## Agriculturally Speaking--

Production of millions of pounds of tobaccos and cotton annually in the Carolinas is general knowledge. It is not general knowledge that these states produce millions and millions of dollars worth of other food, fruit and truck crops - all with a high, health-giving Iodine content, particularly the South Carolina vegetables. To mention only a few major crops . . . Peaches . . . Peanuts . . . Potatoes . . . Rye . . . Corn . . . Wheat . . . Melons . . . Strawberries . . . Blackberries ... Dewberries ... Canteloupes ... Cabbage ... Cucumbers ... Tomatoes Sweet Peppers . . . Hot Peppers . . . Celery . . . Lettuce . . . Onions ... Apples . . . Squash . . . Beans . . . Broccoli . . . Grapes . . .

Carolina Climate is peculiarly adaptable for practically all types of agricultural endeavor, whether on large or small scale.
