THE M. E. CONFERENCE.

The entire city extends a cordial welcome to the seventy-eighth annual Conference of the M. E. Church, South, which convened in the First M. E. church this morning at 9:30 o'clock with Bishop R. G. Waterhouse, of California, presiding. The sessions of the conference will in all probability last through Monday next. The North Carolina conference is one of the largest religious bodies in North Carolina and every citizen irrespective of denomination or creed extends to each and every member of this great body of religious workers a cordial greeting and wishes for each and every one during their short visit a pleasant stay. Washington is entertaining lavishly this week and the latching strings hang upon the outside.

The Daily News joins the city in extending greetings. Washington is more than glad to have the conference. Everything is being done to their entertainment and pleasure. They could not have assembled in a better town.

A WORD FOR THE ORPHAN.

If there were no sentiment in it, and it would be an aimless, purposeless sort of existence that did not rest upon sound business principles.

Sentiment is the great driving force in the world today. It is the mainspring that makes possible and insures the happy homes, and it does credit to every heart that cherishes it.

It is business that regulates and promotes the good work that sentiment brings to life. Sentiment is the beauty of conception, and provides the great wisdom that is necessary core. It is business that corroborates the decisions of sentiment that lead to the care for children who are destitute. It tells us that it is not only beautiful to do the work that it is a financial investment that pays a big dividend. It tells us that it is better, it is cheaper, it is more economical, to maintain a child for a few short years at a small expense, than it is to allow it to undergo the ultimately expensive and heart-breaking experience that is the unhappy lot of nearly every homeless, destitute child.

In giving you greetings and wishing you a happy Thanksgiving, may we not ask you to meditate upon the condition of the innumerable orphan children that are crying out in great need? Can you not find a greater interest in the big business of child saving and partially express your thanks for the many good things that have befallen you by helping the orphan?

PAPER CLOTHES TO PROTECT FRENCH SOLDIER

Lyons, France, Nov. 18.—The military authorities of the allies have recently received from the Japanese consul general here an offer of paper clothes to protect the French soldiers from the cold. The Japanese imperial government is said to be prepared to deliver at short notice millions of paper garments that are practically impervious to the cold. They are made by a secret process. It is feared the rigors of winter will greatly affect the troops campaigning on the eastern frontier of Germany. The Russians, coming from the vast reaches of that country, and having passed through the terrible cold of the past war, do not anticipate any hardships in a winter spent on the western border land of the enemy's country.

Novel Choir Strike

A curious choir strike has occurred at Gebesee, in Thuringia, Germany. By an old custom the town supplied the choir with 400 bottles of beer every year. The authorities stopped the beer and the choir immediately went on strike. The congregation complained. The town clerk and the church authorities met, and as a result it was decided to give the choir its 400 bottles of beer.

ROAD TAX PLAN IN FRANCE

Larger Part of Fund Levied on Rubber-Tired Traffic Goes for Expenses of Administration.

Road taxes, as assessed in France, go to the road building and repair fund, but not all wheel taxes are expended on roads; the larger part of the fund of 15,000,000 francs a year levied on rubber-tired traffic goes for the expenses of administration.

There are four direct taxes which every Frenchman pays (besides unnumbered indirect taxes, as on salt, matches, advertisement posters, the stamp tickets, railway tickets, checks and what not); the tax on landed property, the tax on doors and windows and the tax on industrial and commercial enterprises. In addition there are five centimes added for the benefit of the road fund and an additional three centimes levied by the municipalities for the upkeep of city streets. These diminutive, five centimes being but one cent and three centimes being but little more than half a cent, are added to every franc (100 cents) of tax. In the aggregate they furnish the millions which are spent on roads in France annually. More than \$20,000,000 are spent each year to maintain approximately 400,000 miles of national, departmental and communal highways throughout the country.
