

Studebaker's
SIX
\$1575

There's only one scientific way to build a light "Six" and that's the Studebaker way—the manufactured way

Studebaker, generally, gets lightness with doubled or trebled strength—by heat treating the steels. The other way—the dangerous and weakening way—is to assemble parts—not heat treated, and get lightness by reducing size.

Or, sometimes, a so-called light "Six" is simply a "Six" slightly smaller than a large "Six" and practically as heavy.

The Studebaker SIX moreover, is perfectly aligned, perfectly lubricated, perfectly balanced.

Thus friction and vibration are reduced and long life promoted.

The owner of the Studebaker light SIX, therefore, gets greater value than can be given with smaller production, in which any lowering of price necessarily means a lowering of quality.

Send for the Studebaker Proof Book describing Studebaker manufacturing methods.

BAKER SAYS
To his mind every good bright boy and girl ought to be interested in securing a good photograph of mother and father. Says Baker, I am in a position to know that there are lots of people with big families of children who haven't a picture in the world of themselves. Some wives haven't a picture of their husbands, husbands haven't a picture of their wives. It is too bad. I mention this because it is a fact, and it is my business to call your attention to what may be your duty. It is up to you to do your think ing. **BAKER'S STUDIO.** 6-3-2tc.

CITY ORDINANCE

The Board of Aldermen of the City of Washington, North Carolina, do ordain:

First: That it shall be unlawful for any person to throw any written or printed notices or posters of any kind or description upon any of the public streets or alleys of the City of Washington, or in any yard or lot in said city, or to distribute same upon the streets or alleys of the city by handing or delivering them to the passers by.

All persons who shall carry or send out written or printed posters or notices shall be required to deliver them to the occupants of houses, or place them under the front door of said houses.

Second: Any person who shall violate the provisions of this ordinance, shall, upon conviction, be fined Ten Dollars (\$10.00). 6-3-10tc.

Bronchitis And Cough Cured

J. R. EARLY WRITES OF BEAR'S EMULSION.

Undoubtedly One of the Best Preparations Ever Made to Tone Up the System.

John D. Bear, Elkton, Va. Dear Sir—I have used and recommended Bear's Emulsion for 3 years and before or since I purchased the first bottle I have never seen anything that would relieve the bronchitis for my little girl so promptly as it does. I have used for myself and other children.

Before getting the Emulsion I have stayed away from church on account of a dry-hacking cough that I had. Now I take a dose before starting to church and am never bothered during preaching.

I will in good faith recommend it to any one needing anything for coughs, colds, or bronchitis.

J. R. Early. At one dollar a bottle or six for five dollars; can be supplied by any druggist or will be sent direct.

For sale by Worthy & Etheridge.

PROBLEM IS NOT DECIDED MEDIATORS

Niagara Falls, Ont., June 2.—After a two-hour conference between the mediators and the American delegates yesterday the question of admitting the Constitutionalists into negotiations for the settlement of the Mexican problem still was undecided.

The desire of the United States to have the Constitutionalists heard here has impressed the mediators, however, and they are taking a more favorable view of it.

After the conference Justice Lamar distated the following statement:

"We had a conference yesterday morning in which we continued the discussion of a point on which we had not agreed on Saturday. The matter is still under discussion; but we found in our talk that we were not so far apart in our construction of certain phases and we are still quite hopeful."

The mediators have taken the position that they will admit the Constitutionalists if they are ready to agree to an armistice with Huerta and will come prepared to discuss internal as well as international phases of the situation.

While the last note from Carranza did not make clear his attitude with respect to these points, it was understood that the Washington government had obtained since then more information about the attitude of the Constitutional chief and that this had been laid before the mediators.

The American delegates were delayed in reaching the Canadian side by the receipt of a long cipher message from Washington in relation to constitutionalist representatives.

The American delegates, it was reported, would await the decision of the mediators on this point before delivering the Washington government's answer to the essentials of the peace plan previously outlined.

McLean Hear From Huerta
The Mexican delegates also received a long message from their government in which General Huerta was understood to have given his views on proposals already made and to have added other suggestions. These may be in the form of counter proposals.

The Mexican delegates had reported to Mexico City the situation brought about by the injection of the constitutionalist phase in the negotiations.

Rebel Tug Makes Two Raids
On Board U. S. S. California, Mazatlan, Mexico, May 31.—(Via Wireless to San Diego, Cal., June 2.)—The constitutionalist tug Hercules, emboldened by its successes under cover of darkness last night, when the provision barges were captured and the schooner Garibaldi which had a cargo of sugar for the United Sugar Company of Los Mochis.

Arrest Leader of New Revolt
Washington, June 2.—Brigadier General Bliss reported to the War Department the arrest of Quevado and his followers at El Paso yesterday. It is understood Quevado was heading a new revolution in Chihuahua. He will be sent to Fort Wingate, N. M., with other Mexican refugees.

U. S. Naval Servant in Mexican Prison
The Brazilian minister in Mexico City informed the State Department that Gregorio Alcaraz, servant of Captain Rush, of the battleship Florida, who went through the Mexican lines, now is in prison in Mexico City. The minister is seeking his release.

At the instance of the Brazilian minister the Huerta government is investigating a report that William Hbs, an American, was executed at Salina Cruz May 6.

New York Show Tells How To Save The U. S. Forest

The forest products exposition now being held in New York presents many models and charts from the forest service which show utilization of wood, particularly the use of by-products.

The amount of wood used and wasted is shown in a series of models depicting all stages of the lumber industry from the tree standing in the forest to the boards and shingles in the finished dwelling. The first model of this series shows a number of trees standing in the forest. The next model shows these same trees felled, and forming a pile of logs and a heap of tops and branches. The succeeding step is a miniature sawmill, beside which are piles of lumber, of slabs, and of sawdust, all from the logs shown in the previous models. The next model shows what becomes of the rough boards after they have been through the planing mill; the resultant material in several places—

one of shavings and woodchips, one of shavings, and one of the planed boards. The boards are newly finished, showing their smooth surfaces which are the tops and ends of the lumber left over from the building.

What Wood is Wasted.
The relative amount of material used and wasted is indicated roughly in these models, but is shown according to actual facts in another part of the exposition in a series of diagrammatic charts. In the logging process, 13 per cent of the standing tree is left in the stumps and tops, leaving 87 per cent to go to the sawmill.

How Waste is Utilized.
But all of the two-thirds need not be wasted. Some of it at least should go into by-products, according to the forest service which is studying such utilization. The bulk of the waste, such as tops, bark, slabs, and edgings, can be made into charcoal, turpentine, tannic acid, wood-alcohol, acetate of lime, pulp and paper, and even the sawdust is made into wood-alcohol and grain alcohol, and used in different forms for fuel.

Non-Inflammable Shingles
Another exhibit consists of the inflammability test upon shingles treated with certain chemicals. One-half of a shingle is treated, the other half left untreated. With the best preservatives so far devised, a flame which causes the untreated half to burn does not affect the treated half.

Another exhibit shows a small running model of a paper machine. This is used in explaining the process of making paper from wood. The samples of paper made at this laboratory from woods illustrate the possibility of using new species and utilizing the mill waste.

The cup system of turpentine is on exhibit. This system is not as injurious to the tree as the old boxing method, reduces the fire hazard and gives greater yields. The forest service the use of the cup system and the exhibit will show the two methods contrasted, both as to injury to tree and difference in yield.

A Miniature National Forest.
Beside the main exhibition relating to forest products, there are certain exhibits relating to other branches of forestry. One of these consists of a miniature model of a Rocky Mountain national forest. This model shows a ranger station and a government tree nursery, besides a system of roads, trails, bridges, fire lookout towers, and telephone lines, all built and maintained by the government; by means of

them the national forests are both protected from fire and rendered accessible to man.

Danger in Delay

Kidney Disease And Too Dangerous For Washington People to Neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lameness, urinary troubles, dropsy, gravel and Bright's disease often follow in merciless succession. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which so strongly recommended right here in this locality.

Mrs. C. Barabill, Farmdale, N. C., says: "I suffered from severe backache, pains in my sides, headache and dizziness. My kidneys didn't act as they should. I used Doan's Kidney Pills and they were beneficial. They relieved me of the backache and also removed the other annoyances caused by my kidneys."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Barabill had. Foster-McBurn Co., Props., Buffalo, N. Y.

FOR SHERIFF

To the Democratic Voters of Beaufort county:

Having received many inquiries from my friends from the different sections of the county as to whether I will be a candidate for re-nomination and election and expressing their desire to vote for me again, I take this method to express to my friends my sincere thanks for their loyal support heretofore and if you think I am a worthy officer and have discharged the duties of the office well and carefully guarded the county's interest, then I ask you to give me your hearty support in the primaries and I will serve you as best I can two more years—serving your process and collecting your taxes as modestly as it can be done to collect as closely as I have since I have been your sheriff. By reference to the financial committee's reports you will find my insolvent lists for each year have been about two per cent of the taxes.

Now if you think a new sheriff, without experience, can do you better service and that you can save to the county money, by making a change, then it is to your interest and your duty, as I see it, to do so. If not the county needs every cent due it and if I am continued by my Democratic friends in the sheriff's office I can only promise to do what I have done, to give you my whole time and undivided service.

Again thanking you for your past favors and for your support at the coming primaries, I am,

Sincerely your servant,
Geo. E. Ricks.

FOR RECORDER

To the Democratic Voters of Chowan, Washington and Long Acre Townships:

I hereby announce myself a candidate for the office of Judge of the Recorder's Court of the above named townships. If elected and honored with this position, I promise to discharge the duties of the office without partiality, fear or favoritism. Guaranteeing to everyone a Square Deal, who will have the mis-

KITCHEN ECONOMY
