WASHINGTON, NORTH CAROLINA, MAY 11, 1916.

There's one thing about the good old summer time that we especially like and that is the crop of peaches.

Put in your order for flags and other decorations now. Only a few days until the Elks meet here—March 17 and 18.

If there is anything in numbers, Kinston should be the best policed city in the world, for it has the distinction of being one of the few, if in reality the only one, to have two chiefs of police.

"Is that a base-ball we hear coming up from the cellar?" queries the News and Observer. No beloved, merely the Raleigh team sliding down a few more steps.

In spite of all the urging, President Wilson steadfastly refuses to visit Charlotte. If Secretary Daniels or some of those other Tar Heels at the capitol would only mention 'Washington' to him, we'll bet that Woodrow would be on his way here on the first train.

By the way, just to turn the tables, what has become of that league that New Bern is trying to organize among the towns in its section? Arise Crumpler, and declare thyself.

The Elks, the "lives" organization in the United States, selected Washington, the "lives" town in North Carolina for their convention place. Do we hear echoes of "A good selection!" from other towns?

WASHINGTON'S BIGGEST ASSET.

One of the greatest factors that Washington can employ in her growth and development is the use of the Pamlico river. This great waterway has been largely neglected in the past.

Yesterday's Daily News carried an article which stated that a northern concern was contemplating running a barge line between this city and Baltimore. There is no question but that this line will prove a paying proposition for both the operators and the citizens of Washington.

A northern firm is going to operate the Baltimore-Washington line. If the citizens in this section of the State do not get busy, other northerners will come in and further promote the water-freight business in this State.

A "BEAT" FOR TWO PAPERS.

We don't know whether or not the readers noticed it, but the Daily News together with the Free Press of Kinston scored another noteworthy "beat" over the other papers of the State last week.

When the German reply to the United States note was received; the news was flashed to the majority of the papers by the two big press associations: the United Press and the Associated Press. Both the Daily News and the Free Press subscribe to the former service and the headlines in both papers stated that "Germany Meets Demands of the United States."

This is but another illustration of the fact that Daily News readers get the news while it is REAL news and get it in its correct form.

BETTER STATION FACILITIES.

Just what the Norfolk-Southern intends doing in the way of improving its terminal facilities at Washington is a matter which remains a mystery to local citizens. At one time reports were current to the effect that the railroad intended building an entire new depot, located at the foot of Main street, which would prevent the necessity of having to back up into town.

In the meantime, the traveling public has to put up with the present dilapidated building and passengers on the trains are given a mighty poor impression of the city from the view they obtain from the car windows. If the Norfolk-Southern intends to put up a new station at a different location any time in the near future, something to that effect should be made public and Washington citizens would undoubtedly manage to be patient for a while longer.

that HONEY-FRUIT outsells all other chewing gums put together. This means that most people like HONEY-FRUIT best.

Stronger words could be used to express this thought but let it go at that.

Aren't you willing to try a chewing gum that most people have voted the best made?

WOMEN VOTERS THREATEN BIG WAR ON DEMOCRATS

(By United Press) Salt Lake City, May 11.—Women voters of the country here today considered whether the pen, after all, really is mightier than the sword. Unless the pen shows results shortly they say they are going to declare war with the political sword on the Democratic party.

This was the decision contemplated by the conference. They threaten to organize a women's party, which they claim will hold the balance of power in the November election, and fight the democrats—unless the democrats "come across."

Cruelty to that child of the suffragists, the national amendment enfranchising women, is the charge laid by the delegates today against democrats who have held the amendment in committee and threaten to keep it there. If the child is not

dressed in a new cloak of approval by committee and brought before the House for consideration—favorable consideration—this summer, the women say there will be new hands in the Congressional pork barrel after November.

A delegation of women, following the two day meeting here will be sent on to Washington to deliver this message. They will be on a suffrage special with the 23 envoys who just wound up a tour of suffrage states, whipping the women into line. They will be met at Washington by crowds of supporters. The biggest demonstration yet at the Capital awaits them, according to press agents.

Both parties have promised strong suffrage planks in their platforms. This doesn't satisfy the delegates. They want real action.

GETS COST OF LIVING DOWN TO TEN CENTS

(By United Press) Barborton, O., May 11.—Grim necessity and Mrs. Cretia McIntyre, 62, have battered the high cost of living down to ten cents a day. The dime covers food, clothing, fuel and other necessities of life. Since November 14, 1915, Mrs. McIntyre's income has averaged ten cents a day.

Though hindered by rheumatism, she makes her own way, sewing, washing, and peddling household articles. Despite her financial hardships, Mrs. McIntyre is cheerful. She said today: "I will make more this summer, when my rheumatism is better and I can work faster. I guess I can stand it a little longer. I'm not going to live to be an old Methusalem."

She has struggled with adversity for 28 years. Her diet consists chiefly of rolled-oats, cornmeal and skimmed milk. She buys six pounds of rolled-oats for a quarter, cornmeal at two cents a pound, skimmed milk at five cents a gallon.

Mrs. McIntyre makes herself oatmeal pancakes in the morning. What is left she fries in the evening and makes some corn mush which she

eats with a little skimmed milk. Occasionally she has an egg. In the last six months this economist has paid \$1 for coal and \$1.50 for kindling wood.

of the people have said that they do not wish it. If it should become the policy of the Democratic party to elect Boards of Education by the people, and the majority of the Democrats in the legislature approve of it, I will introduce such a bill for Beaufort County if the citizens and taxpayers desire it. If I am nominated and elected I will resign as a member of the Board of Education. I will abolish the office of County Auditor. While we have no auditor at the present time, this law is still on the books, and any Board of Commissioners can appoint an auditor they see fit. I will endeavor to give the various sections of the county good road laws. I will study this question and try to pass such laws as will insure good highways in Beaufort County. I will stand for such other measures as will be of benefit to the county, and oppose laws that will work a hardship to our citizens. I respectfully ask the support of all democrats in the primary. Sincerely, W. M. BUTT. Bonnett, N. C. 5-2-Saw-c.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness. Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the digestive system of the human body as it is to the drains of the house. Those of us who are accustomed to feel dull and heavy when we arise, splitting headaches, stuffy from a cold, food tastes nasty, breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter. Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of Limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have a sallow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
