

TURNING POINT OF THE WAR HAS COME

NO MORE BREAD TO SELL FOR 5 CENTS

BAKERS ADOPT RESOLUTION,
RAISING THE PRICE OF ALL
BREAD TO TEN CENTS
PER LOAF.

SHORTAGE OF WHEAT

Estimated Crop Will Be Thirty Per
Cent Short This Year. High Cost
of Ingredients and Labor Cause
Action of Bakers.

(By United Press)
Salt Lake City, Aug. 9.—The convention of National Master Bakers today adopted resolutions declaring it "their sacred duty to the public to fix the price of bread at ten cents per loaf." The unprecedented rise in the price of ingredients and labor is given as the cause for this action. Nation-wide interest has been aroused. 700,000 members of the National Housewives' League will fight the action of the bakers.
Wheat Jumps in Price.
Chicago, Aug. 9.—Wheat jumped from five to seven cents today, as the result of the government crop report, which predicted a thirty per cent decrease in production.

MAY HAVE "ONE-WAY" TRAFFIC RULE

Mayor Stewart is Considering Several
Changes in Traffic Regulations
of City.

Some decided changes in the traffic rules of the city are being considered by Mayor E. T. Stewart, and will probably be brought up at the next meeting of the Board of Aldermen for action.

Mr. Stewart is in favor of a "one-way" traffic law on Main street, between Market and Gladden. This law would permit all vehicles to travel only in one direction. He also favors making all automobiles stop at the corner of Market and Second streets. Some ordinance, regulating the use of dazzling headlights within the city limits, will also probably be passed at the next meeting of the board.

INTERESTING MEETING CHAMBER OF COMMERCE WAS HELD LAST NIGHT

Large Attendance of Members Present. Seven New Members Enrolled.

One of the best-attended meetings of the Chamber of Commerce that has been held recently, took place last night. There were thirty members present and much interest and enthusiasm was manifested. Seven new members were added to the chamber: Alderman Capenhart, Laundry Co., W. H. Baker, W. M. Bell, J. S. Campbell, Lee Davenport, Jackson & Robinson and A. R. Styrone.

An interesting report of the last year's work and some excellent suggestions for future work were read by E. L. Stewart.

B. G. Moss reported that he had been handling considerable correspondence relative to a packing plant. The matter of a "pay-up week" for Washington was brought up and was referred to the publicity committee. Several other matters of interest were discussed.

YOUR CLASSIFIED "AD" should simplify the tenant-seeking task for you.

This is one of the heavy British guns in action on the west front, where such cannon have smashed the German trenches for many miles.

NEW BERN MAN IS DROWNED

James G. Delemar Met Tragic Death
In Neuse River Last Night.

A death which cast a shadow of gloom over the entire city occurred at Wyatt's Beach last night about 8:15 o'clock when Mr. James G. Delemar succumbed to a sudden attack of heart trouble, either as he was preparing to go overboard for a swim or immediately after striking the water.

Mr. Delemar left New Bern about 7:30 o'clock in his launch with a party composed of Mr. and Mrs. E. A. Braddy, Miss Sidonia Dunn and Mr. Roderick Davenport, for Wyatt's Beach, where they intended to spend a short time bathing, after which they were going for a sail down the Neuse river.

No one saw Mr. Delemar when he went into the water, but as other members of the party prepared to go in for a swim, and had descended from the boat, one of the men saw an object and upon approaching it he saw that it was Mr. Delemar. When Mr. Braddy reached Mr. Delemar the body was submerged with the exception of his forehead. His feet were resting on the bottom with his head and arms hanging down. The water at this point was about two feet deep.

The body was carried ashore, a physician summoned from New Bern and in the meantime the other members of the party worked untiringly in an effort to resuscitate the body, but at no time was there any sign of life. As soon as Dr. R. S. Primrose arrived he examined the body and found that death was not caused by drowning, but was the result of heart failure. There were bruises on the right side of Mr. Delemar's face and on his right arm, but it is believed that they were caused, either by striking the anchor or the bottom of the river.

Urges Farmers To Beware of "Pin-Hookers"

In a letter to A. M. Dumay, which was received this morning, H. W. Williams, of Hemmingway, S. C., who was on the Washington tobacco market last year, warns the farmers of Beaufort county against selling their crop to speculators or "pin-hookers."

Mr. Williams states that there were a large number of speculators on the South Carolina market when it opened, but that most of them have left and have come to North Carolina. He says further that prices in South Carolina are very high and that a good many of the farmers of that section fell a prey to the offerings of the "pin-hookers," when the latter offered them a price that compared very favorably with last year's crop, but was far below what the tobacco was worth this year.

Reports Work Done By Chamber of Commerce During the Last Year

E. L. Stewart Also Suggests Projects
That Require Attention During
the Present Year

A most interesting report on the work that has been accomplished by the Chamber of Commerce during the last year, and suggestions for future work, was read at last night's meeting of the Chamber by E. L. Stewart. The report, in full, was as follows: Mr. President and Gentlemen:

As your committee appointed by the President, Geo. T. Leach, to report on the work done and results accomplished during the past fiscal year by the Chamber of Commerce of Washington, N. C., as well as to suggest outline of work to be done during the coming year by said Chamber, I beg leave to submit the following:

A careful and critical reading of the records fails to disclose but few specific instances of definite and concrete accomplishments. Yet, when considered in the aggregate, it is, in my judgment, practically impossible to adequately and comprehensively sum up the vast amount of good that has been accomplished through the efforts of the few citizens of Washington, who have the interest and welfare of the community truly at heart and have manifested this interest in their attendance upon the meetings of the Chamber of Commerce, and in their effort to aid in every practicable way, the work which the Chamber is striving to do for the community.

I would call your attention especially to the following final results accomplished during the past year, which is conclusive evidence of what good can be done when men get together with determination of mind, and harmony and co-operation of spirit and purpose:

Through the efforts of this organization, a movement was launched beginning with a banquet and amulet, which finally resulted in the voting of \$50,000 worth of road bonds for the improvement of public highways in Washington township.

The movement was conceived in this institution and carried to a successful conclusion, almost entirely through the labors of the members of this Chamber, and could we point to no other concrete piece of work done during the past year, we might well consider our efforts not to have been in vain.

Again, it was in this Chamber of Commerce, that the movement to have Beaufort County properly represented with an agricultural display, in keeping with the progress and accomplishments of our farmers, at the State Fair at Raleigh was conceived. Through the untiring energy of Mr. J. F. Latham, County Farm Demonstrator, assisted by the members of this organization, Beaufort county was properly represented at this occasion, and with its first display, captured the fourth

Fierce Battles Being Fought On All Fronts

Allies Are Slowly Squeezing the Armies of Central Powers. Death Grapple. Indicates Turning Point of the Great War. Thousands of Prisoners Have Been Taken.

(By United Press)

London, Aug. 9.—A mighty triple offensive, in which several million men and thousands of guns are engaged, is slowly squeezing the armies of the Central Empires along every front.

Fighting stubbornly and, in many instances, with rare bravery, the Austrians, Germans and Turks are giving ground in every theatre of war, save the Balkans, where recent skirmishes herald the beginning of a great allied offensive.

The Slavs have advanced thirty miles from Nedworna to Nismol. Nedworna is a railway center of ten thousand persons, has been captured. The Russian center is within a few hours of Stanislaw, a most important point. The capture of which will materially increase the danger of General Von Bothmer's army.

The most striking victory by the Italians since the war began, partly opens the way to Trieste, their great objective in the Isonzo campaign. Resistance is being given by the Austrians at Corits, but they will be forced to strip their lines as much as possible in order to meet the Russian menace in Galicia.

In the west, another slice of the German second lines have been won.

ZEPPELINS RAID COAST: KILLED 4

London, Aug. 9.—Zeppelins raided the coast of England and Scotland, according to an official statement today. Three women and one child were killed. Fourteen persons were injured. The air craft were dispersed by the coast guard.

Prices on Tobacco Promise to Be High

V. B. Shelburne Writes Interesting Article Regarding
General Crop Conditions and Prospects

The markets in South Carolina all opened last week, with prices ranging from \$4.00 to \$50.00. The general run in prices of tobacco is from double to three times what it was on the opening week of last year. Therefore with a short crop there and also in North Carolina, prices should be very satisfactory here.

I wish to impress upon the people not to sell their crop in the barn to "pin-hookers" and speculators. In a recent letter from South Carolina I am informed that all the "pin-hookers" have left there and are coming to our section to buy what they can before the market opens. Don't sell to them, but bring your tobacco to market where you have the advantage of the bidding of every company buying tobacco that is in the business, and make the money yourself that the "pin-hookers" would make.

Our market opens in Washington on the 16th, and if anyone has a load ready and will bring it he will get good high prices for it. But at the same time, I want to advise the people who have fine first pollings, as some have, not to hurry them to market but to wait for the prices to

ITALIANS WINNING A GREAT VICTORY

ATTACK ON CITY OF CORITS IS
SUCCESSFUL. MAY BE THE
TURNING POINT OF
THE WAR.

GREAT ENTHUSIASM

Italians Crossing Bridge to Attack
City. With Helmets Bedecked with
Flowers. 15,000 Austrians Captured During Last Two Days.

(By United Press)

Rome, Aug. 9.—Two million men are battling along the Isonzo front in a great struggle around Corits in what may prove to be the turning point of the war on the southern frontier.

The Italians have captured the Corits bridge and are pouring across it, machine guns, to assault the town. Their helmets are bedecked with flowers. It is believed that the capture of the city will be complete within a few hours, if it has not already taken place.

Fifteen thousand Austrians were captured during the first two days of the present offensive. Tremendous enthusiasm is felt all over Italy over the successful attacks of the Italian troops. The terrific bombardment of the Austrian line is augmented by Italian warships.

It is believed that a decisive victory is imminent that will send the Austrians marching on to Trieste.

SOCIALISTS ARE IN CONVENTION TODAY

Convention Being Held at Court
House. Will Nominate County and
Legislative Tickets.

The Socialists of the county are holding their county convention at the court house today for the purpose of nominating a county and legislative ticket. The party has increased considerably in strength during the last year or two and the convention today is well attended. R. H. Lane is county chairman.

SAVS BAKER.

We are now highly equipped for doing out of door work, such as making pictures of stock farms, etc., having recently bought us a new lens for all angles of work. We also have a new panorama kodak which makes a picture 5x12 inches, taking in a whole farm at one sweep. Prices low and reasonable. We are at your service. Our phone number is 253. BAKER'S STUDIO.

dren told that we may live in luxury, and yet we wonder at the spread of socialism and the increasing hostility of labor towards capital."
