GOVERNMENT OWNERSHIP OF TELEPHONE AND TELEGRAPH OPPOSED.

What the country may expect from government ownership of telephones and telegraphs is suggested in the report of the Joint Committee on Postage and Second-Class Mail Matter and Compensation for the Transportation of Mail dated August 31, 1914. The suggestion of the report is based on the inadequacy of the statistical data of the department which the committee discovered and on the bureaucratic tendencies of the Postoffice Department as evidenced by their recommendations and arbitrary exercise of power in such matters as the divisor order, the blue tag order and the discontinuance of parcel-post stamps. The report says: "Notwithstanding these numerous concrete instances of departmental inefficiency and its lack of co-ordination and its lack of essential co-operation with the other departments of the government, the fact that the Postoffice Department has generally been a proponent of the government ownership of telephones and telegraphs systems of the country is a fact that is not to be overlooked. General Evans, Commissioner of Railways, has advocated the government ownership and operation, under the Post Office Department, of the telephone and telegraph systems of the country. He said the telegraph system would add 221,000 employees to the present more than 298,000 postal employees, with the inevitable result of doubling the salaries of each of those now in private employments soon as they enter the government service with far less efficient and far more costly service to the American people, who, after all, pay the bills, whether the government or private enterprise manage and operate the public utilities."

That the railroads of America are the greatest institutions in the world and lead those of all other countries is the opinion of Charles Evans, Commissioner of Railways, according to an interview with a reporter of the New York Evening Sun. "Our railroads in Queensland are owned by the government because that was the only way we could get railroads," said Mr. Evans. "All available capital was sunk in gold mines. There was no money to build railroads into the wilderness. But in America the railroad problem is too great and too unwieldy for the government. As far as I can learn the roads have stood about all the government control possible. If I were to criticize the railroads of the country, I would say there are too many millions sunk in marble halls and solid brass hand rails. If there is a falling it is too much luxury. But in spite of that I can say the railroads of America are the greatest institutions in the world and lead those of all countries."

Tribute Money. Fancy long ago said that the black marks on either side of the head of the haddock were made by the Apostle's finger and thumb as they held him, while extracting the tribute money from his mouth. But also for fancy! The haddock is not found in the Sea of Galilee! Most of the fish there belong to the barbel family, and no one has ever told us authoritatively what particular variety the tribute bearing fish belonged to. The "half shokel" of the tribute was 112 grains Troy weight of silver, say nearly a quarter of an ounce, worth about thirteen cents today, but greatly more in those days.

Chivalry Has Trials. Chivalry exerts a certain influence of sunshine white from the male sex, but this is a lie, according to a Kansas City man who after getting a divorce from his wife, asked the court to restore her maiden name. He says his wife attempted suicide, first with a wife-murderer in jail and now is playing baseball with a "blow-out" team in Oklahoma. It is not known whether the judge rejected his inability to comply with the request. Louisville Times.

STORY BY INTERNATIONAL EVENTS

On January 2, 1915, the United States Senate passed a bill to amend the act of March 3, 1879, relating to the collection of duties on goods imported from the Hawaiian Islands. The bill was passed by a vote of 77 to 15. The bill provides that goods imported from the Hawaiian Islands shall be subject to the same duties as goods imported from the United States. This bill is part of a series of measures designed to strengthen the economic ties between the United States and the Hawaiian Islands. The bill is expected to take effect on January 1, 1916.
