in that vegetable matter is essential to the maintenance of open battle, but an ordinary case of scurvy may be treated. It may be used and allowed to stand for a short time, which causes the lime and acids to form small crystals of calcium malate. The result is that red-rotted through the filter press, which removes the crystals of calcium malate and leaves a syrup with practically ordinary sugar syrup. Its flavor, however, and appearance are distinctive.

Calcium malate, the by-product, is a substance used in medicine and at present selling for \$2 per pound. It is believed that if calcium malate can be produced in this way cheaply and in large quantities, it can be made commercially useful in new ways, possibly in the manufacture of baking powder.

The cost of making this syrup on a commercial scale will be determined during the test in October.

PEOPLE YOU KNOW ABOUT

E. L. Clark, of Greenville, N. C., is a welcome visitor to the city today.

W. A. Thompson, of Aurora, N. C., is in the city.

H. I. Gibbs, of Oriental, N. C., chief assessor, fish commissioner, registered at Hotel Louise last evening. He left this morning for New Bern via the Norfolk Southern.

J. F. Latham, of Jessama, N. C., was on our streets this morning.

E. R. Bailey, of Raleigh, N. C., is in the city today.

T. H. Hodges, of Bethel, N. C., was a passenger on the Atlantic Coast Line train last evening.

Mrs. Georgia Godfrey, of Newport News, Va., is the guest of Mr. and Mrs. Jesse Hodges at their home on East Second street. Mrs. Godfrey was several years ago a resident of this city. Her many old friends are delighted to see her.

L. J. Moore, of New Bern, N. C., is a business visitor today.

Surry Parker, of Pinston, was in the city yesterday on business.

Clifford Harris and L. Howard, of Belhaven, N. C., were here yesterday.

Misses Peacock and Barrow, of Belhaven, N. C., were guests at Hotel Louise yesterday.

W. A. Powell, of the Norfolk Southern, was here yesterday.

George Baker, of Belhaven, N. C., is in the city today.

W. J. Williams, of Windsor, N. C., was on our streets this morning.

Rev. E. M. Stipes, pastor of the First Methodist church, returned from Bath, N. C., this morning where he officiated at the Swindell-Midwint wedding in that town last evening.

NO BRACE BATTLE

OF LONG ISLAND

Brooklyn, N. Y., Oct. 12.—When the payment of Brooklyn is presented beginning today and lasting through tomorrow and Saturday, one of the principal things of interest will be the re-enacting of the battle of Long Island, on the very spot where it was originally fought. A large portion of that famous battle ground is now enclosed within the area of Prospect Park, and the great outdoor spectacles will take place in front of Battle Hill and through Battle Hill and through Battle Pass. It was here that one of the fiercest skirmishes in the battle of Long Island was waged, and here men picked from Brooklyn's regiments, will re-enact the battle. An elaborate musical program has been arranged, which includes music of every period. An Indian death dance, a Dufay dance, the minstrel set in the picturesque episode of Malrose Hall, leaving of the Fourteenth Regiment during the civil war, and their return will also be shown. All together, the pageant will employ about 2,000 men, women and children, and it is expected that many hundreds of thousands will witness the spectacle.

Stop Those Early Bronchial Coughs

They hang on all winter if not checked, and pave the way for serious throat and lung diseases. Get a bottle of Foley's Honey and Tar Compound, and take it freely. Stops coughs and colds, heals raw inflamed throat, loosens the phlegm and is mildly laxative. Chas. T. Miller, Ed. Esquire, Cannelton, Ind., had bronchial trouble, got very hoarse, coughed constantly from a tickling throat. He used only Foley's Honey and Tar Compound. Was entirely relieved. Wants others to know of Foley's Honey and Tar. Davenport's Pharmacy.

STILL IMPROVING.

The many friends of Mr. J. B. Ehorn, who resides at Doyles, N. C., will be pleased to learn that he is still improving from his recent accident. He met with the misfortune several weeks ago to break his leg near the ankle.

Life's Many Parts.

Life that is not a madness, an obsession, is a mosaic made up of many parts. There's a bit of the blue of true love, there's the whiff of an unattained ideal, the rose color of a favorite pastime. In the normal life there is present the gray of duty, the sparse crimson of an occasional vivifying joy, and a bit of gold. The bit of gold is relatively a small part. If the mosaic were all gold it would not be a work of art, but a cubist painter's portrayal of dollar madness.—Exchange.

Check Kidney Trouble, at Once.

There is such ready action in Foley's Kidney Pills, you feel their healing from the very first dose. Backache, weak, sore kidneys, painful bladder and irregular action disappear with their use. O. Palmer, Green Bay, Wis., says: "My wife is rapidly recovering her health and strength, due solely to Foley's Kidney Pills." And W. T. Hutchens, Nicholson, Ga., says: "Just a few doses made me feel better, and now my pains and rheumatism are all gone and I sleep all night long." Davenport's Pharmacy.

Knew What He Was Going For.

Duncan, aged four, was invited to a party. He had to take his nap before he could go. When he awoke his mother said to him, "Well, dear, are you going over to Bobby's to play?" He promptly replied, "No, I'm going over there to eat."

New Form Of Making Table Syrup

Washington, D. C., Oct. 12.—Following extensive experiments begun last spring, the head of the fruit and vegetable utilization laboratory at the Department of Agriculture has applied for a public service patent covering the making of a new form of table syrup from apple juice. This patent will make the discovery, which the specialists believe will be of great value to all apple growers as a means of utilizing their culls and excess apples, common property of any cider mill in the United States which wishes to manufacture and sell apple cider syrup.

The new syrup, one gallon of which is made from seven gallons of ordinary cider, is a clear ruby or amber colored syrup of about the consistency of cake syrup and maple syrup. Properly sterilized and put in sealed tins or bottles, it will keep indefinitely, and when opened, will keep under household conditions as well as other syrups. It has a distinct fruity aroma and special flavor of its own which is described as being practically the same as the taste of the syrupy substance which occurs from a baked apple.

The syrup can be used like maple or other syrup for griddles, cakes, cereals, household cookery, and as flavoring in desserts. The government cooking experts are at present experimenting with its in cookery and expect shortly to issue recipes for use of the new syrup in old ways and for taking advantage of its special flavor in novel dishes.

The department chemists have already produced over ten gallons of this syrup in their laboratories, using summer and other forms of apples. The success of the experiments has greatly interested some of the apple

growers, and during October's large offer mill in the Hood River Valley, Oregon, will in co-operation with the government chemists, endeavor to produce 1,000 gallons on a commercial scale and give the new product a thorough market test by making it accessible through retailers in a limited field. The interest of apple growers in the product arises from the fact that the new apple cider syrup promises to give them a commercial outlet for vast quantities of winter and other apples for which they hitherto could find no market either in perishable raw cider or in vinegar. Cider production, it seems, comes largely at one season of the year during which the market is more or less flooded with this perishable product. The bulk and perishability of the raw cider, moreover, the cider makers state, often make it unprofitable for them to ship the raw cider of one district long distances to a non-apple growing region. The market for cider, therefore, has been largely restricted in many cases to localities near the area of production. No method of sterilizing ordinary cider has been found practical for the reason that boiling cider at once interferes with its delicate flavor.

With the cider mill able to make a palatable, long-keeping table-syrup out of its apple juice, growers, it is believed, will be able to use all excess juice for bottled or canned apple syrup. The new syrup, the specialists had, will keep indefinitely, so that the cider makers can market it gradually throughout the year.

The process for making the syrup calls for the addition to a cider mill of a filter press and open kettles or some other concentrating apparatus. The process is described as follows: The raw cider is treated with pure milk of lime until nearly, but not quite, all of the natural malic acids are neutralized. The cider is then heated to boiling and filtered through a filter press, an essential feature of the process. The resultant liquid

SINGLETON PERSONALS AND PARAGRAPHS

We are having some stormy weather now and the farmers are looking blue over cotton picking.

Misses Amanda Harding and Esie Barr, of Chocowinity, were the guests of Miss Ella Willard from Saturday until Monday.

Messrs. Josh and Wade Waters, of Pinetown, were visitors in our midst Sunday evening.

Owing to business of importance that Mr. Waters had to attend to there aren't any services at Singleton Sunday evening.

Doverer we will have him with us for another year, as he will preach for us here and at Old Ford another year. We are indeed glad to have him, so let us all help make the coming year pleasant for him.

Mr. J. Wesley Woolard, who has been sick for the past few days, is so he can be out again. We are glad to say.

Misses Edith and Jessie Hardison and Messrs. John Waters and Garland Hodges were the supper guests of Miss Lucie Woolard Sunday evening.

Geoffrey the "Tonsome boy," was wearing the smile Sunday night. Can you guess why?

Misses Rosa Hodges and Merton Willard were the guests of Misses Myrtle and Minnie Willard Sunday.

Mr. Bole Green and Miss Thoremonia Hodges passed through our midst Sunday evening in Mr. Green's car.

Mrs. Oscar Woolard and children, of Washington, are spending a few days with her grand-parents, Mr. and Mrs. Enoch Lilley.

Several of our young people gathered at the home of Mr. S. L. Willard's Saturday night. Among them were Misses Amanda Harding, Esie Barr, Lucie Woolard, Myrtle and Minnie Willard. Messrs. Joe and Jess Willard, Ralph and Ase Singleton, Austin Jackson, Ralph Perry, Bruce Leggett, Richard O'Merry, Walter Chissem and Josh Hardison. Music was furnished on the piano by the hostess, Miss Zoie Willard, also Misses Harding and Woolard. All enjoyed themselves very much and went home voting Miss Willard a vote of thanks for their evening of pleasure.

Mr. Joe Willard is suffering with a sore foot. Hope to see him well again soon.

Mrs. Frances Lilley, who has been very sick, is improving slowly.

Mrs. W. S. Woolard and children were the guests of Mrs. A. C. Williams of Old Ford Sunday.

Rumor has it Old Ford and Pinetown teams will cross bats on the Old Ford diamond Saturday evening.

PARENT-TEACHERS CONVENTION

Worcester, Mass., Oct. 15.—The State convention of the parent-teacher association, whose interest is child welfare, is being held here, commencing today and holding over until the 17th. Plans and methods for making the co-operation of the school and home more effective will be discussed. Among the speakers will be Harry Stiles Bradley, D. D., Rev. Dr. Allen King Foster and Mrs. Frederic Schoff, of Philadelphia, the national president. Mayor George M. Wright welcomed the guests.

IS INDISPOSED.

The friends of Mr. S. F. Burbank, Jr., will regret to learn of his indisposition. He has been confined to his home at the corner of Market and Fourth streets for the past week suffering from an abscess of the throat. While some better he is not able to be out.

FOREST NOTES.

Six thousand bushels of lodgepole pine seed are being collected this fall on the Arapaho national forest, Colorado, for use in reforestation work next spring.

The Philippine bureau of forestry has recently invited bids for the cutting of nearly 300,000 acres of choice timber land on the public forests on the island of Luzon.

Officers of the Okanogan national forest in the State of Washington are installing powerful signal lanterns for night use, in reporting forest fires from lookout peaks.

It is said that the first sawmill in the United States was at Jamestown, from which sawed boards were exported in June, 1607. A water-power sawmill was in use in 1622 near the present site of Richmond.

California yew which grows on the national forests of that State is finding some use in present-day archery practice. Its qualities closely resemble those of the old world yew which made the English longbow famous in medieval times.

The Supreme Court of Pennsylvania has decided that the amount of damage collectible on growing set on fire through negligence is not only the value of the wood destroyed, but also the injury to the property as a whole through the destruction of the young growth.

During 1913

The sale of Coffee Decreased in this country nearly 15 Per Cent.

During 1913

The sale of POSTUM Increased nearly 25 Per Cent.
