a growing demand for more and better road making during the autumn months. In many locali-ties the roads become filled with deep ruts and the wheel tracks so de-pressed during the summer that they collect rains which soon ruin the roads for heavy loads and comfortable travel. There is no reason why a portion of

putting the highways in good condition for travel, says Northwestern Ag cton for travel, any Northwestern Ag-riculturist. The split log drag and other road-making implements should be put to work before the ground freezes. The outside of the roads should be brought into the center of the track which will establish a crust that will shed the water, rather than rotain ratins, which are sure to occur rains, which are sure to occur the late fall and early spring Roads having a full-high cen

water cannot pass. Approaches bridges and culverts should be so lifted with earth that vehicles of all kinds may pass over them without serious joins and fars. Roads are much improved when covered with gravel.
This is a reason of the year when such This is a sensen of the year when such work can be accomplished at a minimum expense. Every township should own gravel pits from which road-mahing material can be cheaply obtained. Concrete runds will soon become popular. The same material only should be used in making small bridges and culvers.

Porridge Unjustly Accused Porridge Unjustly Accused.

It is asserted and also denied that porridge was the cause of Thomas Carlyle's ruined digostion. Sir Richard Quain said porridge had nothing to do with his ruined digeation. Sir Richard stated in the British Medical Journal of November 9, 1885, that "the wretched dysnepsis to which Mr. Carlyle was subjected was fully accounted for by the fact that he was particular ly fond of very nasty gingerbread Many times I have seen him sitting it the corner smoking a clay pipe eating this gingerbread."
