ROAD EXPERTS PERFECT OIL MIXED CONCRETE FOR HIGHWAYS

(By United Press)
Washington, Aug. 7.—Concrete as a road-building material is of "perhaps more universal adaption than any other material now in use," said Director Logan Walter Page, of the Office of Public Roads of the United States Department of Agriculture, today.

Concrete, as stated up by the department, has the following advantages:

1. Durability under ordinary conditions.
2. A smooth, even surface, not too slippery.
3. Practically no dust.
4. Is easily cleaned and maintained at small cost until a patching or resurfacing becomes necessary.
5. A pleasing appearance.
6. Forms an excellent basis for other materials when resurfacing becomes necessary.

Its disadvantages are as follows:

1. Noisy under horse traffic.
 2. Difficult to repair.
 3. Cracks must be given prompt attention or deterioration will ensue.
- Improved concrete for road building as well as for other purposes, that is proof against water absorption has been announced by the department in oil mixed concrete. After extensive experiments with a view to producing a non-absorbent concrete mixture, the department found that the addition of ten per cent of heavy mineral oil to the Portland cement paste acted as an effective repellent to moisture. The susceptibility of concrete to water absorption had long been recognized as one of its inherent weaknesses as a road-building material. The addition of the oil does not lower the tensile strength, the department has found, and has the further advantage of making the mixture impervious to the destructive action of alkali salts.

NO CHECK OF PARALYSIS IN NEW YORK

Albany, Aug. 7.—The greatest increase shown for a half day since the infantile paralysis epidemic started was made public today. Forty-one new cases were reported to the State Department of Health. This brings the total number of cases up to 616, outside of Greater New York. Two deaths were reported today, one at Poughkeepsie, Dutchess County, and one at Mamaroneck, Westchester county, making a total of thirty-five. This data shows clearly that in spite of the stringent efforts of the Federal, State and local health authorities the child plague is increasing upstate steadily. The new cases were reported from these places.

REAL LIVE MODELS, IN BATHING SUITS AT CHICAGO SHOW

(By United Press)
Chicago, Aug. 7.—Live models—the liveliest of whom wore bathing suits and were exhibited in a special fountain, characterized the Fall Style show of the Chicago Garment Manufacturers' association which opened today and will continue all week. Wholesaler invitations to buyers to attend the show at Bismark gardens dwell particularly upon the group of feminine swimmers in apt-to-the-minute bathing costumes. Why the bathing suit display for fall wear no one knew and none seemed to care. It was a great attraction. Chicago store windows were in the beginning of a week's boycott on out-of-town goods and gave their entire window space over to the display of "Made-in-Chicago" products, taking this method of doing their share to boost the show. A half hun-

dred garment manufacturers of this city had entries in the display. Each manufacturer was allowed to enter four garments—provided they entered them on live models. From 6,000 to 7,000 middle west buyers are attending the style show. A feature of the show is a revolving stage which permits quick changes of scenery. Dinner will be served each evening, after which the show will be held.

BAD TO HAVE A COLD HANG ON

Don't let your cold hang on, rack your system and become chronic when Dr. Bell's Pine-Tar-Honey will help you. It heals the inflammation, soothes the cough and loosens the phlegm. You breathe easier at once. Dr. Bell's Pine-Tar-Honey is a laxative Tar Syrup, the pine tar balsam heals the raw spots, loosens the mucous and prevents irritation of the bronchial tubes. Just get a bottle of Dr. Bell's Pine-Tar-Honey today, its guaranteed to help you. At druggists.

Figure the probable cost of a classified advertising campaign through which you can sell that property—and the VALUE to you of that result.

HUGHES GAINS BY HIS STAND ON SUFFRAGE

New York, Aug. 7.—Women throughout the nation have been keenly aroused by the unqualified endorsement of women's suffrage by Charles Hughes, Republican candidate for President. Reports from most of the States where they have the vote indicate there will be quite a general lining up of women under the Hughes banner.

SWITCHMEN ARE DEMANDING BETTER WORKING CONDITIONS

New York, Aug. 4.—Demands of approximately 30,000 members of the Switchmen's Union of North America for increased wages and shorter hours, made in Chicago in March, are being discussed in this city by representatives of the union and the railroads affected. It was learned today. The conference which has been in progress more than a week is private. Nineteen railroads are represented at the conference, including the New York Central, the Baltimore and Ohio and the Rock Island.

to decrease under the State prohibition law than among men. Juvenile Court authorities here declare. Prohibition has cut down the number of cases before the various city courts 75 per cent. Habitual men drunkards have almost disappeared. While drinking by women shows a marked decrease, the percentage of habitual "women drunks" who have reformed falls much below that of the men.

DRY CITY UNABLE TO CURE WOMEN DRINKERS
