SATURDAY, MARCH 27, 1915.

WHERE WOULD IT GO.

In 1913 \$20,000 was voted by the citizens of Washington to build an extension to the electric light plant. Up to March 1915, more than \$30,000 had been spent on a new plant, not an extension of the old one as the old which cost about \$4,000 of the people's money will be thrown away.

What would become of the additional \$25,000 the Board of Aldermen are now asking for? It would no doubt go into the sewers, and some of these same aldermen are asking the taxpayers of Washington to continue them in office.

In many places in the city a man will be compelled to mortgage his home if forced to pay the sewer, and should it become clear he would not be able to have it opened up.

How much have the Board of Aldermen paid or will have to pay in commissions to the city engineer? Is it not more than \$10,000?

Could the Board not have employed a competent civil engineer at a monthly salary of \$250 or \$300 per year and thereby have saved more than \$700 of the taxpayers' money?

In what department has the City Aldermen practiced economy? They have increased the number of employees in the various departments and have also increased the salaries from 10 to 75 per cent.

Let the board answer some of these questions, then we will respond more.

WHY NOT VOTE ON \$10,000 CITY BOND ISSUE APRIL 24?

Since the Chairman of the Board of County Commissioners has so strong an advocate of economy in the administration of county affairs why did he not call for an election on the \$10,000 bond issue. He purchased land and built a new County Home to be held on the 24th of April, at the same time all the other county elections was called by them, and thereby save the expense of another election at some later date. Why does he not tell the people that he and the county attorney (also the chairman of the Democratic County Executive Committee) undertook to put this bill through without allowing the people any vote or vote in the matter but that your Representative refused to put it through for them and when they learned that your Representative had added an amendment requiring that it be called by a vote of the people before becoming effective, they tried to have the bill withdrawn?

They both were strong in their pleas that the people should be allowed to vote on the question of whether the sheriff should receive his compensation or not but they were also strong in their pleas that a matter in which \$10,000 of the people's money was to be spent be not of sufficient interest that the people should be allowed to express an opinion.

Mr. Chairman and County Attorney, it is up to you to make an explanation as to how you reconcile your position with regard to these two propositions.

Answered His Question. Prince George of Denmark was nicknamed "Est-possible" by James II. It is said that when the storied events of the revolution of 1688 succeeded one another with breathless rapidity, the emotions of Prince George found vent in the repeated exclamation: "Est-il possible?" King James, enumerating those who had forsaken him, said: "And est-possible is some too!"

True Definition of a President. "Pa, what is a president?" A postmistress is a man who, no matter what he gets on Christmas, would rather have the money.

Just and Calm Manner. Nothing can be a better influence for any child than a just and calm manner of elders in the family, and a reasonable regularity of life. Such qualities breed followers of like qualities and habits which are healthful in the highest degree. Exchange.

Why Paper Affords Warmth. The value of paper as a protector from cold is due, of course, to its being a poor conductor of heat, a quality which it retains rapidly as layer is added to layer. The best kind for this purpose is that which is made of paper—the one kind that is best for the asking, or even for the making.

In a Russian Church. The interior of a Russian church is outspokenly oriental, for it consists merely of a gorgeous hall and a sanctuary, without any seats, as that is the custom in other temples. There is neither an organ nor a pulpit in a Russian church and the temple ceremony is one mostly of music, chanting and spectacular gesticulations, which remind one of ancient Egyptian dancing in their temples. For music there is a choir of boys and men in all the Russian services.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months. I cannot tell you how I suffered with my head, and with nervousness and womanly troubles. Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me. At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing. I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

THE FUTURE MEN.

A street car conductor in Kansas City sat to a passenger as his car rattled past one of the playgrounds of that city: "Why, there's an entirely different bunch of kids when they are on that playground from what they were running the streets. They used to be hoppin' cars and puttin' things on the track and up to all sorts of levity. They seem to behave all right over there. Guess it's because they have something to do." That is the importance and value to the community of every playground, measured in human terms. The boy of today is the man of tomorrow. It is not a waste of money to make of him the best possible man he can be made.

PAIGE "The Standard of Value and Quality" Be Sure It's a Paige. IT makes no difference whether it be the Glenwood Four "36" or the Fairfield Six-"46." They are both Paige cars—both "the standard of value and quality." You, alone, must decide whether you need call for a seven passenger, six-cylinder car of 124 inch wheel base, or a four-cylinder car of 116 inch wheel base seating five people. A choice between these two cars should be governed entirely by your requirements. But—whether four or six cylinders—be sure it's a Paige. That name is the most important thing you can buy. If it's a Paige it means that you are buying more dollar for dollar value than can be found anywhere else in the automobile market. If it's a Paige it means that "you can't buy more—you won't be satisfied with less." Pride of ownership—Satisfaction—Service. These are the really important things that you can buy in a Paige car. So, make your choice—but be sure it's a Paige. Paige-Detroit Motor Car Company, Detroit. Paige-Detroit Sales Company, Washington, N. C. Also make it a point to see the record-breaking "Six-46" at \$1395. \$1075. Four 36 PAIGE MODEL GLENWOOD.
