

"The Thinkers of the Country Are the Tobacco Chewers"

said one of the greatest thinkers this country ever produced.

Says the Carpenter:

"Every time you see a good joint, it means some carpenter has put in some clear thought and followed it up with a steady, sure hand."

"It's when you have a ticklish job to do that you need a chew of PICNIC to whet brain and hand to a cutting edge without any dulling after effect."

You can take chew after chew of PICNIC and get all the uplift without that after effect of heavy, dark tobacco.

Only the mild mellow part of the leaf goes into this soft, convenient twist. That's the secret of its sweet, lasting flavor and its extraordinary mildness.

### Women's Health

Requires Care. Women are so constituted as to be peculiarly susceptible to any slight disturbance of their health. Their delicate organization is the result of the combined action of the nervous and circulatory systems. A mild laxative is the preferable one, if properly compounded, much more effective. The combination of simple laxative herbs with peppermint in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is ideal for women's use. A free trial bottle can be obtained by writing to Dr. W. E. Caldwell, 452 Washington Street, Monticello, N. H.

### FEEDING CORN ON THE STALK

Unbusinesslike Method of Turning Pigs into Plead and "Reckon" They Are Doing Well. More corn on the stalk will probably be fed to hogs this year than ever before. It is not a great deal of satisfaction to see a bunch of hogs going well in standing corn and not know what price they are paying for the corn. We wouldn't sell corn as a rule to any man on that basis, but a good many of us seem to be willing to "reckon" that the hogs paid a pretty good price for the corn and let it go at that. Handy stock scales are too important a part of the farm equipment to be without, considering their cost and the great educators they are. To be able to state in pounds what crops and live stock produce is just plain business. To be forced to give an estimate in terms of "pretty good" or "poor," or "fair," or others as indefinite says plainly "I am a generation or more behind time."

### LIVE STOCK NOTES

A heavy coat of hair is a burden to a road horse. There is no profit in letting the soils lose their soil. If the pigs are cold and pinched they can make no gain. The sheep is a dual purpose animal, producing both wool and mutton. There is every reason for watering stock before they are full of dry feed. If pigs could talk they surely would say, "Balance our rations and watch us pay." Hogs are not provided by nature with hair to protect them from cold and drafts of icy air. Feed that suits one animal may starve another. Study individual tastes among the live stock. If we could open and for all rid this country of hog cholera what a wealthy nation we would become. Nowadays farmers are awakening to the fact that it takes strong horses to do good work on the farm. Pigs intended for fattening for the early winter market should be given all they will eat up with a relish morning and evening.

### TOWNS RENAMED BY GERMANS

Points in France and Belgium Given Teutonic Titles by Postal Authorities. Paris.—The German postal authorities have issued an elaborate table of the Germanized names of Belgian cities and of "liberated territory." In northern France among these latter Châls is to be known as Kaiser Dambirt as Dunkirk, Lille as Rysel and Bourlogne as Hoonen. Further east Besancon becomes Blaud, Nancy becomes Nanzig and Epinal and Vassel become Epinalen and West. GET BIG CARTRIDGE ORDER Vermont Company to Furnish \$2,500, 600 Worth of War Supplies to One of Belgium's Authorities. Swanton, Vt.—A contract for two and a half million dollars' worth of rifle cartridges has just been awarded to a local company. It is understood that the order is for one of the companies now at war. The company has ordered a large amount of new machinery, and expects to run its plant day and night with three shifts of help for at least a year. FOR RELIEF OF BELGIANS

### Few Folks Have Grey Hair Now

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur. Hair that loses its color and lustre, or when it falls, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grand-mother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of young and old men who value their even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture by getting at any drug store for a 50-cent bottle of "Wyneth's Sage and Sulphur Compound," which restores the hair to normal, or, in reality, that nobody can possibly tell it, has been applied. Besides, it takes off dandruff, it keeps itching, and falling hair, just drops a shower of new hair with it and draws out the old hair, taking one by one, until it disappears; but what a relief to ladies with Wyneth's Sage and Sulphur in that, besides beautifying the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. It restores and things. Only the other day I know of a customer who consulted me on his unbecoming and crumbling hair, or his color, teaching as it does the mastery of God and his hand, work. I agreed, of course, to do it for myself. I know he was right, yet, as for myself, I could not help preferring to wonder at the power of the strength in the creation of a God, and a day, a founder—Robert W. Gray, of the Atlantic.
