New Facts About Cancer.

A study of 1,000 cases of cancer of the stomach reveals the fact that this disease claims more men than women, as its victims reach the ages of forty and sixty years. Elderly of the stomach, on the other hand, appears most frequently between the ages of twenty and forty years. In over 90 per cent of the cases of cancer heredity seemed to play no part whatever.

COMMENDS DANIELS.

Says Daniels is in Favor of Placing Navy on a Better Efficiency Footing.

Philadelphia, June 14.—Secretary Daniels is heartily in favor of plans for placing the navy on the most efficient footing possible, said Rear Admiral William S. Benson, a guest here tonight at a reception tendered by the Medical Club of Philadelphia.

Reports to the contrary are unjust, he said.

"It is unjust to think the head of the navy is not in sympathy with movement. He wants the people to give 100 cents for every dollar they put into the navy."

"There is a wrong impression abroad concerning the efficiency of the navy. The battleships of the fleet are the equal class for class, of any in the world. The men who serve upon these ships are superior to any others, and the target practice records these men can shoot straight and hit the mark."

"There is, of course, much room for improvement and the effort is being made to put every unit in the fleet into the best possible condition."

Uncle Eben.

"I ain't help bein' superstitious about Friday," said Uncle Eben, "but I recollect dat it ain't so juss' 'bout no doos on Friday dat brin' us bad luck as what you s'ntent on a Friday an' five or six other days."
