The following program was given: "The Difference In China" by Nettie Tyndel, Harold Aldridge, Constance Bartel, Miss Elizabeth Arnold, Miss McQueen, Miss Cromartie, Robert Marlowe, Miss Margaret Watts, Evelyn Hickman, Doris Hickman, Letisia Arnold and Gilda Arnold.

One of the most interesting items was the one read by Robert Marlowe about a young Chinese named Jimmy Yen. He graduated over here at Yale University and went home to help his people in many ways. Although he is yet a young man, he has been said of Jimmy Yen, that he has already changed the lives of 5 millions of Chinese people, for it is he who secured the adoption of the unified language.

Songs, stories and a scripture lesson were interspersed with these features of interest and the little boys sang, "Jesus Loves Me, as I Know." Prayer was offered for the Chinese, that they might be brought into the kingdom of God.

KEEPS THE EXTRA FOODS THAT RURAL FAMILIES NEED

SUPERFEX OPERATES ON KEROSENE

WHEN you live far away from the markets you must buy a lot of supplies at one time. You need a refrigerator that holds plenty of food and keeps it plenty cold. Superfex is famous for doing that. Furthermore, you can have Superfex no matter where you live. It requires no electricity. It operates on economical kerosene, and very little of that.

Just light the burners

All you have to do is light the burners. The rest is automatic. About two hours after they have been lighted, the burners go out, but Superfex keeps right on working. You get twenty-four hours or more of refrigeration from one lighting. This means that for twenty-two hours out of twenty-four the burners are neither burning fuel nor throwing out heat.

Free home demonstration — easy terms

We want you to see the new beauty and convenience of the 1936 models, and how they operate in your own home. Telephone or write for a free home demonstration today. If you are interested in easy terms, we'll be glad to show you our plan.
