

IN LONDON AND PARIS THERE IS CONFIDENCE IN THE FINAL RESULT

The Germans state in their reports that the present battle is succeeding satisfactorily for them.

Both in London and Paris there seems to be the greatest confidence. Although some surprise is expressed, at the success of the Germans in preventing the outflanking movement. It is thought, however, that the Germans cannot extend their line much farther north without weakening it at some point.

The progress by both sides is reported to be extremely slow. For a time every advance the troops making it must entrench themselves in order for protection against the shells from the enemy's guns, which are said to be gazed in strong positions from one end of the line to the other.

General von Kluck, with reinforcements from the German center, is now making a determined stand against the attempt of the allies to outflank him.

The defeat of the German army which invaded Russia from East Prussia appears from Russian accounts to have been more decisive than was previously reported.

The Russians are now moving forward with the intention of again invading East Prussia.

Before the Russian advance in Galicia the peasants are fleeing the country, and it is stated that already 25,000 of them have already reached Bohemia.

While there has been no confirmation of the report Portugal is now prepared to take up arms with the allies against Germany whenever England calls upon her to do so.

THE ALLIES YIELD NOW SOME GROUND

Paris, Sept. 6.—The following official communication has been given out: "On our left wing to the north of the Oise, the battle continues with great violence. The result remains undecided. We have been obliged at certain points to yield ground. Along the remainder of the front there has been no change. In Russia after a battle which lasted ten days the German army which was operating between the Eastern Prussian frontier and the Nieman river has been driven back along the entire line and made its retreat abandoning a considerable quantity of war material.

Mr. Editor: I see in a recent issue of The News that the name of the undersigned has been placed on the Socialist ticket as candidate for representative.

Again thanking my friends for their good wishes,
Respectfully,

STEEL ORDERS FOR UNITED STATES.

Pittsburg, Pa., Oct. 6.—Each day witnesses a growth in the number of small orders for steel from the other side, the results of the European war. Among the orders are one from France for 20,000 saddles, and the same number of bridles; an order for 4,000 tons of reinforcing bars for shipment to Buenos Ayres; another for several thousand tons of steel billets for export to England, and others for many thousands of kegs of horseshoes, nails and calks. A feature growing out of the war is that certain kinds of steel, which is supposed could be secured only in Belgium, can be manufactured, and at less cost, in this country.

RECORD WHEAT CROP SEEMS CERTAIN.

Chicago, Ill., Oct. 6.—A record-breaking acreage sown to winter wheat this season seems a certainty. To date the trade has not paid much attention to the increased acreage, which is not likely too much of a factor, while conditions continue abnormal. The present lack of outside interest is laid to the public's disappointment in the effect of the war news on the market. It will take some big events in Europe or an enormous export demand to bring back interest.
