AEROPLANE FLIES ON WITH PILOT DEAD

BERLIN.—Reports with dramatic incidents and interesting features are the reports just published of the late Captain Boelke, the famous German aviator, who brought down forty hostile airplanes during his service with the army, which ended with his death on October 29. As summarized by the Overseas News Agency, these reports from the field include the following:

Shortly after the opening of the war, on October 27, 1914, Boelke reported that on a reconnoitering trip over Rheims he had observed nine batteries, one of which was in close proximity to the Cathedral. On July 6, 1916, Boelke reported:

"The superiority of the German machines is becoming more apparent. Today I had the impression that an enemy was no longer offering resistance, but that he had nearly given up hope of escape. Shortly before the downfall of the hostile machine, the observer made a typical movement with his hand as if to say, 'Why let us go on; we are done for, and surrender.'"

The reports show that in the majority of the air engagements the distance between the combatants was about 100 metres, but often was only from thirty to forty metres. On November 2, 1916, Boelke approached a French aviator as close as three metres. His report said:

"He fled, but it didn't help him, for I was much quicker. I fired five hundred shots, keeping up the fire until he began to fall. I had approached up to within three metres and still he hadn't begun to come down.

"At the moment when a collision seemed inevitable turned my machine rapidly on its left side. The enemy turned his upside down on the right hand. I did not see him any more."

Many times hostile machines made seemingly incredible efforts to escape the much-feared German aviator, the hostile airman apparently desiring at least to save his own life.

March 4, 1916, Boelke reported: "Again I approached the enemy who had already been violently fired on. Then I saw something most peculiar. The observer had climbed on the left wing of the machine and was clinging to the supports.

"He looked at me as if quite terrified and waved his hand. I had shot away a piece of the beam and the machine had pitched downward, in order again to get it in balance the observer had coasted himself on the wing."

Boelke reported a gruesome incident on one of the last of his raids, on October 5, as follows:

"I wondered at the stubbornness of the enemy, considering that he must have been finished a long time ago, but he continued to circle in the same fashion. Reason told me the man must be dead and that the machine was being maintained in its light position only by the rubber bands at the helm.

"Therefore I approached closely and saw the occupant of the machine leaning toward the right side, dead. The airplane bore the number 7,425. The horrible picture left me unshaken. I let the man alone and attacked the next one."

After having defeated an adversary Boelke made several "rounds of honor" over the place where his enemy had fallen, as a mark of courtesy to a brave fallen foe. Boelke himself decorated the place where the enemy aviator had been buried with military honors with a bunch of red, white and blue flowers.

One of Boelke's most remarkable qualities was his respect for an enemy. He repeatedly used phrases like the following:

"A British aviator really flew home at a height of one hundred metres above our trenches. He was a smart chap. That is not likely to be done by another."

NOTICE OF SALE.

By virtue of the power of sale contained in a mortgage from Augustus Davis and wife, dated January 18, 1913, and recorded in the Register's office of Beaufort County in Book 174, page 30, which is hereby referred to, the mortgage will sell at public auction for cash to the highest bidder at the court house door of Beaufort County, on Monday, January 8, 1917, at noon, that tract of land in Pantego Township, Beaufort County, described as follows:

Beginning at Thaddeus Smith's southwest corner on the public road from Pantego to Wilkinson, running with said road North 50 West 145 feet; thence North 53 East 1643 feet to the drainage canal; thence with said canal Eastwardly to Thaddeus

THIS FOOTBALL TEAM HASN'T LOST A GAME IN OVER NINE YEARS

By H. C. HAMILTON.

(United Press Staff Correspondent.)
NEW YORK.—While the University of Pittsburg, Colgate, Brown, the Army and several other football teams are having hot discussions in the east regarding who's who in the football world, way out west in the state of Washington, there's a football team which is discreetly keeping still and resting meanwhile on the glorious record of not having lost a football game in the last nine years. While the football laurels are being passed around it certainly would be the proper thing to hand a leaf or two to Coach Gilmour, Doble and his University of Washington eleven.

The record at Washington all goes to Doble's credit. There isn't a solitary western football fan who wants to take an iota of credit from Doble and there isn't a one who believes the team and not Doble is responsible for the record.

Washington has not stacked up against the heavy, well coached eleven of the east, but Doble's men have defeated the best on the Pacific coast and in the mountain states every year, some of them twice in a season. That is worth something, when it is considered that the Oregon Aggies were generally accepted as one of the country's strongest teams a couple of years ago.

Doble has coached football twelve years without a defeat. His teams have scored 1,462 points against 111 scored by opponents. Since 1908, when Doble went to the University of Washington his teams have rolled up 1,245 points against 100 by their adversaries. Washington has played forty-four regularly scheduled games in that period, winning forty-two and playing scoreless ties with Oregon Agricultural college and with Oregon university.

Doble's record stands as the most imposing in American football records. It would do the eastern eleven credit to do homage to such a football team while they rest from their own squabbles.

Smith's Northwest corner on said canal; thence with his line South 57 West 1617 feet to the beginning; containing 5 3-15 acres, more or less. This December 5, 1916.
