

## You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

You can't make a mistake in taking

# CARDUI

## The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything. Begin taking Cardui today. Sold by all dealers."

Has Helped Thousands.

## WARNS THAT U. S. WILL SUFFER AT END OF WAR

NEW YORK.—Elbert H. Gary, chairman of the United States Steel Corporation's directors, yesterday said he believed that peace will have an adverse if not disastrous effect upon industry and labor in the United States, unless our tariff laws are changed. He declared:

"My views are the same today as those I expressed before the American Iron and Steel Institute. Whenever the war shall close, the business of this country will be confronted with new conditions.

"The purchasing power of the whole world will have been very greatly reduced. Foreign countries which are now buying our products, because compelled, will withdraw their patronage in a large measure.

"Other non-producing countries will find their financial resources and credits lessened. More than this, foreign producers in great need will strive more diligently than ever to supply the countries that are financially able to pay and at prices based on cheap labor and low cost, as they have a perfect right to do.

"Our producers, including our wage earners, will find themselves in commercial antagonism with the

most persistent and efficient competition ever experienced, unless this shall be prevented by laws that are reasonable and sufficient. Most of the foreign producing countries, and quite likely all of them, will be thoroughly protected by tariff provisions, and we should be on a par with them in this respect.

"I firmly believe, if the present protective tariff laws remain unchanged, we shall probably meet with competition from foreign sources after the war closes which will adversely and perhaps disastrously affect American industry and American labor.

"Conditions will be even worse than they were before October 1, 1913, and the beginning of the war. If the laws shall be amended and adequate protection to American producers and their workmen is afforded, we may expect satisfactory business conditions for some time to come."

## HERE'S A NEW ONE TRY IT ON WIFEY

(By United Press)

ST. PAUL.—When husband and wife meet in that thrilling 5 a. m. salutation at the top of the stairs, Hubby may now truthfully state he never had a drop, no matter how badly quailed he may be. If friend wife is a student of dentistry, he may get by with his yawn. Dr. H. D. Strick, member of the St. Paul University dental school said today: "Defective teeth, improperly cared for, may develop alcohol in the system, which may cause their owners to reel and talk foolishly, he said."

PAY LIGHT BILL NOW.

Friday is the last day to pay your light bill. No discount after the 15th. A charge of 50 cents will be made for reconnection. Pay now before you forget it. 12-17-16-1p.

## GOVERNORS HOLD ANNUAL CONFERENCE

(By United Press)  
WASHINGTON.—Forty governors, aided by several governors-elect and by as many more former chief state executives, rolled up their sleeves today at the opening of the annual conference of governors, to take up some of the heaviest problems the conference has ever wrestled with. They will be in session three days.

It is believed a storm of discussion will center around the question of increasing the powers of the Interstate Commerce Commission to fix intrastate railway rates. From opinion gathered before assembly most of the governors will oppose any curtailment of state control over state rates.

Western governors are expected to lead in an attack against Federal supervision or control of lands and natural resources within state borders. Chief of the social events is a reception by the President and Mrs. Wilson at the White House tomorrow.

## GUARDSMAN ARE USING MILLIONS CIGARETTES

EL PASO.—Lucy Page Gaston, the famous anti-cigarette crusader, takes notice! Next after rations and shelter it appears from statistics compiled here that cigarettes are a necessity to the smooth operation of the modern war machine.

During the past month more than six million cigarettes were smoked by the 43,000 guardsmen and regulars in this district. The average consumption is slightly more than four and one-half "pills" a day for each soldier. And the one-half doesn't mean "butts" either.

In addition to this the soldiers burned tens of thousands of packages of sack tobacco, cigars and masticated about a ton of "chawin' tobacco."

Due to the inconvenience of carrying a pipe while in service uniform, soldiers who in civilian life were devotees of the pipe are fast turning to the convenient cigarette.

## COSTS FORTY CENTS A DAY TO FEED FRENCH SOLDIERS

(By United Press)  
PARIS.—(By Mail)—This is what the French government has given to each of its soldiers, to eat and drink during the first two years of the war: Bread, 1008 pounds, the making of which required 994 pounds of wheat or namely the production from 25 acres. Potatoes, 260 pounds. Coffee, 58 pounds. Butter, lard, etc., 44 pounds. Wine, 100 gallons. Tobacco, 22 pounds. Salt, 36 pounds. Vegetables, 72 pounds. Sugar, 86 pounds. Cheese, 4 pounds. Macaroni and spaghetti, 14 pounds.

This has cost the French government an average of 40 cents a day per man for the men at the front not including an allowance of 5 cents a day that is made to each soldier to buy little "extra" for his meal.

For clothing the army the French government has used up to date in the manufacture of all the various garments necessary about 80,000,000 yards of cloth. Each soldier has also four pairs of shoes, the greater portion of the leather for which came from the United States, the great bulk of the manufacture however was in France.

## IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, stinging sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse again, where is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then set normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid fermentation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effective, lithia-water drink, which quickly relieves bladder trouble.

## To Gas Consumers

In view of the fact that there has been much uncertainty as to the supply of gas for Washington consumers many persons have discontinued their gas ranges and heaters. This action is unnecessary. The patrons of the Gas Co. may rest assured that there will be no further interruption in the supply of gas. I know the service has been poor under the former management but from this time on there should be no occasion for anyone to discontinue their ranges or gas heaters.

Washington needs the Gas Company and the Gas Company needs all of the patrons it can secure; therefore our interests are mutual and I hope to have the co-operation of the citizens of Washington to the end that our service will not only continue but be improved.
