

# CARDIOL

**ICE CREAM ANY FLAVOR**  
delivered your home \$1.00 gal-  
lon. 65c half gallon; telephone  
your orders. Saleby's Fruit  
Store, No. 430. Money re-  
turned if cream unsatisfactory.  
5-11-1m.

**FOR SALE—HOUSE AND**  
lot Southeast corner Boner and  
Sixth streets. Apply to J. F.  
Warner, 802 Boner St.  
5-18-5tp.

**WANTED—NIGHT WORK**  
by a book-keeper.  
5-12-1w.

**FOR SALE—HORSE, WAG-**  
on and harness. Cheap for  
cash. Apply to Coca-Cola Bot-  
tling Works.  
5-18-5tc.

**FOR SALE—LATEST MOD-**  
ern Underwood Typewriter,  
cost \$102.50, will sell at great  
bargain; guaranteed in every  
respect. If you want a "good  
machine now is your chance, to  
get one cheap. Will take \$75  
cash. Address O. R. Brown,  
Belhaven, N. C.  
5-14-1fo.

**WANTED—SALESMAN TO SELL**  
Lubricating Oils, House and Barn  
Paint and Specialties. Big prof-  
its. Champion Refining Compa-  
ny, Cleveland, Ohio.

**Somewhat Amazing.**  
A young clergyman, small of stature,  
preaching as a candidate in a  
certain place, one Sabbath, peering  
over the pulpit Bible announced as  
his text: "It is I. Be not afraid."

**Revised.**  
All the world's a stage, and nearly  
all of us are getting the book.—Puck

**Careless Surgeons.**  
Many stories are told of surgeons  
who have carelessly sewed up things  
in people's bodies that had no business  
or function to perform there. Pieces  
of sponge are often thus lost. The  
largest foreign material enclosed with-  
in the human frame is declared to  
have been a pair of forceps.

**So Tactful!**  
Two young women, strangers, met  
on a Pullman car. They discovered  
that they had several common ac-  
quaintances in the city where they  
both resided, and they spent a very  
enjoyable half hour together. "I am  
just returning from a delightful trip,"  
said one of them. "I have seen a lot  
of people from home, too. Isn't it  
strange," she added, confidentially,  
"how glad we are to meet people trav-  
eling that we would hardly notice at  
home?"—Youth's Companion.

**Some Plant.**  
The banana plant yields 40 times  
more by weight than the potato and  
123 times more than wheat. It bears  
two crops a year. No insect will at-  
tack it and it is immune from dis-  
ease.

**Triumph of Mutes.**  
It was but the other day when the  
triumph of the deaf and dumb faced  
me. It was a ship just starting from  
Southampton to Canada. You know  
the unheard-of accident during the last  
hour from the shore. There were two  
men, deaf and dumb, talking quietly  
with their fingers to the brother on  
land, who could reply. They were the  
only three that could talk freely  
among the unheard tumult.—London  
Chronicle.

**Spots on Kitchen Floors.**  
So many women grope because  
there are grease spots on their kitch-  
en floors and water with any amount  
of scrubbing will not remove them;  
just try alcohol to remove these spots  
and you will be pleased with the  
result.

**NEAR DEATH BY SMOTHERING**  
But Husband With Aid of Cardui  
Effects Her Deliverance.

**Dr. W. C. Mrs. Helen Dutton,** of  
the city, was suffering from a  
condition which she described as  
"a feeling of suffocation, and  
often almost smothering to death."  
"My husband pushed me up for awhile  
but then I would not breathe again. Finally,  
my husband decided he wanted me to  
try Cardui, the woman's tonic, so he  
bought me a bottle and I began using it.  
It did me more good than all the medi-  
cines I had taken."  
"I have induced many of my friends to  
try Cardui, and they all say they have  
been benefited by its use. There never  
was a time, and never will be, a medicine  
to compare with Cardui. I believe it is  
a good medicine for all womanly trou-  
bles."  
"For over 50 years, Cardui has been re-  
lieving woman's sufferings and building  
weak women up to health and strength."  
"If you are a woman, give it a fair trial.  
It should surely help you, and it has  
helped thousands."  
Get a bottle of Cardui 50-cents.

**FOR BETTER FARMING**  
Southern Farmer Urged to Adopt  
Diversification.

**Department of Agriculture Gives Plan**  
for Reducing Living Expenses by  
Growing Many Things Which  
the Family Needs.

**Prepared by the United States Department**  
of Agriculture.

The secretary of agriculture in writing  
recently to cotton exchanges in the  
South, pointed out that the only  
really efficient way to prevent a re-  
currence of the crisis which the cot-  
ton crop of the southern farmer to di-  
versify his agriculture. Hitherto the cash  
returns from a successful cotton crop  
have blinded many farmers to the proof  
of the old proverb that it is folly to  
put all your eggs in one basket. They  
have devoted all their land and all  
their time to the production of cotton,  
and have purchased their own sup-  
plies at a cost much greater than they  
could raise themselves.

The essential weakness in this prac-  
tice has long been apparent to agri-  
cultural experts, but their efforts to  
secure more diversity in farming have  
hitherto met with but little success.  
It is difficult to change habits of  
many years standing, and the man  
who has been accustomed to grow cot-  
ton and only cotton is reluctant to  
remodel his own farm, even after he  
has become convinced of the necessity  
of so doing.

To help meet this situation, the  
United States department of agricul-  
ture has prepared a series of articles,  
of which this is the first, on the sub-  
ject of diversified farming in the  
South. These articles will treat of  
the raising of produce for home con-  
sumption in vegetable gardens, potato  
patches, etc.; of such crops as corn,  
beans, peas and other legumes, which  
are both useful in themselves and may  
be made to enrich instead of impover-  
ish the soil; and of poultry, dairy  
products and live stock for home use  
and as a cash crop to serve as a  
substitute, in part or in whole, for  
cotton.

**FOR BETTER FARMING**  
Southern Farmer Urged to Adopt  
Diversification.

**Department of Agriculture Gives Plan**  
for Reducing Living Expenses by  
Growing Many Things Which  
the Family Needs.

**Prepared by the United States Department**  
of Agriculture.

The secretary of agriculture in writing  
recently to cotton exchanges in the  
South, pointed out that the only  
really efficient way to prevent a re-  
currence of the crisis which the cot-  
ton crop of the southern farmer to di-  
versify his agriculture. Hitherto the cash  
returns from a successful cotton crop  
have blinded many farmers to the proof  
of the old proverb that it is folly to  
put all your eggs in one basket. They  
have devoted all their land and all  
their time to the production of cotton,  
and have purchased their own sup-  
plies at a cost much greater than they  
could raise themselves.

The essential weakness in this prac-  
tice has long been apparent to agri-  
cultural experts, but their efforts to  
secure more diversity in farming have  
hitherto met with but little success.  
It is difficult to change habits of  
many years standing, and the man  
who has been accustomed to grow cot-  
ton and only cotton is reluctant to  
remodel his own farm, even after he  
has become convinced of the necessity  
of so doing.

To help meet this situation, the  
United States department of agricul-  
ture has prepared a series of articles,  
of which this is the first, on the sub-  
ject of diversified farming in the  
South. These articles will treat of  
the raising of produce for home con-  
sumption in vegetable gardens, potato  
patches, etc.; of such crops as corn,  
beans, peas and other legumes, which  
are both useful in themselves and may  
be made to enrich instead of impover-  
ish the soil; and of poultry, dairy  
products and live stock for home use  
and as a cash crop to serve as a  
substitute, in part or in whole, for  
cotton.

By the adoption of diversified farm-  
ing, the farmer may reasonably expect  
to achieve several important objects:

1. He may very materially reduce  
his own living expenses by growing  
on his own land a great many of the  
things which his family needs and  
which he now purchases at the store,  
paying, of course, a profit to the re-  
tailer and the middleman.

2. He should save a very consider-  
able proportion of his outlay on fer-  
tilizers by growing crops that add nit-  
rogen to the soil, and by keeping live  
stock to enrich it with manure.

3. He should grasp the opportunity  
afforded by the increasing demand for  
meat of all kinds to turn a large part  
of his crops into stock to be sold to

the market at any season of the  
year and get full benefit of the highest  
prices. It is a simple matter to build  
a good country road, as it is not abso-  
lutely necessary that it should be  
built of gravel or crushed stone. The  
secret of the maintaining of the coun-  
try road lies in keeping it well round-  
ed up and sufficiently drained, by ar-  
ranging it so that the road is about a  
foot higher in the middle than it is at  
the edges.

A good dirt road well maintained is  
not an expensive proposition, writes  
Eugene J. Hall of Oak Park, Ill., in  
Farmers' Review. Shortly after every  
heavy rainfall it should be dragged  
with a split-log drag. This will fill  
all of the ruts and depressions and  
produce a smooth surface well round-  
ed up in the middle of the highway.  
After being rounded up with a split-  
log drag, the roads are made firm

and solid by means of a heavy roller  
or system of rollers. This will leave  
a firm, solid roadbed which will not  
be seriously injured by heavy traffic.

This system of road building is  
being followed in many parts of the  
West with splendid success. When  
ruts and holes are formed in a road,  
the jolt and jar of the wheel makes  
them deeper and forms a pocket for  
holding water from the first rainfall.  
This softens the roadbed and deep  
mud holes are soon formed, while if  
there had been no ruts or depressions  
there and the road had been well  
rounded up, the water would have run  
off into the ditches on either side, and  
the surface of the road would be firm  
and in perfect condition.

Another good thing worthy of care-  
ful consideration in the building of our  
good country roads is that of the con-  
struction of permanent and lasting  
culverts. Culverts built of stone or  
concrete cost more than wooden  
bridges, but they will last a hundred  
years, and they will not rot or need  
replacing every year, as iron truss  
bridges do. In the end, they are the  
most economical kind of viaducts.

The advent of the automobile and  
its employment by the more prosper-  
ous class of farmers has given a great  
impetus to road building, too, and  
the time is coming when we will have  
more and more good roads in the  
middle West.

**They Are 70 Years Old.**  
"For some time past my wife and  
myself were troubled with kidney  
trouble," writes T. E. Carpenter,  
Harrisburg, Pa. "We suffered rheu-  
matic pains all through the body.  
The first few doses of Foley Kidney  
Pills relieved us. After taking five  
bottles between us we are entirely  
cured. Although we are both in the  
70's we are as vigorous as we were  
thirty years ago." Foley Kidney  
Pills stop sleep disturbing bladder  
weakness, headache, rheumatism,  
dizziness, swollen joints and sore  
throat. Druggists' Pharmacy.

**IMPETUS TO ROAD BUILDING**  
Secret of Maintaining Country High-  
way Lies in Keeping It Well  
Rounded Up and Drained.

Over a good road, we can haul prod-  
ucts to market at any season of the  
year and get full benefit of the highest  
prices. It is a simple matter to build  
a good country road, as it is not abso-  
lutely necessary that it should be  
built of gravel or crushed stone. The  
secret of the maintaining of the coun-  
try road lies in keeping it well round-  
ed up and sufficiently drained, by ar-  
ranging it so that the road is about a  
foot higher in the middle than it is at  
the edges.

A good dirt road well maintained is  
not an expensive proposition, writes  
Eugene J. Hall of Oak Park, Ill., in  
Farmers' Review. Shortly after every  
heavy rainfall it should be dragged  
with a split-log drag. This will fill  
all of the ruts and depressions and  
produce a smooth surface well round-  
ed up in the middle of the highway.  
After being rounded up with a split-  
log drag, the roads are made firm

and solid by means of a heavy roller  
or system of rollers. This will leave  
a firm, solid roadbed which will not  
be seriously injured by heavy traffic.

This system of road building is  
being followed in many parts of the  
West with splendid success. When  
ruts and holes are formed in a road,  
the jolt and jar of the wheel makes  
them deeper and forms a pocket for  
holding water from the first rainfall.  
This softens the roadbed and deep  
mud holes are soon formed, while if  
there had been no ruts or depressions  
there and the road had been well  
rounded up, the water would have run  
off into the ditches on either side, and  
the surface of the road would be firm  
and in perfect condition.

Another good thing worthy of care-  
ful consideration in the building of our  
good country roads is that of the con-  
struction of permanent and lasting  
culverts. Culverts built of stone or  
concrete cost more than wooden  
bridges, but they will last a hundred  
years, and they will not rot or need  
replacing every year, as iron truss  
bridges do. In the end, they are the  
most economical kind of viaducts.

The advent of the automobile and  
its employment by the more prosper-  
ous class of farmers has given a great  
impetus to road building, too, and  
the time is coming when we will have

**PERSONALS**

Miss Bettie Duffy of New  
Bern is spending the week  
with Miss Margaret McElhenny.

Miss Mattie Edwards and Mrs.  
C. E. Barger of Blounts Creek,  
are spending today in the city  
shopping.

Mrs. Dr. Hunter and chil-  
dren and Miss Patty Oden of Pinetown  
were Washington visitors yester-  
day afternoon.

Mr. and Mrs. O. M. Hooker  
of Aurora spent yesterday in the  
city.

Mrs. L. H. Roberson and chil-  
dren and Miss Eva Thomas of  
Stokes, were Washington visitors  
yesterday.

Mrs. Burton left this morning  
on a visit to friends and relatives  
in Spartanburg, S. C.

J. Louis Simpson returned to-  
day from a several days' trip to  
Ceraoake.

Mr. and Mrs. George O'Neal  
arrived in the city yesterday from  
Ceraoake bringing their son to the  
Washington Hospital, who was  
accidentally shot last Thursday  
by his father. Mrs. O'Neal is a  
sister of Mrs. C. F. Harris of this  
city.

G. Brinn of Hyde county,  
spent yesterday here on business.

Miss Myra Hardison of Choc-  
owinity, was in the city this morn-  
ing on a brief visit.

Miss Esther Tripp of Edward,  
was among the out of town vis-  
itors in the city today.

Mrs. A. M. Jones of Green-  
ville, spent yesterday in Washing-  
ton.

Frank W. Miller of Chocowinity,  
was seen on the streets of the  
city yesterday.

J. T. Mallard of New Bern,  
was in Washington yesterday on  
business.

C. S. Whiehard of Vandemere,  
who is well known locally, was a  
Washington visitor yesterday.

Dr. F. W. Dunn, of New Bern,  
a prominent resident of that city,  
spent yesterday here on business.

E. B. Ferguson of Greenville,  
spent yesterday in Washington.

Miss Ella Lee Chauncey and  
Latham Jones returned last night  
from Roanoke Rapids, Va.

Mr. and Mrs. Wm. Clark and  
W. V. Clark of Grimesland, en-  
tered to Washington this morn-  
ing.

Mr. and Mrs. F. H. VonEh-  
rstein, Mr. and Mrs. Albert Von  
Ehrstein and Miss Mabel Von  
Ehrstein, were in the city yester-  
day.

Harry Williams of Greensboro,  
is the guest of Sam Grist of Choc-  
owinity.

Miss Eliner Swanner left this  
morning via A. C. L. to visit her  
aunt, Mrs. R. F. Wilson.

Mrs. Irvin Bonner and chil-  
dren of Aurora, were in the city  
yesterday on a brief visit.

Capt. and Mrs. L. Tuthill of  
Aurora were the guests of M. J.  
Fowler yesterday.

Arthur T. Yeates of Wilson,  
spent yesterday in the city.

Correct.  
Aunt—"You've counted up to eight  
sleazy, dear. But don't you know what  
comes after eight?" "Eight—" "Bed-  
time."

She Was More Thorough.  
Mrs. Eze—"It isn't right to charge  
Willie with taking that money out of  
your pocket. Why don't you accuse  
me?" Mr. Eze—"Because it wasn't all  
taken."—Stray Stories.

Color Effect in Dew.  
Dew is a great respecter of colors.  
Take pieces of glass or board and  
paint them yellow, green, red and  
black. Expose them at night and it  
will be found that the yellow will be  
covered with moisture, the green will  
be damp, but that the red and black  
will be perfectly dry.

Humor of Great Writers.  
The humor of Dickens always has  
something sermonesque about it. The  
satire and humor of Thackeray are  
like a lash to human error. The hu-  
mor of Mothers is the weapon of one  
of the greatest nonsectarian preach-  
ers that ever lived—a preacher de-  
nouncing avarice and the other pri-  
mary vices that spoil society, rot the  
soul and make men unhappy.

Enjoying Life.  
He alone appears to me to live and  
to enjoy life who, being engaged in  
some business, seeks reputation by  
some illustrative action for some use-  
ful art.—Ballou.

New York Newspapers.  
Besides thirty-nine newspapers  
printed in English, New York city has  
ten in Italian, seven German, seven  
Yiddish, three Greek, three Hungarian,  
two French, two Bohemian, two Croa-  
tian, one Spanish, Servian, Byzian and  
Chinese.

Childish Retaliation.  
It has been rather cruelly said that  
a child's love of endlessly dressing  
hand and face washing and otherwise  
beautifying her doll, comes less from  
a liking for neatness than from a de-  
sire to inflict on something else the  
continual discipline which she herself  
receives from her nurse as from a  
stern inexorable fate. No matter,  
make believe doesn't depend on mo-  
tives for its effectiveness, and we are  
all human.

His Promising Outlook.  
"Did you make any money out of  
that land development stock you  
bought?" "Not yet, but it looks good  
I found out so much about the com-  
pany that they took me into the  
firm."

Gypsies Unpopular.  
Some two hundred thousand gypsies  
wander about Hungary and are regard-  
ed as a dangerous community. So no-  
torious are their thieving propensities  
that they are not allowed inside the  
towns, while the villages tolerate  
them for only two days.

Percussion Caps.  
Percussion caps (taking the place  
of the flint lock) came into use about  
1820. Sneider's system of breech-load-  
ing was invented in 1850, although  
there had been attempts made at Sneider's  
achievement several years  
earlier than that date. The muzzle  
loaders held on until the seventies,  
when they were practically discarded  
by all armies.
