Belgian Inhabitants Are In Desperate Position: Many Homes Destroyed

AUSTRIANS HAVE LOST THOUSANDS OF TROOPS IN LAST THREE DAYS

(By the United Press.)
London, Aug. 22.—The position of the Belgian inhabitants at Liege is today reported to be desperate. The Germans have already demolished a score or more of houses. The inhabitants are shooting at the troops from the tops of houses.
The dispatches confirm the report that a war tax of ten million on the province and two million on the city has been levied. The inhabitants are protesting as there is no money nor way of raising it.
The officials of the war office declare that the Germans will be checked just as soon as they reach the main defenses of the Allies. They have no hesitation in admitting that the fighting is serious and that it is now testing the strength of the Allies.

GERMANS KILL BURGOMASTER

ALSO SHOOT OTHER PROMINENT CITIZENS IN BELGIAN MUNICIPALITY IS REPORT.
(By the United Press.)
Paris, Aug. 22.—The war office says that the Germans have shot the Burgomaster Caeshot and other prominent citizens in the Belgian municipality.
The German army is moving along the north and along both banks of the Meuse. In passing through Namur they left a heavy force of artillery for the purpose of reducing the fortifications which will be the final outcome is the surmise.
These forces are now striking the first French lines. It is rumored that the Germans in attempting an enveloping movement it is believed by them that they have bottled up the Belgians.
It is admitted that the German cavalry has been of great service. They have raided in every direction and have given the German commander and his staff much needed information. Reports say that Belgian concentration in Antwerp is now complete and that the entire army is now there. The army has been withdrawn from the lines previously planned. They are now intact and have formed an able force which is constituting a serious menace to the German rear.
It is admitted that the Germans have assumed the offensive in both Alsace and Lorraine. The Germans are reported to be again attacking the French troops.

KAISER WILL WAIT TO LAST

BEFORE MAKING HIS REPLY TO THE ULTIMATUM OF JAPAN IT IS NOW THOUGHT
Washington, D. C., Aug. 22.—Owing to the belief in official circles that the German government will avail itself of the last minute before replying to the Japanese ultimatum demanding the evacuation of Kiao Chow and withdrawal of the German fleet from the Orient, the exact moment when this ultimatum expires has become a matter of special interest. In the Japanese note Germany was given until noon August 23rd to answer. But noon in Tokio and noon in Berlin of August 23, are separated by many hours.
If the answer is made through the German Embassy at Tokio the Berlin government must address itself to the Japanese by the devious method of cable communication passing through the hands of the enemies, the British, and must start the message from Berlin tomorrow if it is to reach Tokio by noon Sunday.
On the other hand if Germany takes the ground that the terms of the ultimatum may be met by a response delivered to the Japanese Embassy in Berlin the reply may be delayed until a few moments before noon Sunday, Berlin time.

TELLS JAPAN THIS WILL BE POSITION OF THIS COUNTRY IN PRESENT CRISIS.
(By the United Press.)
Washington, Aug. 22.—The United States government this afternoon notified Japan of its position. The substance of this country's stand in the present crisis was "Hands Off."
The German Embassy has announced that it has received news that the German forces gained an important victory between the Metz and Vosces mountains.
Apparently acting upon the assumption that hostilities between Japan and Germany is now inevitable the Ambassador to China has arranged with Secretary Bryan for the transmission of the note to Berlin. China has intimated that it will care for certain details should Germany's answer to Japan's ultimatum be unfavorable.
The Bulgarian minister Havelieth called on Sec. Bryan today and made a formal protest against Germany's action in violating the Belgian neutrality law.

Farm Conditions Ideal This Fall

FOR HARVESTING THE SEASON'S CROPS THROUGHOUT THE STATE OF CALIFORNIA.
Sacramento, Cal., Aug. 22.—The California commission of immigration and housing does not maintain that living conditions will be ideal this year for army of migratory laborers who will harvest the season's crops throughout the State. But one thing it does assert—that conditions will be better for this class of toilers this year than ever in the past.
The change is the result of the riot on the Durst hop ranch at Wheatland, in August, 1913, in which four lives were lost and in connection with which two men are under sentence today to life imprisonment in the Folsom penitentiary. Some quarrel of wages were involved in this outbreak but in the main the trouble was due to complaints concerning living conditions on the ranch.
The immigration and housing commission made a thorough investigation of these conditions during the trial and returned a report so strongly worded that much of it was unprintable, more than corroborating the stories told by the workers. Moreover, it was asserted that a similar situation prevailed on many another California ranch and employers were warned that there must be an improvement or industrial troubles of the gravest character would be inevitable.
During the summer members of the commission have inspected nearly 500 labor camps. They announced that employers have met their suggestions more than half way.
