THE NEW YEAR.

We extend our best wishes for the New Year and express the hope that each day of the year 1915 will be both pleasant and profitable.

One great trouble with the New Year is that too many of us start with a resolution to do better than we did last year. This is a noble sentiment, but it is difficult to be better unless we have a plan. We suggest that you make a list of the things you want to do in the coming year, and then set to work to do them.

With encouragement we face the New Year with a feeling of confidence. We are sure that the year 1915 will be the best year yet.

With encouragement we face the New Year with a feeling of confidence. We are sure that the year 1915 will be the best year yet.

When you start a new year, you start a new life. You start with a clean slate and a new beginning. You start with a new hope and a new dream.

The New Year is a time of hope and of new beginnings. It is a time when we start a new life and a new life.
