OPPOSITION TO GOOD ROADS.

The opposition to the good roads movement in Washington township has not a sound leg on which to stand. Not a single logical or reasonable argument that will hold water has been advanced against the issue.

There are two classes which are opposed to the bond issue. The first does not want good roads and the second wants good roads but doesn't approve of the contemplated measure in securing them.

It is not worth while to take up the first class. They are perfectly welcome to oppose the issue as much as they like, for no argument would convince them that good roads would be of benefit to every resident of the township.

The second class, however, is of a different calibre. There are men in its ranks who stand high in the social and business life of both city and country. They realize that good roads are necessary but they have other means for securing them.

Now here is the point we desire to emphatically impress upon the minds of our readers: When everything is taken into consideration, the plan which the advocates of the bond issue are favoring, and the plan which those opposed to it are desirous of seeing carried out, ARE EXACTLY ALIKE, providing that the elections carry.

Under the present plan, Washington township, we will say, carries its election. In a year or so, Long Acre and Chocowinity carry elections, favoring bond issues. A bill is carried to the legislature—if it is so desired by the voters of the three townships—and they are created into one road district. Bonds are issued for the entire district, Washington's share being reduced that amount which she spent during the year before the other townships held their election.

What is the result? If it is so desired, you will have the three townships formed in one road district and the city of Washington paying as much taxes for road work in Long Acre and Chocowinity townships as she does in Washington township.

Now let us take up the proposed plan of those who oppose the above.

They want the whole thing to hang fire for another year. Then they want a special bill passed in the legislature, creating the townships into one road district. After that, they want bonds issued for the entire district and work on the roads proceeded with.

Here are the objections to this plan: 1st: It will be all Washington township can do to carry the election in this township alone, without letting the other two townships in, both of which are utterly opposed to bond issues.

2nd: It will delay the improvements of the roads in Washington township for almost two years, a delay which is entirely unnecessary.

3rd: It is taking the right to control their own affairs from Chocowinity and Long Acre townships.

4th: It is showing unjust discrimination in taking two townships in with Washington and leaving the others out.

5th: If the three townships vote on a bond issue for good roads at one and the same time and the issue is defeated, it will mean that improved roads in Beaufort county will be put off for a period ranging from five to twenty-five years.

Is there a single voter of intelligence in the township—we do not include the first class we mentioned as being opposed to the bond issue—who cannot see that the present plan is the best? Is there any plausible reason why it should be discarded in favor of the one that the opposition is advocating?

Why not let us have our good roads in Washington township and then let the other townships decide for themselves what they want to do?

Those who are fighting the coming election have issued circulars with a number of questions appended to them. For some reason they did not give the answers to these questions. We are publishing below the list of questions and their proper answers.

1. "Do you want your poll and property tax increased to build a road in Washington township for joy riders?" No. We want to provide easier means of communication with neighboring counties; to enable residents in rural parts of the township to haul larger loads to town with less wear and tear on animals and vehicles and to keep our county up with the progressive steps that practically every other county in the State is taking.

2. "If this is not the purpose of the present movement, why not improve the roads entering Washington equally with the road leading out Market street, thence to Old Ford and back to Washington?" No one has yet had any authority to decide which roads shall be improved. This will be left altogether up to the committee that is appointed by the county commissioners, the State highway commission and the competent engineer who is to have charge of the work.

3. "If this not the road that it is intended to improve, why will not the county commissioners say what roads they intend to improve? They have been asked to do so and refused to answer." The answer to this question is the same as above.

4. "Who is to spend this \$50,000 which you are asked to vote as a tax, not only on yourself but on the heritage of your children? The county commissioners have been asked to answer and have refused." The commissioners have refused because they believe that it is up to the people in different sections of the township to decide for themselves who is to have the say-so regarding the expending of the money.

5. Are you willing to see the city of Washington pay to improve the roads of Washington township at the expense of the roads of Long Acre and Chocowinity townships? We believe that Washington should make sure of getting good roads. Long Acre and

Chocowinity can then join Washington in one road district, if it is so desired. If they defeat the bond issue in these two townships, Washington would still have its good roads, where, if one election were held, the project would be entirely defeated. We believe that the people of Chocowinity and Long Acre townships can settle this matter for themselves.

6. "Why should Washington be selected exclusively for this special benefit by the city of Washington?" Because Washington lies in Washington township.

7. "Who is behind the movement?" The progressive and public spirited men of the township; men who desire to see this section develop and who wish to go elsewhere in the State or country and say that they are from Beaufort county without being ashamed of the fact.

Those are the questions and those are the answers. The last question is an insinuation. We might reply to it by asking, WHO IS BEHIND THE OPPOSITION MOVEMENT AND WHAT ARE THEIR TRUE REASONS FOR OPPOSING IT?

CHILDREN IN NEED IN EUROPE; MONEY NEEDED TO SUCCOR "Will you, at this glad Christmas season, help to send food to hungry children and clothing to keep them warm?"

This appeal is made by the National Allied Relief Committee for the children of the Allied soldiers. It says: "They are little children, innocent victims of the war, who are without food, clothing and shelter. Many have died and others are facing death from the want of the actual necessities of life.

It is not for munitions of war, it is not to aid the fighting forces that contributions are asked. It is for helpless and destitute boys, girls and babes in arms who can't help themselves. "We appeal to generous Americans to help these children. Christmas is happier for giving than receiving; none is worthier of aid than helpless little children."

FOR CHILDREN'S COUGH. You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle today. All Druggists.
