

RUSSIANS COMPLETELY OVERWHELM THE AUSTRO-GERMANS

ALL IS NOT YET SETTLED WITH MEXICO

THREE PROBLEMS STILL CONFRONT THE ADMINISTRATION AND MUST BE SOLVED. WON'T WITHDRAW NOW

Carranza's Friendly Note Will Not Cause Troops to Withdraw. Lansing Starts on Vacation. Polk to Handle the Situation.

(By United Press)

Washington, July 6.—President Wilson is not yet convinced that all is now "co-operation and friendliness." It is true that Carranza's latest note has given "tremendous satisfaction," but the border danger still lives.

Three problems remain unsolved. The first is whether the troops shall be withdrawn or not, the second is regarding a co-operative border patrol and the third is the cleaning up of Mexico.

Most officials believe that the end of three months will see the troops entirely out of Mexico and most of the militia back home. It is believed that the border will then be patrolled by regulars alone.

Won't Withdraw Just Yet. The punitive expedition, it was learned officially today, will not be withdrawn merely on the strength of Carranza's friendly note. It is thought, however, that the note will pave the way for discussions which ultimately may end in withdrawal.

Lansing conferred today with President Wilson regarding the Carranza note, which was described as "tearing the door open" for an amicable settlement, although the real issue remains, through the fact that Carranza does not disavow Trevino's orders to fire on the Americans.

Counselor Polk will handle any negotiations that come up during Lansing's vacation, which starts tomorrow.

Reply to Go Forward Soon. Following a conference with Lansing, Polk stated today that the reply to Carranza's note would go forward soon. The first draft will probably be laid before the cabinet tomorrow. Negotiations with Carranza will be made through the customary diplomatic channels.

JOE TAYLOR TO GET PLUM

Washington Citizen is Slated for Advance. May Get Either Collector's Place or Marshalship.

Washington, July 6.—The Simmons machine is geared and ready for action. Not that it is not always in this frame of mind, but the subject before the house now is one that would be absolutely controlled by that once powerful organization. The question uppermost in the minds of the powers that be, of course, is who "am going to get that pie."

With Judge Winston out of the way there is a nice vacancy for some one. If present plans do not run into the same rough waters as did those who attempted to use the machine to beat Bryan Grimes and Ben Lacy, something like this is going to happen:

J. William Bailey, of Raleigh, is going to give up his job as collector of internal revenue and take the more dignified position of district attorney.

United States Marshal Dortch is going to take a more dignified place than he now has by being advanced to the collectorship.

Joseph F. Taylor will be promoted from the clerkship of the senate finance committee to the marshalship for the east.

"Of course something may happen to upset these plans. But it is pretty well settled that they will be carried out unless unkind fate throws a monkey wrench or a pile driver into the machinery.

Joe Taylor had been promised either the marshalship or the collector's place some few hours after the votes had been counted November 4 years ago. But things happened—things over which neither Joe nor the senior senator had any control, and Taylor was given the clerkship to the finance committee.

SAYS SMALL IS RIGHT

O. K. Stillely Writes Letter, Supporting Congressman for Stand on the Hay Resolution.

Edward, N. C., July 5, 1916. Editor Daily News,

Dear Sir:—I note Mr. John H. Small's position on the Hay resolution. Although he stood 2 to 296 and although I am nothing but a "piney woodsman," I say that Small is in the right. If you make a national army a mercenary crowd, you are going to ruin your country. Yours truly, O. K. STILLELY.

ALLIES MAKING PROGRESS IN THE WEST

BATTLE RAGES IN VERDEN SECTION WITHOUT ABATEMENT. KAISSER AT THE FRONT.

MAY LAUNCH OFFENSIVE

Counter Attacks by the Teutons Are Looked for Within the Next Seventy-two Hours. Berlin Admits Gains by the Allies.

(By United Press)

London, July 6.—The Kaiser is reported at the Somme front. Every effort is being made by the Germans to stem the British advance in this section. Indications are that the Teutons will launch furious counterattacks within the next seventy-two hours to stifle the British offensive and prevent further advance by the French.

Berlin dispatches indicated today that the Kaiser is determined to halt the British. The Paris-Verden cathedral has been heavily bombed by the Germans.

Strong German counter attacks recaptured from the French two positions in the small woods on the north of the Somme. The French retalled by carrying the wood northeast of Hemvillee and taking six guns and several hundred prisoners.

Further slight advances are reported by the British at Thierat. The British also took a number of prisoners south of the Labasse Canal, and successfully raided the enemy trenches after gas and smoke attacks.

The Berlin war office has admitted that the French have captured Belloyen-Santerre, south of the Somme and that the Germans have evacuated Hemvillee. It has also been admitted that the British made minor advances in obtaining a firm foothold south of Thierat.

SENATOR WALSH IS NAMED FOR SUPREME CT.

Washington, July 6.—President Wilson has under consideration the appointment of Senator Walsh, of Montana, for Associate Justice of the Supreme Court to succeed Charles E. Hughes.

This became known today when it was stated by one of the President's political advisers that Senator Walsh had been tentatively selected for membership on the Democratic National Executive Committee, but that in view of the possibility of his being named to the bench, Chairman McCormick probably would choose another.

We were glad to have him come out and preach for Mr. Ball for he has been shut in now for 25 years with rheumatism. I think some of the rest of the ministers should come and do likewise.

We are having a fine Sunday School now at the Singleton school house and are practicing for Children's Day. We are rather late on that owing to the late arrival of the books, but we are expecting a nice time.

Miss Mintie Perry spent awhile Saturday afternoon with Mrs. W. B. Woolard.

NO MORE CHAUTAUQUA

Lack of Interest and Enthusiasm Part of Local Residents Has Caused Abandonment of Annual Event.

After a notice of the Chautauqua guarantors' meeting had been inserted in a prominent part of the paper and after both the president and secretary had notified a large number in person and over the telephone, exactly five—FIVE—men appeared at the Chamber of Commerce last night to discuss the question whether Chautauqua should come to Washington next year or not.

The five men at the meeting were B. G. Moss, W. C. Ellis, Carl Goersch, J. G. Bragg, Jr. and C. A. Flynn. These five discussed the matter at length. It was pointed out that every other city in this section of the state had already signed up for the Chautauqua and that Washington would be the first city to drop out of the circuit. But it was also shown that local residents were entirely lacking in enthusiasm over the event, that little or no interest was taken in it—as last night's meeting showed,—that many business men became guarantors simply as a personal favor to the man who took around the list and that tickets were sold in the same way.

Therefore, it was decided at the meeting last night that the people of Washington evidently did not want Chautauqua here and that as far as those present were concerned, the matter was ended. No attempt will be made to have Chautauqua here again next year.

Genuine regret over the action was expressed at the meeting, but it was argued that it was the only course open.

TEUTONS HURLED BACK ALONG TIRE EASTERN FRONT

OVER HALF A MILLION AUSTRILIANS BEEN KILLED, CAPTURED OR WOUNDED SINCE START OF PRESENT OFFENSIVE

IMMENSE STORES OF SUPPLIES SEIZED

(By United Press) Petrograd, July 6.—At least half a million Austrians have been killed, captured or wounded since Brusiloff began his sweep against them. General Letchitsky's advance in southeastern Galicia, which has been extremely rapid after the capture of Kolomea, now threatens all of eastern Galicia. The Austro-German right wing is under terrific pressure. The Austrians are staggering back along the muddy Pruth and Dniester valleys, abandoning enormous stores. The Russians have captured the important railway station at Mikullcheyn, 38 miles from Stanislut, thereby cutting off completely the Austro-German line of supplies. The Russian offensive on the Riga front is driving the Germans back.
