## HOW CHAMBER COMMERCE AIDS IN GOOD ROADS WORK

J. H. Canady, President of Kinston Chamber, Explains How That Body Helped in Securing Better Roads for Lenoir County.

Editor Daily News:  
My dear sir:  
Answering your letter in which you ask in what way the Kinston Chamber of Commerce has assisted in the good road movement in our county, I am glad to give you the facts as follows:  
Our Chamber of Commerce realizing the importance of good roads to the city of Kinston has always used its best endeavor to promote the building of good roads and and every where in the county at any and all times. Lenoir county has built several of our leading highways of sand clay construction, and has built several concrete and iron bridges without a bonded indebtedness and still continues to do this as fast as possible. However last year our Chamber realized that this process of building roads was too slow, and went to work at once and was instrumental in passing through the legislature an enabling act to vote on a two hundred and fifty thousand dollar bond issue for the purpose of conducting improved roads and permanent concrete bridges. A special committee of our organization was then appointed to work up sentiment in favor of good roads until such a time as it was deemed advisable to call an election to vote on the issuance of the good road bonds. This committee is now engaged in an educational campaign to create sentiment in favor of the bond issue. It is the opinion of our Chamber that a bond issue for the whole county is preferable to the township plan which is now being worked in some of our adjoining counties. We are only waiting now to get a sufficient sentiment in favor of the bonds to call for the election.  
I wish to thank you for this opportunity of addressing these few words to you and hope that the communication will be of service and if our organization can be of service to you at any time, I trust that you will not hesitate to call on us. I am Most truly yours,  
J. H. CANADY,  
President,  
Chamber of Commerce.

## HUSBAND SKIPS WITH HIS WIFE'S EARNINGS

G. H. Miller Left Belhaven Last Wednesday With Over \$1,000 Cash. Search is Being Made, But His Whereabouts Are Unknown.

(Special to the Daily News)  
Belhaven, N. C., July 31.—Belhaven citizens are wondering just now the whereabouts of one G. H. Miller, who left for parts unknown last Wednesday in his Ford automobile. Since his departure he has not been heard from. Officers here and elsewhere, including the Norfolk police, have diligently searched for him but so far without success. He is a much wanted man in Belhaven for he has gone with about \$1,000 smuggled away in his jeans, the earnings and savings of his wife, Mrs. Minnie Miller, who is left behind with four small children to support and care for.  
Miller is said to be a native of Huntington, W. Va. He came to Belhaven about one year ago and three months thereafter married Mrs. Minnie Sanderlin. At the time of her marriage she was running a variety store, which was the property of her late husband. Miller at once took charge of things and as is usually the case the good wife trusted him, with the sequence she is now practically penniless, while he is gone and spending her hard-earned dollars.  
Miller before his departure deposited in his pockets \$200 in cash which Mrs. Miller had given him to deposit in the bank here. His first stop was made in Washington, where he drew out of the Bank of Washington \$800 more. His statement to the bank officials in Washington was that he wanted the money to go in the automobile business.  
In addition to drawing out the above amounts he and his wife gave a mortgage to Fred P. Latham on their residence on Pungo street for \$800. Not stopping here Miller purchased his Ford car and gave a note to the Bank of Washington to the amount of \$300. There is also a note of \$100 held by the Bank of Belhaven due in August. The endorsements on the note are Mrs. Miller and Mr. S. J. Peele. This note is for money borrowed. Miller has not been heard from since he left Washington, although every effort has been made to locate him. So eager was he to get away that he actually forgot his wardrobe but being plentifully supplied with cash this need not worry him.  
Miller is a man of about forty

## WARSAW IS LEFT TO ENEMY

FALL OF THE CITY IS EXPECTED HOURLY. EVERYTHING OF VALUE HAS BEEN TAKEN AWAY.

## TURN TO WEST

Expected That After Capture of Warsaw, Teutons Will Turn their Attention to the Western Theater of War.

London, July 31.—Warsaw, the third city of Russia, the goal for which the German armies have been striving since October, is at last in overwhelming numbers at the gates of the Polish capital and despatches both from the city itself and from Petrograd say that further resistance would be unwise.  
Fall of City Expected Hourly. Discouraged not only through France and Great Britain, but in Russia itself, the fall of the city is expected hourly, and the problem now is to move the Russian armies intact, threatened as they are from the south by the Austro-Germans and more seriously from the north, where the German forces are aiming at the railway from Warsaw to Petrograd. This latter menace the British press admits, is imminent, and the hope in the allied countries now is for the continued cohesion of the Russian army.  
The Warsaw postoffice already has been shifted to some point to the eastward, the populace has been urged to remain calm and presumably for days Russian troops have been stripping the city of everything allitary value.  
Expect Attack in West. As soon as the present operations against Russia are concluded whether or not they succeed in destroying any large part of the Russian army, it is expected that the Germans will turn to the west, a movement which, however, will take a couple of months at least.  
It will therefore be a race between the Teutonic forces and the British and French as to which side will take the offensive in France here the situation remains as it has been for weeks past, except in those cases where the French continue their attacks on the positions protecting Munster.  
Bad weather again is interfering with the operations in the Austro-Hungarian theatre.

## Breaking Up Cigarette Habit

Police Are After Men Who Sell Cigarettes to Boys Under Seventeen. Three Boys in Court Yesterday.

Chief of Police Roberts brought three boys up before the recorder yesterday afternoon. The boys had been smoking cigarettes and after being made to listen to a rather strong lecture from Recorder Vaughan, they were allowed to go on their way.  
The cigarette habit is reported to be quite common with the younger boys and the police are endeavoring to break it up. They are on the look-out for the store-keepers who supply the boys with the cigarettes and it will probably go hard with the men who are brought up to court, and found guilty of selling the smokes to boys under seventeen years of age.
