San Francisco, Cal.; Mar. 24 .-The eighteenth annual tion opened this morning at the Ex monition, with many stock raisers present from the west and middle

west. In honor of the stock men the exposition officials have designated Friday as American National Live Stok Assolation Day.

FAMILY

Transportation reports show that avery state in the United States and most of the nations of the world were represented in the great throng of 250,000 people who inaugurated the Panama-Pacific International expesition at San Francisco on February 20. This picture, showing the mighty South gardons gives a glimpse of a small frac-tion of the opening day throng. In the first five days of its progress the expesition had an attenuance larger than the combined totals of the Chicago and St. Louis expesitions and the ratio continues in a degree to instify predic-tions of the most spectacular success for the expesition.
