CAMPING PARTY AT "NIGHT HAWK INN" HAD A GREAT TIME SAYS THE DIARY

Second and Last Installment of Their Experiences Given Below. All The Party Had a Royal Good Time and Want to go Again.

That make was a huge water moccasin. My, but we were seared near hout to disth—but I kept my sentilibrium and just laughed. You know it is always best to send forth while in times of decision than a sear. My tears were those of joy, we had good luck loday for some thoughtful prospective bonedict han remembered "Jo" Bowen with a pound box of caught from which we all get a lite—it was good too. My part was thrown to me, and would you believe it, I caught about a dorn pletes without dropping them. I remained applaces for my agility—don't you think it deserved? Uncle Jack cause agains today. Again his car simply groaned under the weight of good things. He treated us to a ride down the read and then we returned for supper. That meal was "out of sight" and the best part of it was strawberry uream to wash it down, which we said all. All of us were girts of few words as long as that cream lasted. Sybills actually the following the colored man back. This caused the colored man that cream lasted. Sybills actually the first the ground he landed on his back. This caused the colored man down, which we all did. All of us the snake over the fence and in were girls of few words as long as that cream hated. Sybilia actually lithed the spoon. Our gaest for the night was Ada—she hashight a cot with her. Of course we had music with her. Of course we had music of our some. "In the Good Old Summer Time." 'Ob. for a Man," "All ter the Bull," "Tell the Boys We are Rifil Single," Ada gave us a good night warble the "Rosary." Gee, can't Ada sigs. Rils Lee spont the next day and night with me. When she came her spron was full of undwiches and divinity cream. Although in sed we talked until the ween Banana Bill and Water Fowle Telating their experiences while in ove who could sleep, especially I, for such things never tailed to inter-

and who and divinity cream.

Although in bed we talked until the wee ama hours.

Fifth Day

Breakfast was hardly down our throats before we spied boys coming to enjoy the day with us. They they enjoy they enjoy they are day this increase, we had no excuse for sleep they are day and allowing us to show them the insisted upon their breaking ing late. Ella Lee and Helen had to be on their lob in town. Before we were up early this bread and allowing us to show them to be on their job in town. Before we were dressed William Blunnt arrived for them. This was packing the the party.

only brought enedy and this appears
ed their appetite and ours as well

DEP. GRAND MASTER GUEST

Will Pay Official Visit to The Lodge Tuesday Night. Will Confer Fellow Craft Degree. Refreshment Served.

There will be a regular communication of Orr lodge No. 104 A. F. and A. M., at their hall, corner of Third and Bonner streets Tuesday evening

At this meeting there will be an official visitation by the District Dep-uty Grand Master, Hon. James H. Harris, who will confer the Felow Craft degree. All members of Orr lodge are earnestly requested to be present as it is desired to give the District Deputy a full meeting. visiting brethren in the city are cordially invited. Refreshments will be served. By order of Worshipful Master. O. M. Winfield, secretary.

OF SPEAKER

Taking as his taeme "The Jude nent" one of the strongest sermons heard in Washington in years was delivered at the First Presbyterian Church last evening by Evangelist H. Wright. The church was packed with an appreciative audience and sit spellbound under the burning words of the preacher from the beginning to the end. It was a great subject, handled by a great thinker. It was truly a feast of good things for those present and notwithstanding the heat no one seemed tired or fatigued. Prior to the sermon Messrs. Wright and Good sang a duet and Mr. Good a solo. After the sermon Mr. Wright render-ed two soul-stirring solos. Considerable interest was manifested and the outlook is still bright for a great meeting.

This morning Mr. Wright address ed the women. There will be services again this evening at eight o'clock and each night during the week. All are cordially invited.

It's Restful in Washington Park-

bacco is planted.

Injury to tobacco occurs when this crop is planted on land that was weedy during the previous year. Crops planted on land which has been under clean cultivation are immune. The weeds which have been found to be the more common natu-ral food plants of the worms are the buckhorn plantain, oxeye dalay, stickweed and whitetop. The presence of these weeds in meadows accounts for injury to tobacco when planted on sod.

The worms when once established in land where their natural food plants are abundant have been found difficult to control. Various insectied, but without satisfactory results.

Fall or winter plowing has been found to reduce injury, but is only partially effective, as some of the reeds remain alive and furnish food for the larvae until the tobacco or corn is planted.

orm is evolved is medi small in size and colored brown vel low and white. Some have metallic marks on the fore wings which are comparatively long and usually nar-When raised, the fore wings are rolled around the body and conceal the hind wings, which are folded beneath. This gives the body the appearance of a tiny cylinder, and accounts for the term that is applied to it of "close wings." moths fly mostly on dark afternoon or during the early part of the night They are more common in open short flights, rarely flying more than a few rods at a time. They usually alight head downward on stems of plants, and their color often harmonize so perfectly with their surroundings that they can scarcely be seen. They therefore, seldom st-
