

## CANDIDATES ARE GETTING MUCH HELP

Find That Neighbors And Friends Are  
Only Too Willing To Help  
Them In Contest

### SOME ARE SLOW

There Are a Few in Some of the Districts Who Appear to be "Backward in Going Forward." Every one Has an Equal Chance.

Just like some folks, it seems that some sections of the Daily News campaign territory wake up before others. Reports are coming in quicker from some part of the territory than from others, but although it takes some folks longer to get a move on, when they are once started, look out. They're off for a killing. They lead for big game and go right after it.

Neighborhood pride is figuring in the campaign. Several of the sections embraced by the campaign have determined that one of their ladies shall go on the big summer vacation tour. And the best part of it is that they can all win as six ladies are to make the big trip. This feeling of civic pride is making the work of the candidates easy. They find that neighbors are eager to help.

What Is Wrong?  
In a couple of the districts there are more prizes offered than active contestants. It is true that there are a number of names in each district. But in some instances the names signify nothing. We regret to state the fact that some of the ladies nominated have not only failed to give evidence of interest, but have remained unresponsive in sight of the fact that friends have been voting for them. There is a world of opportunity for any lady who will start in now. A little earnest work will certainly be rewarded with success.

## WILLIS DEFEATS JARGENSON

Local Boy Won Last Night in Two  
Straight Falls. Bout Was a  
Lively One.

Joe Willis last night defeated Sam Jargenson, of Chicago, in an interesting wrestling bout, which was held at the armory and was attended by a large crowd of fans. The local boy threw his opponent in two straight falls, securing the first fall in about 35 minutes and the second in 26.

Both boys were hard workers and the match was a lively one to witness. Although Jargenson had the advantage in weight Willis' ability to wiggle out of dangerous situations and his quickness in taking advantage of every opening, more than offset this point. The match was evenly fought and was a clever exhibition of the game. Jargenson proved a worthy opponent for the local boy and it is hoped that he will visit here again. He is a good man. Willis will probably work again in about another week. Two challenges were read last night from men who are eager to meet him.  
A preliminary bout between Kid Robbins and Strangler Biggs proved a good attraction. The former won his fall in about 11 minutes. Both bouts were refereed by Ted. Leach.

## WIND CAUSED CAR TO MOVE ON TRACK

Powerful Headlight on Passenger  
Engine Prevented Wreck from  
Occurring at New Bern.

New Bern, March 24.—But for the fact that the locomotive drawing the Norfolk Southern "midnight express" enroute from Goldsboro to Norfolk Wednesday night, was equipped with a powerful electric headlight, the train would doubtless have been torn to smithereens at a point near Tuscorora and many passengers would have probably been killed or injured.  
During the heavy wind storm which swept over this section Wednesday, the wind in some manner caused a box car standing on a siding at Tuscorora to get in motion and before it stopped it had moved out on the main line, right in the path of the "midnight express."  
No one was about that part of the yard after the car had moved out on the track and it was not noticed. The express usually passes that point at a pretty good rate of speed and it was coming along at a fair gait Wednesday night when the engineer saw the freight car several hundred feet ahead.

The train was quickly brought to a stop and the freight car hooked on to the locomotive and carried back to its proper place on the yard.

## NEWSPAPERS TO SETTLE CASE OF THE MISSING BOY

Will Endeavor to Prove Definitely  
That Boy With Gypsies Is or Is  
Not Jimmie Glass.

While many local residents hold the opinion expressed by Sheriff Windley yesterday, there are others who are confident that the boy with the gypsies is Jimmie Glass.

In order to settle the matter definitely, the newspapers in this section of the State have started a publicity campaign which, it is believed, will result in the early location of the boy with the gypsies. Practically every paper has carried the story and all county officials have been notified of the case. They have been urged to look out for the tribe and to hold the boy until it can be proven that he either is Jimmie Glass or is not.

to Join.

The E. M. R. A.—which stands for Early Morning Running Association—is still on the job and is rapidly growing in membership. The club meets every morning at the corner of Main and Harvey streets at 6 G. M. The members claim that they are deriving unlimited benefit through the association, but several outsiders have expressed the view that they are simply growing "nuttier." Whichever may be the case, the club is open to all comers and anyone who feels the necessity of taking a few inches from his waist measure and putting said inches around his chest, is urged to attend the daily meetings.

## HERRERA LOYAL TO CARRANZA. VILLA ENTIRELY SUBJUGATED BY U. S. TROOPS AND ALLIES

(By United Press)

El Paso, Tex., March 24.—Villa is surrounded. An engagement between his forces and the United States troops is expected hourly. Colonel Bertani, a colonel of Carranza's army, has telegraphed that Villa and his men have been completely surrounded by the Carranzistas and Americans in the Casa Clara canyon, east of Mamiquipa.

Carranza's consul, Barcia, is publishing a telegram saying that it is impossible for Villa to make his escape.

Newspaper Suppressed.  
The Constitution, a Mexican

newspaper, published in this city has been suppressed because of publishing a story urging Mexicans to join Villa. Nine employees have been arrested.

Herrera Not With Villa.  
Washington, March 24.—General Luis Herrera, who was yesterday reported as being disloyal to Carranza and having joined the Villa faction, is really faithful to Carranza's interests and is still in command in Chihuahua City. He has done nothing in the way of attempting to cause a revolt against Carranza. Consul Fletcher at Chihuahua today telegraphed the above information to the State department.

## PRESIDENT EDITS 'GREATEST NAVY' OUT OF DEFENSE SPEECH

Washington, March 24.—According to the Anti-Preparedness Committee, President Wilson did not mention the greatest navy in the world in his speech regarding the need for a country having "incomparably the greatest navy in the world."

In support of this statement the committee today called attention to the editing which it declares the President has given the address in its official form as House document 803.

The new version reads:  
"There is no other navy in the world that has to cover so great an area of defense as the American Navy and it ought, in my judgment, to be incomparably the most adequate navy in the world."
