TO CANVASS PARISH ON SUNDAY AFT.

The following letter was sent to the members of St. Peter's Parish yesterday by the rector, Rev. Nathaniel Harding, with reference to forwarding the missionary work of the parish:

"Washington, N. C., Mar. 4, '15. My dear People:—

"On Sunday afternoon, March 7, a goodly number of the men of St. Peter's Church will make an Every-Member Canvass of our Parish, for the purpose of getting every member of our church to take part in the work of the church and in the extension of Christ's Kingdom. They will come to you for the sake of the upbuilding of the Master's Kingdom and for the work of His church. I trust that they will be received by every one with the same spirit and good will, as that with which they go.

"The object of this canvass is to get every member of our Parish to give as much as they can afford, up on a weekly basis, to the church's great mission of carrying the Gospel to a needy and perishing world. Your contribution to missions is to represent what you are willing to give for Diocesan Missions, and the support of the Diocese; and also to General Missions, that is our missionary throughout the world, both at home and abroad. You will be asked to make, after careful consideration, a pledge or subscription for the amount, you are willing to give, signing your subscription up on a weekly basis, whether you prefer to make the payments weekly or at longer intervals. When we give week by week we can see best what we really do for missions, or for the support of our own parish.

"This Parish has been giving for both General and Diocesan Missions only about \$325 (exclusive of what the Sunday School gives) or \$1.17 per member per year—an average of a fraction over two cents a week from each of us. Certainly we can do much more than this, especially if every member joins in the effort. At the Men's Meeting held February 14th, it was resolved to try to increase our gifts for missions from \$325, (what we gave last year) to \$1,200.

"It can be done, if 10 people each give at the rate of 50 cents a week, 10 at 40 cents a week, 40 at 25 cents a week, 40 at 20 cents a week and 100 at 10 cents a week, in addition to what they give for Parish support. It will provide the \$1,200 for Missions, besides our apportionment for Diocesan support, \$500.

"We also desire to get everyone who can possibly do anything at all to contribute to the support of our own beloved Parish. Our work is growing and is accomplishing much good, and is also capable of greater development; and every member of the church should find it a pleasure to give loyal support to the parish, and to help make even greater things possible. Many of our people already contribute faithfully; they are asked to renew their subscription for the next year, increasing them if possible.

"Let me, as your minister and Rector take this opportunity to say to you, that, in my opinion, we have many things for which to be thankful, and on account of which we can feel gratified and encouraged about our work.

"May I ask every person to take pride in the progress of our great Parish; and to feel a genuine interest in the success and good results of this Every-Member Canvass. We do need every member, and all the members of St. Peter's Church, to do their full duty; and I hereby appeal to the generosity of our people toward Christ and His church, both for our own Parish and for the Extension of the Kingdom. Give something, be it much or little, for your own sake, and for Christ's sake.

"The full success of our undertaking, the goal of our labors, and the aim of our Parish, is to secure a weekly gift from all of our members for both Mission and Parish support.

"It is sincerely hoped that the aggregate sum of our pledges will adequately represent the ability and interest and generosity of our people both for Mission and for their

GERMANY AND AUSTRIA FIGHTING NIGHT AND DAY IN CARPATHIANS

London, March 4.—There has been little change in the military and naval situations in the last 24 hours. The Russians continue their progress against the Germans in their official reports, according to the pursuing and capturing of the retreating Austrians in eastern Galicia and are repulsing with heavy persistent day and night attacks of the German allies in the Carpathians. They by no means have disposed, however, of any of the forces opposing them.

It is the same with the allied fleet in the Dardanelles. In their bombardment the warships have made unexpectedly good progress but they still have the most strongly fortified part of the straits to get through.

Along the western front the French continue their attacks in Champagne and the Argonne, but beyond these the only movement of consequence has been made north of Arras, where the Germans captured a newly constructed French trench. Battles in the east and for possession of the Dardanelles, are considered to have a marked bearing on the future of the war. Having pressed the Germans back from Prasaayas towards Miawa, the Russians are now exerting their efforts, and according to their own accounts successfully, to drive them back in the district farther to the north, from west of Kovno to the north, from west of Grodono, and at the same time from in front of Lomza. These movements, if successful might force the Germans to withdraw from in front of Ossowets, which fortress they continue to bombard with their heavy guns.

The Austrians continue their fierce attacks under most disadvantageous conditions, owing to the snow and cold, against the Russian entrenchments in the Carpathians, while another of their armies confronted with strong Russian reinforcements, is falling back in eastern Galicia.

Relays of battle-ships keep up an almost continuous bombardment of the Dardanelles fortifications. They have cleared the outer straits, as this fort was designed to protect one of the mine depots of the Dardanelles. It was built at the water's edge on the European side opposite Cape Kephez.
