Miss Rosamond Pinchot,  
Expert Rider and Driver.

Photo by American Press Association.

Noted for her skill in the saddle and in driving high mettled horses is Miss Rosamond Pinchot, daughter of Amos R. E. Pinchot of New York City, famous for his sociological work. Ever since she was big enough to sit on a pony, a back Roman has been instructed in the art of handling horses until she is as capable of saddling her mount or harnessing her driver as well as any groom—not that she usually performs such tasks, but she can do so if occasion requires. In the saddle Rosamond is perfectly at home, and at the recent horse show she drove her ponies in competition in the ring.

### "Ships of Fate."

As hints are plentiful at this time of the year, the following game can easily be played:

Prepare as many half shells of walnuts as there are guests. In each facet a small candle with a drop of wax. Fill a tub with water, and before sailing the boats the water should be agitated, so as to give it wavy. Two at a time may sail their boats, lighting their candles as they do so. The life of the owner is prophesied by the waxy qualities of his ship.

If the storm overcomes the ship the owner will be wrecked by adversity. The ship sailing across the tub signifies a long sea voyage, while those remaining by the side show that the person loves home better.

If the two ships stay together throughout the trip the couple owning them will have a happy marriage. If they bump together that signifies a quarrel, and if they sail in opposite directions each person will lead a single life.

### Boy Scouts of Hawaii.

Under the heading "Scouting in Hawaii" Scouting prints the following:

A. A. Wilder, special field scout commissioner for Hawaii, reports that scouting is booming in these island possessions of the United States. Plans are being made for raising a budget to carry on the work in a more systematic manner and to extend the benefits of the movement to a greater number of boys. A contribution of \$1,400 has been received as a starter for this fund.

Plans are also being made for the sixth annual rally to be held on Washington's birthday. It has been suggested that scouts from all the islands in the group be invited to attend and that this be made the first of a series of interisland gatherings.

### Hot in the Ice.

A game that is great fun to play is called "Hot in the Ice." The hole, or crack, in the ice is represented by two chalk lines on the floor. One row of children at a time runs or jumps in turn, trying to jump over the hole. If any one touches the floor between the lines instead of going home to his seat, he must first come to the front of the room, while the others are jumping, and dry his feet by running on three "on the ice." The width of the crack may be gradually increased so as to make this game more difficult.

### The Two Misses.

Little Miss Hairy.  
All bustle and flurry,  
Comes down to her breakfast ten minutes too late.  
Her hair is a-rumple,  
Her gown is a-rumple,  
She's no time to button and hook herself straight.  
She hunts and she rushes  
For needles and brushes,  
For looks and for pencils flies upstairs and down.  
If ever you find her  
Just follow behind her  
A trail of shoe buttons and shreds of her gown.

But little Miss Steady  
By school time is ready,  
All smiling and shining and neat in her dress;  
With no need to worry,  
She sits Miss Hairy,  
While at yesterday sat here with shame in her face.  
Her heart beating lightly  
With duty done rightly,  
She could she will never again change her name.  
For though you'd not guess it,  
I'm bound to confess it,  
These two little maidens are one and the same.

## AGRICULTURAL AGENTS MEET AT ELIZ. CITY

Large Number of Agents Expected To Be in That City at Convention to Be Held Next Week.

(By Eastern Press)

Elizabeth City, Feb. 2.—Much interest is being taken in the approaching meeting of the agricultural demonstration agents, for the eastern district of North Carolina, embracing thirty-three counties which is to be held in Elizabeth City on February 8, 9, 10 and 11.

This meeting will bring to this city the largest number of agricultural experts that have ever visited this section, and the program which has been prepared for the occasion will present a wide range of subjects, while the discussions, on account of the number who will take part in them as well as on account of the fact that those who will speak will talk out of their own experience in this eastern part of the state, will be of unusual interest. Farmers who will attend the meeting may expect to hear something of an intensely practical and helpful nature.

## N. S. TO BUY 6 NEW ENGINES

Railroad Company Prepares for Heavy Freight Business During Spring and Summer.

(By Eastern Press)

New Bern, Feb. 2.—Among other improvements which the Norfolk Southern Railway Company are planning to make on this division of their road in the near future, is the addition of six large locomotives which they will use in handling their freight trains.

These locomotives were ordered several weeks ago from a Philadelphia concern and will be in readiness for delivery within the next week or two.

The decision to purchase these locomotives was made when the company decided to improve its freight service from Eastern Carolina during the spring and summer months.

## PRESSING CLUB

Was Tobacco Sale at Kinston During Past Season. Prices Reported to Have Been Good.

(By Eastern Press)

Although it is not an old concern—as far as years are concerned—the ideal Pressing Club, under the able and efficient management of Albert Weston, has increased rapidly in the patronage which has been accorded by the public of Washington and vicinity. The care with which all of the cleaning and pressing is done and the dispatch with which goods are returned to the homes of the owners, has done much towards making this establishment a desirable one with which to do business.

Mr. Weston has made several new improvements in the business of late and is better than ever equipped for handling the cleaning and pressing business of this city.

### The Crown of England.

From the financial standpoint the crown of England is worth about half a million dollars.

No, indeed.

### SMILES.

A smile is a joyful sight. We do not know what ripples of healing are set in motion when we simply smile on one another. Christianity wants nothing so much in the world as sunny people.—Henry Drummond.

## BACK PAINS BEGIN ON SALTS

Flush the Kidneys at once when Back-ache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## TO THE BUSINESS MEN OF BEAUFORT CO.

Take our word for it, real estate values will double in this county within the next three years. With improvements in roads, our tobacco markets growing rapidly, drainage improvements, Western development and capital coming in, and with Eastern Carolina Tobacco Belt Farmers, buying our cheaper tobacco lands here, improved lands from \$25 to \$50 an acre, that in their counties sell from \$50 to \$100 an acre, we are safe in stating that values will double in three years. Fortunes are being made daily in real estate, and you had better get on the "Band Wagon." The safest investment in North Carolina today is real estate in Beaufort County, at the present prices. High prices are coming rapidly. If you wait until tomorrow it may be too late.

We offer the following, and can honestly state that it is the biggest bargain in Beaufort County today. Come and look at it immediately. It will go quick. It has never been offered at this price before.

537 acres, in Chocowinity Township, on Norfolk Southern Railroad, two miles from Hackney Station, with good frontage on county road, about 75 per cent good high land, light gray soil, with clay subsoil, and good natural drainage, and 25 per cent good rich fertile swamp land, which can be drained, with hand ditches. This tract will cut 3000 feet of mill size pine timber per acre, stumpage cheap at \$3 per thousand, timber value on this tract is worth around \$10 an acre; that is mill timber now, with splendid young growth. With timber cut off this land is worth \$15 an acre then. Fine farming land for improvement. Adjoins Nicholson lands, with same character of timber, now bringing \$4. Will take \$7.50 an acre and reserve timber three years or will take \$15 an acre land in fee payable \$1000 cash and \$500 a year. This is really a genuine bargain and worth investigating.
