C. E. McINTOSH  
N. C. P. W. A. Director of Education and National Youth Administration.

Raleigh, Sept. 9.—State Works Progress Administration Administrator, George W. Coan, Jr., has appointed Mr. C. E. McIntosh of Chapel Hill, state director of education. Mr. McIntosh also directs the National Youth Administration for North Carolina.

Mr. McIntosh is well known to North Carolinians as an educator and as a former assistant dean at State University. He has devoted many years to the study of the problems of youth, particularly those dealing with education. He is well equipped in every way for this new work which is such a vital and important part of the Works Progress Administration program for North Carolina.

Last week upon his return from Washington, he called a meeting of University and College authorities in Greensboro. He told this meeting of his recent conference in Washington with the National Youth Administration leaders and of the stress President Roosevelt laid on the importance of youth training. Plans and purposes were explained in detail so that every one present might cooperate in offering the youth of this state the full benefits and opportunities of the program. He expressed the hope that the youth of North

Carolina would take full advantage of every opportunity offered. All North Carolina educational institutions of college level operated on a non-profit basis may select 12 per cent of their 1934 enrollment to share in Federal aid offered. No applicant will receive aid who is financially able to secure his or her education without help. Only those who would otherwise be unable to attend, will be helped. The amount of aid that may be secured is adjusted to the individual case. It is expected that the average monthly allowance slightly in excess of \$12 to \$15. A maximum monthly allowance slightly in excess of this amount is available in very extreme and deserving cases. The aid given students is not a loan but a direct grant, and is made in return for specific duties to be outlined by the college authorities and performed by the student seeking aid. Mr. McIntosh called especial attention to the fact that all students seeking aid should apply direct to

the institution they elect to enter and not to his office. Only those students with good records and qualifications will receive help, and they will be expected to maintain the high standard set heretofore by students receiving federal aid.

High school boys and girls are also offered assistance by this administration. Children between sixteen and twenty-five years of age whose parents were on the May 1935 relief rolls are eligible for aid. Seven per cent of those enrolled who show promise and a desire to continue their education may receive federal aid up to an amount not to exceed \$6 per month. It was pointed out that the school superintendent was the person to whom application for aid should be made.

Mr. McIntosh also states that the Works Progress Administration hopes to employ 12 to 15 hundred teachers from relief rolls this winter. He explained that they would be paid the security wage, and would be used largely

in teaching adults. In writing, arithmetic and other adult classes. The importance of all quaining themselves with the youth of North Carolina to receive full benefits of this program they must have formation and direction as proceed in their efforts to aid. Mr. McIntosh pledged self and his staff in assisting youth of North Carolina to cure this federal aid in ing and completing their
