

\$1,000,000 FOR INLAND WATERWAY IS ADOPTED

SENATE PASSES MEASURE FOR
WATERWAY BETWEEN NOR-
FOLK AND BEAUFORT.

VOTE OF 35 TO 20

Engineers Estimate Appropriation
Will Complete Canal from Norfolk
to Albemarle to Depth of 12 Feet,
Bottom Width of 90 Feet.

The item in the River and Harbor
bill of \$1,000,000 for the inland
waterway from Norfolk to Beaufort
was adopted today in the Senate.
The fight upon this item was prob-
ably the most vigorous that has been
made up to this time against any
item in the bill. Senator Simmons
defended the item with much vigor,
and upon a vote it was approved by
35 to 20.

The engineers estimate that this
appropriation will complete the
canal from Norfolk to Albemarle
Sound to a depth of twelve feet, and
a bottom width of ninety feet.

The completion of this canal will
give immediately a free waterway
from Norfolk to Beaufort of ten feet
depth. The project contemplates
opening the route to the same depth
as that of the Chesapeake and Al-
bemarle Canal so as to give a minimum
depth throughout the whole route of
twelve feet.

The above item, which is of spe-
cial interest to the citizens of this
section, was sent this morning to the
Daily News by Joseph F. Taylor,
chief clerk of the Senate finance
committee. The passing of the ap-
propriation in the Senate is of spe-
cial importance to this part of the
State. Mr. Taylor has kept in close
touch with the project and, realiz-
ing how vital it was, he lost no time
in giving the news to the readers of
the Daily News.

TO THE VOTERS OF BEAUFORT CO.

With the exception of my an-
nouncement as a candidate for re-
nomination for the Sheriff's office, I
have had nothing to say. I have not
asked a man directly to vote for me,
as I thought it was unnecessary, be-
cause I did not (and I do not now)
think my friends will put me out of
office, as everyone knows I have only
had it one term. I presented my
receipt from the State last year and
also from the county showing I had
settled in full. I have my receipt
from the State and have settled
three-fourths of the county for this
year, although it is reported in Rich-
land Township that I was holding
back the school money and the com-
mittee could not settle with the
teachers on account of me not set-
tling with the Treasurer. I paid
the schools last year \$2,138.34 too
much and the Board of Education
and myself had quite a little trouble
to get me relieved, and they did it
by giving their notes. I have settled
with the general school fund this
year, less my insolvent list and I
have settled three-fourths of the
taxes for the special graded schools,
and could settle the whole amount
had the finance committee checked
up my account. I have made a spe-
cial effort to help the schools of our
county when our "Treasurer" called
on me for money. I have also helped
the schools in contributing myself
personally and to the county com-
missioner and to three new school
buildings, and this I did willingly
and shall not advertise myself as to
what schools I gave to and what
amount, because I did it without
thinking of any political gain.

I have made some enemies in ad-
vertising their land for taxes, but
any reasonable man would not get
mad, because the law says when a
man does not pay his taxes you
must sell his land and I was not able
to pay the taxes for the people.

TO COMMENCE WORK ON PLANT BY NEXT WEEK

PLANS HAVE BEEN COMPLETED
FOR LARGE REDRYING PLANT
TO BE LOCATED HERE.

BUILDING 60 BY 80 FT.

Will Be Located in Front of Storage
Warehouse on the Coast Line.
Plant Will Be Completed by the
First of September.

One of the principal topics of con-
versation among the business men
of the city today was the discussion
of the coming of the new tobacco re-
drying plant to Washington, which
will be put in by Ficklen & Webb,
now located at Kingston and Green-
ville. Everyone is greatly pleased
with the action of this firm in mak-
ing this the location for their plant
and the highest optimism is felt for
the success of the Washington mar-
ket.

The plant will be located in front
of the storage warehouse on the At-
lantic Coast Line. A switch will
run right up to the door of the
house. The building will be built in
a most substantial manner, two stor-
ies high and with a concrete floor. It
will be 80 feet long and 60 feet
wide. The plans have been com-
pleted and active work on the con-
struction of the building will begin
next week.

It is generally believed that con-
siderable more tobacco will be
brought to the local market this
season on account of the plant be-
ing located here. A large quantity
of the weed will also be shipped here
from neighboring smaller markets
for redrying.

on the east bank of the Meuse are
also reported by the war office.
By smashing counter attacks the
French today also recaptured the

TURNER BEAT WILLIS

Local Man Made Good Showing but
Was Thrown in Two Straight
Falls.

Joe Willis was defeated by Joe
Turner last night in two falls. Turn-
er outweighed the local boy by
about ten pounds and also had con-
siderable advantage in strength. An
arm lock spelled Willis' downfall
for the first fall and a combination
of the same hold threw him the sec-
ond time. The first fall went 45
minutes and the second 50. A small
crowd of fans were present to wit-
ness the match.

TO STUDY "CYMBELINE"

New Play to be Taken Up by O.
Henry Club, Meeting Held
Yesterday.

The O. Henry club was entertain-
ed in a most charming manner by
Mrs. W. C. Rodman. A large num-
ber of members were present and
enjoyed one of the most interesting
meetings that the club has held re-
cently.

Many cut flowers were in evidence
in the beautiful home and were at-
tractively arranged in the various
rooms. The guests were served
punch in the reception hall, after
which the business part of the meet-
ing was taken up.

Mrs. S. R. Clary, a delegate of the
club to the Federated Club meeting
at High Point, read a highly inter-
esting report of the proceedings of
the convention, which received the
closest attention of those present.
The last act of Shakespeare's Othello
was then read by the club.

The next play that the members
will read and study will be "Cymbe-
line," by the same author. Mrs. A.
M. Dumay read a most compre-
hensive outline of the play. Her paper
showed careful preparation and was
also well read.

A short social session concluded
the meeting. Mrs. Rodman serving
an ice course, being assisted by her
two daughters.

The next meeting will be held
with Mrs. A. C. Hathaway.

TELLS OBJECT OF THE PEACE LEAGUE

Taft Says Intention Is Not to Stop
Present War But to Prevent
Recurrence.

(By United Press)
Washington, May 26.—Ex-Presi-
dent William H. Taft, speaking as a
jurist, placed his "O. K." on the
platform of the League to Enforce
Peace. He declared that it would
be perfectly constitutional for the
United States to bind itself with
other nations to declare war on any
country that declares war, with-
out first resorting to arbitration. He
took a direct issue with W. J.
Bryan's recent statement on this
subject and said that the League
will not try to stop the present war
but will follow its distinct purpose
to prevent the recurrence of such a
disaster to civilization.

WAYOME CLUB MEETS

Many New Members to be Taken
Into the Club, Interest Is
Increasing.

The Wayome Club held a special
business meeting in their rooms last
night. Several important matters
were brought up. Among these was
the naming of several candidates for
membership. Most of these are now
off at different schools and will be
taken in when they return.

It was also decided to install a
telephone in one of the club rooms.
This is a convenience that the boys
have been wanting a long time.

By the number present and the in-
terest shown in the meetings it is
easy to see that the boys are work-
ing hard to uplift the standard of
the club.

RUM IS POURED OUT

Several Gallons of Strong Fluid De-
stroyed by the Police Yester-
day.

The police yesterday afternoon
poured out several gallons of mon-
ey rum in front of the city hall. A
large crowd of spectators gathered to
witness the destruction of the
stuff.

So highly odorous was the liquor
that men who worked on the river-
front claim that they could smell it.
A negro attempted to carry some of
it off in his hat, but the police were
too vigilant.

The recorder had a light docket
yesterday, only one case being
brought up for disposal. B. G. Moss,
charged with speeding his automo-
bile, was fined costs of court.

In broad intimation that it was Ger-
man sources that fanned the rumor,
Lanning appeared at the cabinet
meeting today and returns to his
own Sunday, having recovered from
a slight illness.

DOESN'T DENY GUILT

When Asked Whether He Is Insane,
Replies That "He Thinks Not."
Says That He Never Has Denied
His Guilt.

(By United Press)

New York, May 26.—A calm ad-
mission of the fact that he planned
to kill his wife, as well as her par-
ents, Mr. and Mrs. John Peck of
Grand Rapids, and also Miss Cath-
erine Peck, her sister, was made to-
day by Dr. Arthur Waite, when he
resumed the amazing confession in
the wholesale poison plot, through
which he hoped to gain control of
the Peck millions.

When asked if he was crazy, he
replied that he thought not. "I
don't care what becomes of me," he
continued. "I want to do what's
right."

Under cross examination he de-
nied the tongs conspiracy to fake
insanity.

"Do you deny your guilt," he was
asked.

"I never denied it," he replied
quietly.

"What is your defense?"

"I am making no defense."

GOOD STAND OF TOBACCO

Local Banker States That He Has
Never Seen a Better Stand Than
That in the County.

In discussing the tobacco crop in
the county, A. M. Dumay, who has
recently made a trip through the
county, stated this morning that he
never remembered having seen a
finer stand of tobacco than that
which is now above ground in the
vicinity of Washington.

"I don't know about the size of
the crop," stated Mr. Dumay, "but
it appears to me that the acreage is
about the same as last year. With
a good season, however, I believe
that a larger quantity of tobacco will
be raised."

"There is another thing that must
be taken into consideration, and that
is the lack of potash this season.
What effect this will have on the
crop, is uncertain and we'll have to
wait and see."
