WINCHESTER

Model 1912, Light-Weight HAMMERLESS SHOTGUNS
Look Good To Everybody
 The Winchester Model 1912 Hammerless Repeating Shotgun has won the enthusiastic approval and endorsement of shooters everywhere. Its light weight, strength, balance, easy-working action, and splendid shooting qualities appeal to men who know a good gun. Its Nickel steel construction means not only a lighter and stronger gun, but a better balanced one, because of the better distribution of weight. This gun loads and unloads easily, has a cross-bolt trigger lock, and a simple take-down system. It is made in 12, 16 and 20 gauges. If in the market for a shotgun, don't fail to examine this, "THE MOST PERFECT REPEATER"

Puts "Pep" in a Man

That excess energy, brightness of mind, and general physical fitness so noticeable in real "doers" is largely the result of carefully selected food.

Grape Nuts and Cream

is a concentrated, cereal ration, especially prepared to counteract and rebuild the daily wear and tear on muscle, nerves and brain.

Grape-Nuts is made of whole wheat and malted barley, and contains all the nutriment of the grains including the vital mineral salts—Phosphate of Potash, etc., so lacking in white bread and many other foods, but absolutely necessary to thorough nourishment.

Grape-Nuts is partially pre-digested and agrees with all. It's a boon for brain workers and ideal for growing school children.

Norfolk Boozes. Wilson—Several negroes, local blind tigers, jumped from the moving excursion train returning from Norfolk last night when Chief Wigge and Deputy Sheriff Frank Barnes boarded the train at Stantonburg. Two negro men and one negro woman jumped from the train while it was running. Tom Duboy is the name of one of the negroes. They found on the cars four suit cases and one bundle. Altogether about 20 gallons in all.

Had Hoped That Neuse Improvement Project Would Be Carried Out. Will Take Matter Up Again.
 (By Eastern Press)
 Kinston, Oct. 5.—Congressman George E. Hood at Goldsboro today told The Free Press over long distance telephone that he was disappointed over the failure of his pet scheme for the improvement of Neuse river, but that he has not given up all hope. Mr. Hood is contemplating a conference with committees of the Goldsboro and Kinston Chambers of Commerce and other interested parties. "If my advisers see fit we will send a delegation to Washington to ask reconsideration by the engineers," he said. If he decides to call the conference he will ask that the commercial bodies take action immediately. Mr. Hood thinks he can get postponement of the final date for the presentation of more action—October 30—if necessary.

CONG. HOOD TO TRY AGAIN

Were Entombed for Over a Week. Are in Hospital But Believed All Will Recover.
 Lansford, Pa., Oct. 5.—Nine mine workers entombed in the Foster Creek Tunnel at Coaldale Monday, were taken out alive yesterday afternoon. They were found on top of a chute in which they had crawled to escape a flood of water that had broken from an abandoned working and caused more than three hundred feet of gangway roof to fall, shutting off means of escape. The men are in the hospital at Coaldale and reports today hold promise that all will recover. None of them, however, was in condition to tell of the harrowing experience.

Flood Has Worked Great Havoc in the Mississippi Valley. Many Are Without Funds.
 New Orleans, Oct. 5.—Approximately 2,500 persons along the Mississippi river from New Orleans to the mouth, a distance of about 110 miles, are in need of food, fresh water, clothing and other assistance according to the estimate made today by the relief committee on the State conservation commission's yacht Daisy, which returned from a trip down the river. Almost all these people were declared to be homeless and without funds as a result of the storm.

VERY SMALL COTTON CROP

Poor and Insufficient Fertilizer and Cold Weather Have Caused Big Reduction in Crop.
 Washington, Oct. 5.—The census report today shows cotton ginned of 1915 growth to be 2,900,007 bales, compared with 3,393,725 in 1914. The Agricultural Department today estimated the condition of cotton on September 25 to be 60.8 per cent. normal compared with 69.2 for the six months previous. It estimated the crop at 168 pounds to the acre, and the total yield at 10,950,000 bales for 1915, compared with 16,135,000 last year. Cold weather and excessive rainfall were responsible for the unusual deterioration of the cotton crop. Poor and insufficient fertilizer, particularly in the eastern portion of the cotton belt, was also responsible.
