AAA Application Forms Received

Forms Upon Which North Carolina Farmers Cooperating In Soil Improvement Program May Apply For Payment Received

Forms on which North Carolina 19 farmers will apply for payments 193 under the soil-improvement program have been distributed to 193 gram have been distributed agents over the State, 193 county agents over the State Colsaid J. F. Criswell, of State Col-

Some agents have already started preparing the forms for signature; others will start as soon as all the necessary data are available, he pointed out.

When the forms are ready, the 193 agents will notify the growers. 193 It will be several weeks or more 193 before all the forms are prepar- 193 ed, Criswell added in urging all 193 farmers to wait until the go to 193 ceive notice before they go to 193 193 193 farmers to wait until they re- 193

He also pointed out that on 193 each form will be required the 19 signature of every tenant who 19 will share in the payments to be 19 made.

Data to be placed on the application blanks will be assembl- 193 ed from information gathered in the recent check made on growers' compliance with provisions of the program.

Since the checking of compliance has been practically com-pleted in every county, Criswell stated, growers sowing winter 19 legumes during October, or after their farms have been checked, 19 should notify their county agents 15 so they will receive credit for 19 these seedings.

After the applications have been signed, the payments will 19 be distributed as rapidly as pos- 198

In the East Central Region, which includes North Carolina, is the initial payments will be on a basis of 90 per cent to avoid the possibility of a deficit in the AAA treasury.

Later, if it is found that sufficient funds are available, pay- 19 ments to all growers will be increased accordingly, Criswell stated.

Two fields of corn and one of cotton were inspected in Anson county last week by A. D. Stuart, seed specialist of the North Carolina Crop Improvement Association.
