JAMES L. MAYO...... PROPRIETO CARL GOERCH.....EDITO

WASHINGTON, NORTH CAROLINA, OCT. 18, 1916.

#### THE FIGHT IS ON.

In yesterday's issue of the Daily News there was carried the first church advertisement that has ever appeared in any paper in North Carolina. The advertisement was forcible in language and showed

Carolina. The advertisement was forcible in language and showed that the religious workers of the city are going to fight the carnival with the principal weapon of the latter,—publicity.

But, unlike most other fights and combats, the "spectators,"—the people, in other words—play the principal part. They are the ones who will decide which is to be the victor: God and His work or the devil and his amusements. When they stay away from the church services, they are doing their part in helping to defeat the cause of Christ in this world. When they attend the carnival they help the Christ in this world. When they attend the carnival they help the devil in his work. It is a matter which each one must decide for himself or herself.

There is no question but that the inclination of the majority of our people is to attend the carnival. That fact may be taken for granted. But, whether they are going to allow their love for a few minutes pleasure to overcome their religious zeal and their sense of duty to our churches, is something which remains to be seen.

It hardly seems possible that our citizens would foresake the churches of God in our own city to pour their money into the coffers of strangers who are here for a few days only and who care nothing about them, except to get their money

With which side are you going to line up?

#### REFUSE TO GIVE FAIR PLAY.

For the last few days the Daily News has been carrying a series of articles under the heading, "Campaign Issues Pertrayed by Prominent These articles are written for the Democratic National Committee by George Creel and for the Republican National Committee by George G. Hill. They are sent out by the United Press and they bring out some interesting arguments and contentions.

In Kinston there is another paper which takes the United Press service and which receives the same articles that are mentioned above. Instead of printing both sides, however, this paper prominently displays the story by Creel and no sign can be found of Hill's piece. It probably went into the wastepaper basket.

This is putting Democracy in the state in a false light. It immediately gives the impression that there is danger of the Republicans winning out in North Carolina. For what other reason could the Republican article have been suppressed? The Kinston paper deliberately shows that it is not publishing a paper that will give the new from both parties to its readers. It gives the intimation that it is afraid to do so. And so the readers of that paper are forced to content themselves with getting only half the news. We fail to see where this benefits either the paper or the party which is given the

### FOR THE RELIEF OF UNFORTUNATES.

President Wilson, through a proclamation, has set aside Saturday, October 21, and Sunday, October 22, as joint days upon which the people of the United States may make such contributions as they feel

disposed for the aid of the stricken Syrian and Armenian people.

The condition of those people today is indescribable. They are crying for bread. They kill and cat the degs that roam about on the street. Up to now all fed themselves with grass, but that too is now dried up. They fight for the clotted blood of killed animals; the gnaw the bones which they find on the dung hills; they look for grain of oats in horse-dung, to eat them; they eat the flesh of fallen animals and men. Many, who cannot bear it any longer, throw themselves and their children into the Euphrates.

The grave diggers are always busy. The general conditions are too horrible to describe. The suffering of the habies and young chil dren is especially horrible.

It is to relieve this condition that the above two days have been set aside by Mr. Wilson. And Beaufort cenuty wants to do her part. We hope that the contributions will be liberal. We also trust that every church will take up a special offering on Sunday for the relief of these suffering people.

### THE TICK'S TAX.

The Bureau of Animal Industry of the United States Departmen of Agriculture says that the cattle tick has been in the South ever since there were cattle for it to feed upon. It has fattened on the blood of Southern cattle that should have gone to the making of beef and milk and in return it has killed with splenetic or tick fever the animals that fed it. It has made our cattle into scrubs and prevent ed the introduction of pure-bred dairy and beef animals, for in a ticky

country no man is willing to risk his money in high-priced stock.

The United States Department of Agriculture has estimated the innual loss to the country from the cattle tick at from \$40,000,000 to \$100,000,000. These figures, however, mean very little for no man can calculate the benefits that will come to the South with the extine tion of this post. The essential point is that in a tick-infeated coun try every cattle owner is taxed by the tick in proportion to the size of his herd. Every animal is levied on; there are no exceptions. It is a mistake to imagine that cattle become immune to the tick. Every year hundreds of thousands of supposedly immune cattle die from splenetic fever for which the tick alone is responsible. And each of those that survives suffers in other ways. The tick feeds on all cattle alike, immune and non-immune. It cuts down the weight and lowers the quality of beef animals and reduces the milk flow of dairy

This tick-tax Was been collected so long that the people have grown accustomed to it. That is a poor reason for continuing to pay it however. Out of 728,543 square miles that were tick infested in 1906 and placed under Federal quarantine on that account, 284,521 -considerably more than one-third-have since been freed from the peat and released from quarantine. What has been done in these areas can be done wherever and whenever the people want it done There is no more reason why a county should suffer from the tick than from smallpox. A little trouble-a slight investment-will dispose of both

## WHY WASHINGTON PARK IS ALMOST DUST FREE

FIRST Summer breezes are mostly from the south-east. At Washington Park such

Second Between river and Riverside Drive and is a parking strip from 60 to 125 feet wide. Clean sand is at the waters edge. The remainder is covered in grass. NO DUST THERE.

Third Our avenues are 90 feet wide, about twice as wide as streets in Washington and not being on main thoroughfares, not pass to grind and stir up busy dust, leaving Washington Park almost DUST PREE. As busy dust keeps one busy dusting, house cleaning in dust free Washington Park is comparative easy.

Then the health. This freeness from dust places the constitution at its best, throwing off, or allowing only slight ailments, which under duty conditions would be serious and prolonged sickness. For the children's sake build in Washing

# A Sermon on Farming

Some farmers are wide awake. They look ahead, plan ahead, get ahead. Others are content to drift along.

Some ''do things'' themselves and profit from the experience of others who have already ''done things." Others don't do, don't profit and never have anything.

Some are willing to look into and try anything that offers asonable promise of greater profits. They accomplish a reasonable promise of greater profits. They accomplish things and in time have money to lend. Others are skeptical, can see nothing good in new inventions or projects, live and die in the old rut, and their children eventually pay off the mortgage.

We believe you are of the class that looks sheed, that seeks the shorter path to success. If you are of that class we have many and various kinds of implements and machinery by which you can travel the shorter and surer pathway to financial

Seeing is better than reading. Therefore we ask you to come in and see these implements and this machinery. Assured success is ahead for those who see, and buy, and use.

# The Town Gossip

THE HUB

Suskin & Berry

THIS MORNING the police. PUT OUT several posts. AT THE street corners. AND THE automobiles AND WAGONS are supposed. TO DRIVE around them, AND KEEP to the right. AND THE posts
ARE RED and white.
AND A red flag. AND A red flag.
WAVES FROM the top.
AND I stood.
AT ONE of the corners.
FOR ABOUT half an hour.
THIS MORNING.
AND EVERY driver.
WOULD allow us at the corn. WOULD slow up at the corner.
AND LOOK at the post.
AND READ the sign. AND I kept on waiting AND NOBODY ran into the post AND I was disappointed. AND THEN. I HAPPENED to think.
OF ONE automobile driver.
IN THE city.
WHO HAS a reputation. FOR DRIVING.
ON THE sidewalks. OR ANY other old place.
AND WHEN other autolata SEE HIM co THEY USUALLY stop. THEIR CARS.
AND GET out behind a tree.

TO DRIVE up before very long.
AND PERHAPS.
PLL HEAR the police.
USE SOME words. THAT I haven't heard yet. I THANK you.

# TO THE BUYING PUBLIC

WE TAKE great pleasure in extending to you and your friends an invitation to attend our "PURE FOOD AND HONEST WEIGHT DEMONSTRATION" to be held at the store of ROE-BUCK & JACKSON on THURSDAY, OCTOBER 19th, 2 to 9

THIS WILL be your opportunity to inspect one of the most complete, sanitary and up-to-date greenies in town, and to be convinced that we are strong advocates of Pure Food and sixteen ounces to the pound. There will be demonstrators from the leading pure food manufacturers from whom we purchase our goods.

THERE WILL be plenty of "goodies" to sample. There will be souvenirs for the ladies and children and with all there will be music. Remember, positively there will be no goods sold on this evening. Our object is merely to get our customers to visit our store and demonstrate beyond the question of a doubt that Puro Food, Honest Weight and Sanitation reign supreme in our cetablishment.

DON'T FORGET the time and date.
