We offer the following, and can honestly state that it is the biggest bargain in Beaufort County today. Come and look at it immediately. It will go quick. It has never been offered at this price before.

537 acres, in Chocowinity Township, on Norfolk Southern Railroad, two miles from Hackney Station, with good frontage on county road, about 75 per cent good high land, light gray soil, with clay subsoil, and good natural drainage, and 25 per cent good rich fertile swamp land, which can be drained, with hand ditches. This tract will cut 3000 feet of mill size pine timber per acre, stumpage che ap at \$3 per thousand, timber value on this tract is worth around \$10 an acre; that is mill timber now, with splendid young growth. With timber cut off this land is worth \$15 an acre then. Fine farming land for improvement. Adjoins Nicholson lands, with same character of timber, now bringing \$4. Will take \$7.50 an acre and reserve timber three years or will take \$15 an acre land in fee payable \$1000 cash and \$500 a year. This is really a genuine bargain and worth investigating.
