### WASHINGTON, NORTH CAROLINA, MAY 15, 1916,

Chautauqua is only a short time away. Talk and boost it all you can before the opening day.

This week we are going to have one of those regular clean-up week in Raleigh,-News and Observer. Including the cleaning up of the Raleigh baseball club, we suppose,

Now let's see if Bryan or Ford can get up any kind of a parade to compare with the "preparedness pageant," which took place in New York Saturday.

After a consultation with our tinancial secretary, we cannot help but wonder whether the present searcity of paper has extended to that particular grade they use in making paper money.

Get out that old Palm Beach and have it cleaned up in time for Wednesday. The local Elks want to change Washington into Palm Beach on that day.

### "PROMISES BY THE GREEKS."

Judging from the exclusive United Press story, which was published in Saturday's Daily News, Germany has assumed a much more conciliatory attitude toward the United States. The government is also taking precautions to see that no more dissension is expite of our history, but we've had a rude awakening in the last two of the German-American plotters in this country.

Naturally these reports are pleasing to the United States and it is sincerely hoped that Germany will live up to them. Nevertheless, we should not abandon our plans for preparedness and should continue the program that has been outlined for the increase of our army offerings," might also have been written: "Beware of the Greeks when they make promises." ### NEW STYLES IN YACHTS.

A distinct change in the lines and general construction of pleasure eraft is going into effect and is being carried out by northern boat live unless its people are willing to builders. Instead of the light and flims, vessels that have heretofore Instead of the light and flimsy vessels that have heretofore been built, more attention is being given to strength, power and speed. Many rich men, living along the Atlantic coast, are having speedy boats built that will carry guns, searchlights, wireless, and will be manned by regular men from the navy and commanded by their owners, who will have the rank of ensign.

The idea is an excellent one and should be carried out not only in small pleasure craft but in the building of all American vessels from the smallest launch to the largest freight and passenger vessel In other words, all boats and ships should be built so that in case of necessity, they could be called upon to do patrol and scout duty and protect the coast from the raids of submarines. They would be in a position to lend material assistance to the regular fleet of the United States in this way. Many of them could quickly be converted into light cruisers and could do effective work on the seas.

### ARE WILLING TO CLOSE STORES.

A canvas of a number of the local merchants, made by the Dails News during the last few days, has brought out the fact that not one of those who have been interviewed is adverse to closing his place of business half a day Fridays during the summer months. In fact the majority of them are enthusiastic about the plan and believe that it would be an excellent plan to adopt.

Much comment on the movement has also been heard from the citi zens on the matter and they also believe that the closing of the store would cause no inconvenience or the slightest objection from either residents of the city or country.

The question has now reached the stage when it will be necessary for the merchants to act on the issue. We suggest that it be taken up at the next meeting of the Business Men's Association and that it be definitely decided at that time whether to close or not.

### A SPECIAL PAPER FOR WEDNESDAY.

With hundreds of visitors in the city Wednesday, it is up to Wash ington to make as good a showing as possible in every way in orde that the strangers will receive the most favorable impression of both the city and its people. A special request has been made for every body to decorate their places of business, homes and automobiles It has also been asked that property owners make tomorrow a general "clean-up day," so that everything will be neat and clean by the time the first visitor arrives in the city.

In order to tell the visitors something about Washington and its resources, the Daily News is compiling considerable information which will be published on that day. A complete account of what has been done in the way of development and progress will be given together with a number of other special and interesting articles. will also endeavor to publish the name of every visiting Elk and make the issue as attractive as possible in every way; one that the visitors will read carefully and take home with them.

No special solicitation will be made for advertising, but we believe that the merchants will realize the benefit of our plan and that all will endeavor to have their places of business represented in the advertising columns. A town is judged by its newspaper by outsiders. We want to give the Elks a paper which they will find interesting and worthy of praise. We want them to see that the busines men support the paper and, in so doing, support the town.
