## Yes, It's Totally Different!

Everybody was on tip-toe for something new and different in chewing gum. Then came HONEY-FRUIT!

Just as good as it's different, too, or everybody wouldn't be buying it.

You buy a package of HONEY-FRUIT. You'll like it "like everything."

Made by FRANKLIN CARO CO. Richmond, Va.

## EXPLAINS MILITARY SYSTEM IN EFFECT IN SWITZERLAND

United Press Expert Writes Series Of Articles On The Subject.

NOTE—This is the fourth of a series of five articles by Shepherd dealing with the Swiss system of military training for citizens in its relation to the possibilities of a similar system in the United States.—Editor.

By WILLIAM G. SHEPHERD, United Press Staff Correspondent. Berne, May 4.—The average Swiss man is better physically and as a soldier than the average American male, thanks to the system of compulsory military training in Switzerland. Gets under the hide, a statement like this, but it's true. Every male Swiss can shoot straighter, run longer, march farther and endure more than the average male American. You have only to know what the Swiss is taught to do and what the average American isn't taught to do to realize that this is true.

Every Swiss school boy MUST go to a gymnasium. Every Swiss school must HAVE a gymnasium. It doesn't matter whether it's a church school or a business college or a fancy, high-priced school for little Swiss Lord Fauntleroy; it MUST have a gymnasium. In this gymnasium MUST be taught daily, certain exercises prescribed by the government. These are the highly scientific product of the deepest study in physical development. The average American doesn't even know what these exercises are. Now and then, it is true, after he's fattening up at thirty, the American answers an advertisement and purchases some at-

leged scientific physical culture book and follows the instructions therein. Any Swiss school boy of ten could teach him a world of valuable things in this line.

By the time a Swiss school boy is twenty he has developed his physique to its high point. He has made his body as fine and strong as his particular body can be made. This has been done scientifically and meantime, the call of his splendid muscles has driven him to football and other sports. That crowded Polo Grounds in New York makes you sick, when you look over these Swiss. You couldn't get 10,000 healthy Swiss to sit around of an afternoon watching OTHER men play a game. Each man wants to play himself. Hundreds of little sport centers are always busy. That cheering grandstand at the Polo Grounds, filled with men that couldn't run to first base without puffing, is a disgusting thought, here in the war country. Anything in the world is better than that. Any pacifist must admit that even learning how to shoot, out in the country, learning how to shoot with the intention of killing an enemy some day if you have to—is better than the average American's silly MENTAL participation in baseball. Or if you're too much of a baseball fan, make it kelly pool.

The average Swiss boy can outshoot the average American boy. The Swiss boy belongs to a rifle club in his neighborhood. The club is supported by the community. His shooting costs him nothing. Let an American boy get the idea that he wants to be a sharpshooter. Where can he learn? Where, in most cases

## A Big Part of the World Knows Grape-Nuts

not alone for its delicious, nut-like flavour, but more for its wonderful nerve and brain making, bone and muscle building qualities.

Grape-Nuts supplies certain essential elements, abundantly stored in the field grains, but which are lacking in many foods. Especially is this true of foods made from white flour, because in making flour white the larger part of the energizing mineral elements are thrown out in the milling process.

Made of whole wheat and malted barley, Grape-Nuts supplies all the rich nourishment of the grains, is long baked and rendered quickly digestible, and yields a big return of brain, nerve and muscle energy.

Wherever you go you'll find GRAPE-NUTS. "There's a Reason"

Sold by Grocers everywhere.

## DRUNKENNESS OF VARIOUS KINDS

By Samuel G. Dixon, M.D., LL.D., (Pennsylvania Comr. of Health)

A drunken man is the most dangerous, demoralizing factor in civilized life. The wild beast of the forest is a plaything in comparison. He sets all laws at naught and becomes an instrument of the devil. Man crazed by any kind of mental over-exertion is drunk and a menace to every one with whom he comes in contact. The wild dash of mind and body during the stage of over-stimulation may be fascinating to the individual but, when the inevitable reaction comes, death may ensue or, that which is worse, returning consciousness bring a realization of a horrible crime committed. Body and mind are weakened and less able to control the insane desire to exhilarate again and again until untimely death ends a life that might have been a boon to humanity in some useful path.

Some temperaments become sloth-like and are oblivious to the past and reckless as to what is to come. In such the harm to them and others comes through neglected duties.

Drunkenness is over-stimulation that destroys normal conditions. It may even be occasioned by the psychology of a crowd. There are various stimulants that will make a person drunk.

SHE TOLD HER NEIGHBORS. "I told a neighbor whose very young child had croup about Foley's Honey and Tar," writes Mrs. Rehkamp, 2404 Herman St., Covington, Ky. "She thought that the child surely would die it was so bad. When she gave it a couple doses of Foley's Honey and Tar she was so pleased with the change she did not know what to say." This old reliable cough syrup immediately helps coughs, colds, croup and whooping cough. Just as good for old as it is for young folks. Davenport Pharmacy.

## KEEPS UP STUDY IN GLOOMY JAIL

(By United Press) Waukegan, Ill., May 4.—Will Orpet, the University of Wisconsin student held without bail, for trial May 15 on a charge of murdering his sweetheart, Marion Lambert, at Lake Forest March 10, by administering cyanide of potassium, is hard at work from morning until night poring over his text-books and keeping up with his classes.

Orpet expects to be acquitted and he does not wish to get behind in his college work. The poor jail light has strained his eyes, but he will not give up his work, despite advice. While trustees are allowed to stroll about the outer corridors which are well lighted, Orpet, because of the seriousness of the charge against him, is confined in the "bull-pen" which is gloomy.

Attorneys for Orpet have agreed to have the trial in Waukegan and to fight will be made to take it elsewhere. Difficulty is expected in getting a jury because of the wide publicity given the case. Judge Chas. H. Donnelly of Woodstock, who will hear the case, admitted today that at least 500 veniremen probably will have to be called to get a jury. Deputy Sheriff Elmer J. Green thinks this estimate is too low. He said 2,000 veniremen will be required.

The last man hanged in Lake county was Chris Rererty, who killed a Chicago policeman. It took 2,500 veniremen for that jury. The state will call 66 witnesses. The trial may last a month. The witnesses include relatives and intimate friends of Orpet and Marian Lambert, college students from Madison, physicians, chemists and experts of all kinds, and newspaper men who talked with Orpet. The Orpet defense will be that Marian Lambert committed suicide.

will find the money to buy his rifle and ammunition? Rich American boys, true enough, have opportunity to learn the art of shooting. Good shooting is among the accomplishments of almost every rich American youth. But the average American boy, no matter how deeply he may be stirred by his desire to learn how to defend himself and his country in war, is without a chance unless he later in life develops a political or social ambition, and goes into the state militia.

In his shooting, as in his physical training, the Swiss youth finds a world of fun. There are shooting matches in various neighborhoods. Finally, the champions of a canton are weeded out. They shoot against each other in semi-finals and every year at Berne there is a great national shooting match that draws throngs of husky shooting men from every corner of the little country. Warlike sports, says the pacifist. Yes, but it's a sport that keeps Switzerland from war. And baseball and cricket never kept any country from war.

## Ain't It The Truth?

You used to fall in love with a new girl every six weeks:

You used to hike out and hunt up a new job once in so often:

But you've settled down now. You stick to things:

SOVEREIGN, for example!
