's rich marriage an official said:

"Our girls don't marry disadvantageously as often as our boys do. In the whirl of love the female doesn't seem to get quite as dizzy as the male does."

"A pretty girl told me the other day that she was engaged to a very rich landowner."

"Well, well," said I. "And here we all thought you'd marry the eloquent young preacher who took you about so much last summer?"

"The girl smiled."

"Deeds speak louder than words," she said.—St. Louis Globe Democrat.

GOOD ROADS ARE LARGE ASSETS

They Help to Make Money For the Farmer.

BOOST PROPERTY VALUES.

A Piece of Real Estate is Valuable, as a Rule, in Proportion to the Number of People Who Pass It Daily—Good Roads Mean Good Business.

By HOMER MCKEE.

The job of the advocates of good roads is to see the taxpayer and the voter on this proposition. The little that good roads in your county would cost you personally amounts to nothing compared with the amount good roads would add to your net yearly income.

Whenever you show a man that by giving you a quarter he can obtain in return from you 75 cents he is going to spend the quarter. There has been too much sentiment in this good roads agitation. The tendency has been to ask support for good roads on the basis of patriotism. Farmers have been told that they should support good roads in order that America might keep pace with Europe on a basis of international and interprovincial communication. America is essentially a commercial nation. Good roads, therefore, if they are to be general, must be advocated on a national basis. If this national appeal is to strike home it must be a practical one. The practical phase of good roads is obvious. Good roads increase property valuation. A piece of real estate is valuable, as a rule, in proportion to the number of people who pass it daily. Town property will increase in value as the town becomes more important, as the people coming in contact with the town increase numerically—and that is exactly what happens to a town when farmers can get to it. Good roads leading into a town mean wealth coming into the pockets of its local business men. Country people come to town to spend money. Good roads give country people an added incentive for coming to town and spending their

A GOOD ROAD INCREASES VALUE OF PROPERTY.

money. If you are a town merchant or a town banker and you want that great wealth of the country diverted your way support good roads. It's the proper business thing to do.

But of all those who make money out of good roads the farmer reaps the biggest benefit. Suppose you own a farm of 100 acres and a road skirts it on one side—one mile of road, let us say. Suppose that road is clay and gets half deep in the winter. Then suppose the county should change it to a good macadam pike and that your share of the expense amounted to \$100. Of course you know the gross expense would be borne by the township on a basis of the total physical valuation.

When the road is finished your farm will actually be worth something like \$5 more on the acre. The increased ease and frequency with which you are now enabled to get to your place of market assures you an increased earning capacity of at least \$5 per acre on your 100 acres. Thus by expending \$100 you have put \$500 in your pocket, and you will probably have obtained the greater part of the \$500 before your road tax is payable.

Good roads are not a liability; they are an asset. They don't cost you money; they make you money. It isn't a question of whether or not you can afford good roads. The question is, How in the world can you get money enough together to do without them? Lack of good roads costs like the mischief. This most expensive road in the world is the one you can't use.

Bad roads wear out wagons, ruin horses, make it impossible for you to get to town when your farm stuff will bring the topnotch price, depreciate the value of your land, tend to make you a hermit, to keep you out of touch with things and thereby to make you a poor or trader and a poorer money maker.

The completion of several transcontinental roads will make a metropolitan man of the farmer. It will tend to make city values of farm values. When the big roads are done you can devote yourself a little more to truck raising, that most valuable pastime of the real farmer, and you can get your truck to town while it is still fresh, as well as milk money from your cows because you can haul fresh milk to the creamery. This is a lot better than churning it yourself. It means less work and more money and quicker money.

"By the way, captain," said the sweet young thing on the second day out, with a smiling attempt to be chummy, "where does Mother Carey feed her chickens?"

"In the trough of the sea, young woman," replied the captain of the ocean liner, with solemn dignity.—Chicago Tribune.

Notice of Summons and Warrant of Attachment.

The defendant, above-named, will take notice that a summons in the above-entitled action was issued against said defendant on the 15th day of April, 1914, by George A. Paul, Clerk of the Superior Court of Beaufort county, directed to the Sheriff of New Hanover county; which said summons has been returned by the sheriff of New Hanover county, endorsed "defendant not to be found in this county"; that an alias summons has been issued to the Sheriff of Beaufort county against said defendant on the 15th day of May, 1914, which said summons has also been returned by the Sheriff of Beaufort county, endorsed "defendant not to be found in this county"; that a warrant of attachment was issued by the Clerk of the Superior Court of Beaufort county on the 15th day of April, 1914, against the property of said defendant in Beaufort county, North Carolina.

That said action arises out of a breach of contract between the defendant and plaintiff, and the plaintiff claims as damages the sum of \$268.85.

The defendant is, therefore, required to appear at the next term of the Superior Court of Beaufort county, to be held on the 5th day of October, 1914, and answer or demur to the complaint, or the relief demanded will be granted.

This 15th day of May, 1914.

They All Demand It

Washington, Like Every City and Town in the Union, Receives It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies that are tried, but do not bring lasting results to thousands. Here is Washington evidence of their merit.

Mrs. Lina Arthur, Sr., 528 W. Second St., Washington, N. C., says: "I suffered greatly from dull, nagging backaches. I could hardly get around at times, and was afraid to move on account of the knife-like stings in my loins. My kidneys were weak and so, doubt, caused all this trouble. I saw Doan's Kidney Pills advertised and getting a box from the West Drug Co., I began using them. They relieved the trouble. I am willing to confirm my former endorsement of Doan's Kidney Pills."
