STATE MEETING OF ELKS HERE ON MAY 17-18

OFFICERS OF LOCAL LODGE ANNOUNCED DATE OF CONVENTION THIS MORNING.

HAVE BEGUN WORK

Are Planning to Make Coming Convention the Best That Has Ever Been Held in the State. 1,000 Visitors Expected.

The annual State convention of Elks will be held in Washington on March 17 and 18, according to announcement made this morning by officers of the local lodge.

At the convention held in Charlotte last year, there were 1,500 wearers of the horns in attendance. Washington's location in the extreme eastern part of the State, however, will probably cause a decrease in the representation from the mountains and it is estimated that the attendance here will be in the neighborhood of 1,000.

A representative of the Daily News this morning called upon B. W. Taylor, Exalted Ruler of the Washington lodge, for further details regarding the convention.

"You can state for me," said Mr. Taylor, "that we're making preparations to give the visiting Elks the biggest time of their lives. We're going to make it a convention that they will never forget. The various committees are lined up for their work and are tackling their jobs in a thorough manner. Washington may be a little bit smaller than some of the other cities in which State conventions have been held, but believe me, Washington is going to make good—and make good with a vengeance."

GLASS SEEKS TO IDENTIFY GYPSY BOY AS JIMMIE

Providence, R. I., April 18.—Conflicting stories were told today by Lizzie Mitchell, a gypsy, who claims to be the mother of the golden-haired boy thought by the police to be the missing "Jimmy" Glass.

Charles L. Glass, father of the missing boy, wired from Jersey City for further details.

The boy in the hands of the gypsies answers the descriptions in possession of the police, with the exception that the boy has shifting eyes.

The alleged mother at first said the boy was born in Oklahoma. Today she said a "Jack" Mitchell, of the band, is the father.

Lizzie Mitchell coddled the child and protested against interference. "I am the mother. You won't take my darling away from me," she told the police.

Does Newspaper Advertising Pay?

A large paint manufacturer asked this question of retailers throughout the country:

NO. 1 SAID: "We believe rightly conducted newspaper advertising to be one of the very best forms of advertising open to the retail dealer—perhaps to any dealer or manufacturer. We believe also that poorly conducted newspaper advertising means money nearly wasted."

"By rightly conducted we mean well written advertisements having the local flavor, written in view of local conditions and needs, well displayed, appearing but one or not to exceed twice in the same paper—that is, in one or two issues." (Continued tomorrow)

"GET A COW AND PLANT A GARDEN"

Is Advice Given Out to Every Section of the State by the Board of Health.

"A milk cow for every family in Bladen county" is the slogan that has been adopted in connection with the anti-pellagra campaign that is now being conducted in that county by the State Board of Health. A bulletin on "Pellagra, Its Cure and Prevention," prepared by the State Board of Health for use in this campaign, advocates the "community cow" idea in teaching the importance of fresh milk and butter in the cure and prevention of pellagra. It says: "First and foremost in importance is fresh milk and butter. We want to hasten the day when every family in Bladen county, whether landlord or tenant, will have a milk cow which will provide fresh milk every day in the year. Furthermore, we hope that the day soon comes when the head of a family that does not possess a cow shall be considered a public dependent."

"Another thing we would especially emphasize," says the bulletin, "is the importance of every family in the county having a good garden and growing plenty of peas and beans. Let every farmer in the county make his garden 'king' instead of his cotton field. Furthermore, raise chickens and eggs. For every dozen eggs sold, let a dozen be kept at home and eaten by the family."

"Finally," the bulletin continues, "get that cow and plant that garden now. Don't wait until pellagra appears in your family to provide these every day necessities. To fight this disease does not require an outlay of thousands of dollars, but simply a little intelligent forethought and effort on the part of every man, woman and child in the county."

SAYS BAKER. I have said it and I can repeat it again; and again if it is necessary:—That every true son and daughter should see to it at once that they have a good portrait of father and mother just as they are today. BAKER'S STUDIO.

CARRANZISTAS MADE ATTEMPT TO ANNIHILATE U. S. FORCES

PARRAL FIGHT IS DESCRIBED AS DELIBERATE ATTEMPT TO KILL AMERICANS.

NO NEWS OF VILLA

Report That His Body Has Been Discovered Is Unverified. Withdraw Troops As Soon As Bands Are Broken Up.

(By United Press) With American Army, wireless to Columbus, N. M., April 18.—Men, who were engaged in the Parral fight, described it as a deliberate attempt of Carranza's men to annihilate Tompkin's command. The Carranzistas attacked the Americans, killing one.

By E. T. CONKLE, United Press Staff Correspondent. El Paso, April 18.—The protection of the American troops was the foremost consideration of army heads in the Parral attack. The request of Carranza for the withdrawal of the United States soldiers, makes the situation critical. General Pershing is understood to have reported to Funston.

The failure to verify the identification of the body, claimed to be that of Villa, is said to be due to telegraph wires being down in the interior of Mexico.

Must Break Up Villa's Bands. Washington, April 18.—It is stated that the U. S. troops will be withdrawn from Mexico as soon as they have accomplished the task of breaking up Villa's bands.

The reports of Villa's death are received here with considerable skepticism and are unconfirmed by Americans. Reports of further clashes between Mexican civilians and Americans may delay the withdrawal.

Americans Concentrate. San Antonio, April 18.—A number of detachments of Americans are concentrating at Satevo and are planning for new steps in the Villa chase. Funston asserted that the troops will be unable to advance beyond Satevo. Use of the Mexican railways must be obtained or a change of base will be necessary.

A report of the Parral fight has been sent Rodgers. Villa's death is unconfirmed.
