## Farm Conference For High Point

**State-Wide Farmer's Con-  
 ference And Seed Meet-  
 ing Will Be Held In High  
 Point February 12-13**

The program of the state-wide farmers conference and seed expo- sition to be held in High Point, February 12 and 13, has been planned to be both educational and entertaining.

National authorities will speak on the present agricultural situation, educational exhibits will be displayed, competitive exhibits of various seeds will be held along with seed judging and crop identification contests.

All these things will be interesting as well as informative, said W. H. Darst, professor of agronomy at State College and director in charge of the conference and exposition.

There will also be a special entertainment Wednesday night known as the "Farm Shindig," he pointed out. Prizes will be awarded the best old time fiddler, the best individual entertainer, the best group entertainers, the best family singers, and for the best singing game of four or four or more couples.

Nationally known speakers on Thursday's program included: Dr. C. A. Cobb, director of the AAA cotton division; Dr. C. C. Taylor, assistant chief of the Land Utilization Administration; Dr. Morris L. Cooke, chief of the Rural Electrification Administration; & Dr. H. H. Bennett, chief of the Soil Conservation Service.

Wednesday's program will include addresses by: W. H. Darst; Dr. G. K. Middleton, seed specialist at State College; and L. G. Willis, soil chemist with the N. C. Agricultural Experiment Station.

Special emphasis is being laid on the seed judging and crop identification contests, Darst said, as they are designed to train adult farmers and young people in the development of better crops.

The conference and exposition, to be held in connection with the second annual conference of the North Carolina Crop Improvement Association, will be in the Junior High School building, High Point.
