## FREE PORTS BUILDERS OF COMMERCE

CONGRESS SHOULD GIVE THEM PREFERENCE IN APPROPRIATIONS.

By Peter Radford. This nation is now entering upon an era of marine development. The wreckage of European commerce has drifted to our shores and the world war is making unprecedented demands for the products of farm and factory. In transportation facilities on land we lead the world but our port facilities are inadequate, and our flag is seldom seen in foreign ports. If our government would only divert the energy we have displayed in conquering the railroads to mastering the commerce of the sea, a foreign boom would be unknown on the ocean's highways. This article will be confined to a discussion of our ports for the products of the farm must pass over our wharves before reaching the water. We have in this nation 61 ports, of which 41 are on the Atlantic and 20 are on the Pacific Coast. The Sixty-second Congress appropriated over \$61,000,000 for improving our Rivers and Harbors and private enterprise levies a toll of approximately \$50,000,000 annually in wharfage and charges for which no tangible service is rendered. The latter item should be lifted off the backs of the farmer of this nation and this can be done by Congress directing its appropriations to ports that are free where vessels can tie up to a wharf and discharge her cargo free of any fee or charge. A free port is progress. It takes out the unnecessary link in the chain of transactions in commerce which has for centuries laid a heavy hand upon commerce. No movement is so heavily laden with results or will more widely and equally distribute its benefits as that of a free port and none can be more easily and effectively secured.

### Holland Giving Up Motoring.

Rubber has become very scarce in Holland. It is becoming almost impossible to obtain tires for motor cars, and the prices are prohibitive. Dealers in some cases are giving up the use of their motor cars for this reason. The bicycle, which is perhaps more used in Holland in proportion to the population than anywhere else, the flat country and excellent roads rendering it an exceedingly convenient means of locomotion, is also affected by the exhaustion of the rubber supply. Persons of good judgment are of opinion that in a few months motor cars and cycles will disappear from the public thoroughfares for this reason.

### Commencement.

Twenty-two members of Princeton's senior class announce that they have never been kissed. Before reading this we never could understand why the end of a college course was known as commencement.

### Daily Thought.

Youth comes but once in a lifetime. Therefore, let us so enjoy it as to be still young when we are old.—Loo-Jak '15.

## CAR STRIKE IN CHICAGO IS SETTLED

Chicago, June 17.—The strike of 14,000 Chicago street car men which began Monday was called off shortly after 6 o'clock yesterday. All points at issue will be settled by arbitration.

### Announcement of a settlement.

Announcement of a settlement came too late to start cars for the rush hour early today, and the great armies of workers were obliged again to depend on motor buses, moving trucks, ice wagons and railroad suburban trains for transportation.

### BELMONT THEATRE INSTALLS NEW VENTILATING SYSTEM.

New Apparatus Will Make This One of the Coolest Places in the City. We are installing a good ventilating and cooling system and expect to have some electric fans in operation tonight, but owing to the uncertainty of express delivery, we cannot promise to be fully equipped. For those who do not want to miss any of the Million Dollar Mystery, we are going to do our best to make it as pleasant in our theatre as we possibly can tonight. Next week you will be treated to one of the coolest places in town.

### Tonight we will show six reels.

Including "The Million Dollar Mystery," in two parts; "Ford Weekly," in one reel of current events; "Red Tape," in two parts, and "Jealousy," a comedy in one reel. Adv.
