Has the Habit.
When a man says "I don't want a
complain," it means that he com-
plains most of the time.—*Atahian*
Globe.

Optimistic Thought.
Prosperity gives us friends but ad-
versity proves them.

Bishop Heber's Revenge.
Animosity as well as devotion has
colored our popular hymns, as, for in-
stance, in the famous "Greenland's
Ice Mountains." The hasty generaliza-
tion that in Cayton "only man is vile"
is said to have found its way into
the hymn because Bishop Heber dis-
covered that a Canadian trapper
had slayed a woman.

Man's Inhumanity.
"The men are always prating about
man's inhumanity to man," observed
Mrs. Cobb. "What have they to com-
plain about?" "Plenty," growled Mr.
Cobb. "Right out of every ten mar-
ried men go around trying to get sta-
ble men into trouble by advising them
to get married."—*Clouston*
Register.

Biggest Fog Horns.
The largest fog signals now made
use of are supplied with horns 80 feet
long and their blasts are so power-
ful that they can be heard from twenty-
five to thirty miles at sea. They
are generally operated by compressed
air, the generator being driven by a
machine engine of about twenty
horsepower.

Another "Trouble Man."
In every plant of business there is
an employee who is called the "trou-
ble man," because it is his duty to
scotch away every grievance, but in
the better place of business in the
world, the boss, whose children are
made into merry young men and women
on the "trouble man" is a "trou-
ble" in itself.

Lake in Hawaiian Crater.
Waialeale, or Green Lake, on the is-
land of Hawaii, is a body of fresh wa-
ter in the pit of an old crater near
Kopoua. This lake covers an area
of about five acres and is fed by
springs below the surface. A narrow
plant taking water from the lake
for domestic use and for irrigation
purposes.
