To the Citizens of Beaufort County:

Our Company has loaned in your county this year about Fifty Thousand Dollars (\$50,000.00), a large per cent of which was loaned to farmers to improve their farms, and the rate of interest charged was six (6) per cent, payable semi-annually, without bonus of any kind.

We loan our money in sections from which we receive premiums and should you take out an insurance policy with us, you can feel assured that your money is not being sent away to be loaned to some northern or western farmer, but will be loaned here in BEAUFORT COUNTY, where it will help you, either directly or indirectly.

Our ECONOMIC policy, (our leader), is undoubtedly the greatest insurance value being offered by any insurance company today. The undersigned will be glad to call and explain it.

Very respectfully,

Geo. Hackney, Jr., District Agent

Todacco Land Number C13 Near Washington, N. C.

ACREAGE—355 acres by actual survey, of which about 340 acres is good high pine timber land, a dark loam soil, with clay subsoil, and very fine tobacco land. About 15 acres swamp soil in branch. About 100 acres of tract lying next to the public road, is all open land, practically free of growth, and stumps, which can be cleared and put in cultivation, and ditched and drained, for \$15 an acre.

LOCATION—Lying in Chocowinity Township, Beaufort County, N. C., 7½ miles from Washington, N. C., and 4½ miles from Chocowinity, N. C. Within two hundred yards of the main line of the Norfolk Southern Railroad, from New Bern to Washington, and one mile from Hackney Station, on said road. Located in the bright tobacco belt of Beaufort County, and in section undergoing considerable improvement and developments now, and in neighborhood of highly improved farms selling from \$100 to \$150 per acre, and adjoining woodland tracts of same soil type with little timber values selling from \$15 to \$20 per acre. This land is the equal to any tobacco land in this section, and will produce 1000 pounds of tobacco, and lands nearby of the same type of soil, have averaged \$300 per acre for tobacco this year.

DRAINAGE—This land is 1-4 mile from Creeping Swamp, and Wilson's Branch runs through the land on one end, about one mile on land, giving it about six feet fall to Creeping Swamp, with a good natural drainway. Land can be easily drained with hand ditches, with several feet fall to Wilson's Branch, and six feet fall to Creeping Swamp.

SURROUNDINGS—Within one mile and one-half of good church and schoolhouse, and two miles from highly developed farms. Is in the section of the highest lands between Pamlico River and Neuse River.

TIMBER VALUES—This land will now cut on conservative timber estimate, which we will send upon request, about 800,000 feet of merchantable mill size pine timber with a very fine young growth of pine timber on part of the tract. This timber is on about 250 acres of the tract, on the back of the land. This timber stumpage is now worth \$3 and adjoining stumpage is now bringing that price. Will bring \$9 delivered at mill in Washington.

Hackney Station lands, same soil type, within one mile, at an auction sale two years ago, averaged, with the same land value as this land, all woodland, and cut over lands, from \$15 to \$30 per acre.

SHAPE—This land lies in the shape of a triangle, with one-half a mile frontage on good public road, Sutton road, across the base of the triangle.

A Genuine Bargain at the Price of \$15. Per Acre, Payable One-Fifth Cash and Balance One-Fifth in One, Two, Three and Four Years, With 6 Per Cent Interest.

We will enter into a bond to repurchase this tract from buyer at any time after two years, with thirty days notice, and repay the entire purchase price paid with 8 per cent on the cash invested. We offer this for that we know this land will sell for \$25 per acre within two years. We have about two hundred acres adjoining it cut over, same soil type, that we can sell for \$15 per acre, on same terms, with good road frontage, of equal value of this land, but with no timber on same, and none cleared.
