BRITISH ULTIMATUM IS IGNORED BY TURKEY WHO JOINS GERMANY

London.—Turkey has definitely thrown her lot with Austria and Germany, and if Portugal is counted and the dismantling of the former, with prospects of three more—Greece, Bulgaria and Roumania—being drawn in.

The note which Great Britain presented to Turkey on Friday demanding an explanation of the actions of the Turkish fleet in the Black sea, forces on hand to oppose a Turkish German cruiser—the Goeben and the Breslau—was really an ultimatum to which Turkey was required to make a reply by Saturday evening. So far as is known here, telegraphic communication with Turkey being interrupted, no answer was made, and the ambassadors of the triple entente at the Ottoman capital, it is understood demanded and received their passports.

Turkish troops which had been on the Egyptian border for some time already are reported to have crossed the frontier, while the Turkish fleet continues to menace towns and shipping in the Black sea.

Neither Russia nor Great Britain was unprepared for this move by Turkey, and the allied powers have forces on hand to oppose a Turkish invasion.

When the regular forces were withdrawn from Egypt to take part in the war in Europe, they immediately were replaced by troops from home much greater in numbers, at least, and only last week they paraded through the streets at Cairo, making a splendid appearance.

The problem for both England and Russia, however, is the attitude of their Moslem subjects who, under ordinary circumstances, would prefer not to fight against Turkey.

Another problem relates to the attitude of Roumania, Bulgaria and Greece. Bulgaria, owing her existence to Russia and being under many obligations to Great Britain, is desirous of seeing Thrace as far east as the Kios-Midia line, which she was awarded by the London conference, after the first Balkan war, but which Turkey re-took, when Bulgaria was attacked by Greece and Serbia, would naturally side with the entente. But she objects, politicians point out, to fighting side by side with Greece and Serbia.

Russia, however, is expected to ask Bulgaria definitely on which side she is ranged, as her mere neutrality, under the circumstances, appears insufficient. Should she join the Austrians and Germans, Roumania is almost certain to declare for the allies and Greece, even before this, may decide to take her revenge on Turkey. In fact, it is believed her treaty with Serbia would compel her to take action, should the latter be attacked by Bulgaria or Turkey.

Italy, too, is brought nearer to war by the entrance of Turkey, for she has large Mediterranean possessions to protect.

The fighting in the last few days in Flanders and France has been but a repetition of what has been going on for days past. The Germans have continued to push their attack, aimed ultimately at French coast ports, but, as before, it has been a diamond affair, one side making progress only to lose the ground gained the next night or day.

From the point of view of the allies their position is safe as the Germans are no nearer their goal than a week ago. There have been tremendous losses. While the capture of a few prisoners and guns from one side or the other is a matter of daily occurrence, fighting has become severe along the river Aisne, in the Argonne forest and along the river Meuse, between Verdun and Toul, but so far without making any appreciable change in the troops of the two armies.

The German armies are said by the Russians to have been defeated before Warsaw and Lvov. They continue to fall back and the new Russian front now extends in a semi-circle from Plock, northwest of Warsaw, on through Lodz and Piotrow and Ostrolo southwest of Radom.

In Galicia the Russians are having more difficulty in delogging the Austrians from their position on the San.

It is officially announced that owing to Germans making prisoners of all Belgians and Frenchmen of military age in occupied territory, German and Austrian reservists will be arrested on neutral ships. It is declared, however, that the ships will be subjected to as little inconvenience as possible.

Neither Russia nor Great Britain was unprepared for this move by Turkey, and the allied powers have forces on hand to oppose a Turkish invasion.

Vaudeville New Theater On Tonight

For the first three nights of this week the New Theater has for the amusement of its patrons, "Price-La Ford & Price," an excellent trio. Starting today the New Theater will have from now on the best-line of motion pictures that they can secure. They will still use the associated films exclusively, but they have made arrangements for a great deal better service than they have been getting. As there has been a dissatisfaction with the films that they have been giving their patrons as every picture was a good subject, well rendered. We hardly see how they are to improve on the splendid service that they have been giving, but nevertheless their patrons are an appreciative crowd, and no doubt will show it by an increased attendance from now on. The New Theater certainly tries to please every patron that enters their house, and they deserve the hearty support of the movie fans of the city.

THOMAS A. EDISON AID NAVY MEN

New York, Nov. 2.—A special type of storage battery for use in submarine engines has been invented by Thomas A. Edison, which will replace the present lead batteries. Mr. Edison has been working on this battery for two years, but it was only recently announced by him to a party of 200 hundred from the Brooklyn navy yard, headed by Lieutenant Sterling, who visited the Edison plant in West Orange. The battery now used in submarine generates chlorine gas when its cells become flooded with salt water. This gas weakens the crew and makes them susceptible to pneumonitis for months afterward. The new battery has received thorough tests and passed them all satisfactorily. The invention is a small compact cell, taking only one-half the space of batteries now in use. It is much lighter than the old and produces more energy.
