

### Club Boy Given Year In College

#### Davidson County Lad Given Year Scholarship To N. C. State For Unusual Record With Guernsey Calves

Carney Davis is a Davidson County 4-H club boy who has learned a lot about raising calves, but he says he wants to learn more. His unusual record with Guernsey calves during the past seven years has just won for him a one year's scholarship to State College, said L. R. Harrill, 4-H club leader at the college. The scholarship was offered by the North Carolina Cottonseed Crushers Association to the 4-H club member in this State making the best record over a period of one or more years. Davis started calf club work in 1930 when he was 11 years old. He kept a careful record on his first calf, Terrace Farm's Snow, and got in the habit of keeping records on all his later calves. In 1932 he started a record on Reigel's Choice of Mignonette, who produced 9,175.8 pounds of milk and 480.7 pounds of butterfat the following year. This qualified her for advanced registry with the American Guern-

### "Champagne Waltz" And "Stolen Holiday" Coming To Carolina

"Champagne Waltz," a brilliant comedy with music, co-starring Fred MacMurray and Gladys Swarthout, comes Thursday to the Carolina.

"Champagne Waltz," is built around the gaiety and charm of Vienna. MacMurray, an American "swing" band leader, captivates the city with the new type music, playing havoc with the famous old Waltz Palace of the Strausses. He meets and falls in love with Miss Swarthout, who is the granddaughter of the musical director of the palace, but does not dare reveal his true identity. His success forces the Waltz Palace out of business and when Miss Swarthout finds out who he really is and what he has done she breaks with him. Remorseful, MacMurray returns to America.

Miss Swarthout and her grandfather come to America where they open a Waltz Palace along modern lines which becomes a sensational success. But the girl is not happy. She still loves MacMurray. One day she meets him. What follows brings a happy ending.

**NEXT WEEK**  
In the role of a French mannequin who rises to the heights of fashion dictator for the world, Kay Francis, beautiful brunette dramatic actress, is starred in "Stolen Holiday," is feature attraction at the Carolina Theatre, beginning Tuesday. The story was literally "made to order" for Miss Francis. The original story by Warren Duff and Virginia Kellogg, was tailored for Kay and no one else, and so the screen play by Casey Robinson.

State College. The best method to sow these varieties is to drill the seed in on top of small grain, he said, with the seed not being drilled in too deep.

Around 150 to 200 pounds of 16 per cent superphosphate to the acre should be drilled in with the seed. When drilling, 20 to 25 pounds of seed is adequate for an acre, but if the seed is broadcast, 40 to 50 pounds will be needed to produce a good stand, Blair added.

When lespedeza is sown broadcast, the ground should be harrowed lightly either just before or just after the seed is sown. Blair explained that when lespedeza is sown on land from which soil-depleting crops such as small grain are harvested this year, the acreage will be counted 50 per cent soil-conserving. But when lespedeza is grown on land where no soil-depleting crops are harvested, each acre of lespedeza will count as a full acre of soil-conserving crops in determining a grower's allowance.

Soph (earnestly): "Now, honestly, what would you do if you were in my shoes?"  
Senior (disdainfully): "Get a shine."

### LITTLE BITS OF BIG NEWS

(Continued from page one)

**Examination**  
The body of Police Chief V. R. McGill, of Lumberton, who was found shot to death in a back storage room of the Lumberton police station on November 18, was disinterred Monday for a post mortem examination that lasted for five hours. The bullet from a pistol with which the officer was shot in the forehead was removed. X-ray pictures of the wound were made and an autopsy was performed on the head.

**Four Killed**  
Three men and a woman believed to be from Akron, Ohio, and Miami, Fla., died in an airplane crash 13 miles north of Louisburg, Sunday.

**Elihu Root**  
Elihu Root, a last, eminent link to the American statesmanship of a time that is gone, died early Sunday just eight days before the 92nd anniversary of his birth. For two weeks the frail and venerable old man—a man who had walked with the rulers of the earth and had been a national leader as far back as the twilight era of William McKinley—had lain ill of a cold which developed into fatal bron-

chial pneumonia. Private funeral services were held Tuesday morning in the chapel of Hamilton College at Clinton, N. Y., Mr. Root's alma mater.

### Court Change

A history-making proposal by President Roosevelt to inject "new blood" into a supreme court hostile to many new deal acts, by raising the tribunal's membership to 15 if necessary, went to a surprised congress Friday. It produced a sensation almost beyond comparison. Congress split into warring camps, with many new dealers rejoicing and their foes crying "dictator!" The president's plan, regarded generally in congress as his long-awaited answer to the invalidation of new deal efforts to regulate industry and farming, proposed a revamping of the entire federal judicial system, including lower courts.

### Murdered

Dr. J. C. B. Davis, 65, prominent Willow Springs, Mo., country doctor, was kidnapped a week ago for \$5,000 ransom, and his bullet-pierced body was found in an Ozark thicket by officers on February 3. Robert Kenyon, 23-year-old farmer, is charged with the crime.

### Local Coast Guards Return Home From Flood Region

(Continued from page 1)  
boat from the Cape Fear station was lost when she ran on top of a fire hydrant and had a hole punched in the bottom.

The men declared that none of the stories of suffering were exaggerated. There was plenty of food available at all times, they said, but drinking water was at a premium. One of the coast guardsmen declared that he didn't drink a quart of water in a week while in the flooded area. All of the local men were weary and suffering from exposure. Yete Midyette, one of the Oak Island coast guards to make the trip, was carried to the Brunswick County Hospital Tuesday morning suffering from a severe cold.

In addition to Captain Barnett and Midyette, others from the Oak Island station making the trip were Ted Willis and Arthur Huntley. From the Cape Fear station Dan Sadler, William E. Willis and Colon H. Wilson made the trip.

### VETERAN WOMAN'S WORKER RESIGNS AS STATE OFFICIAL

(Continued from page 1)  
work," she said, "but if he is wise, I believe he will not let his work increase in its exactness as he increases in years." She also said that she wishes to write the story of the development of home demonstration work from the small handful of girls who were members of the first tomato club in 1911 to a State-wide institution reaching more than 55,000 rural girls and women.

For the past six or eight months, Dr. McKimmon has been editing "the very interesting things farm women write of their experiences in the country," and she said she would like to continue this work "in a more definite and organized way."

In his reply, Dean Schaub paid high tribute to her "personality, enthusiasm, faith, and sound guidance" which he said have meant more to the rural life of North Carolina than can be measured by ordinary standards. "As a result of your efforts, North Carolina is a better place in which to live," he told Dr. McKimmon.

After expressing his regret over her resignation as State agent, the dean said, "We rejoice that we shall not lose you entirely. We expect your counsel and advice on many matters from time to time." At present, Dr. McKimmon plans to spend a two-months vacation in Winter Haven, Fla., after which she will return to the college.

She is the only one of the five original home agents left in the service in the United States. In this State she built up the home

demonstration division into a corps of trained specialists together with 76 county home agents and 12 Negro home agents. Dr. McKimmon has been given national recognition for the efficiency and effectiveness of some demonstration work in North Carolina. Just a few weeks ago she was awarded the distinguished service ruby by Epsilon Eta Phi, National extension fraternity. This is considered the highest professional honor that can be conferred upon an extension worker.

She is a graduate of Peace Junior College and of State College, with a Master's degree from State and an honorary Doctor's degree from the University of North Carolina at Chapel Hill.

Miss Current, new State agent, is a native of Rowan county and a graduate of Harrisonburg Teachers College, Harrisonburg, Virginia.

She became home agent of Iredell county in 1927 and was advanced to district agent of the northwestern North Carolina district in 1930. For the past five years she has also served as director of the annual farm women's short course at State College, as well as acting as 4-H girls' club specialist.

### To Conduct Survey Of Local Yacht Basin Site

(Continued from page one)  
all funds asked for waterway improvement. Since the local basin comes under the head of the inland waterway improvement, and since the War Department, the Department of Commerce and U. S. Army Engineers are all so deeply interested, it is felt that funds for the basin from the government and its construction is assured.

The basin would be large enough to provide a storm haven for the 200 or more shrimp trawlers that work here during part of the year and at the same time it will accommodate all transient waterway craft and permit the basing at Southport of the yachts of a large number of North Carolina and upper South Carolina sportsmen. In brief, when the basin is completed Southport will rank with Norfolk and Charleston as the home port and stopping point of hundreds of north and south-bound yachts.

### Renewed Interest Shown In Scout Work Locally

(Continued from page 1)  
left without one. This week it was learned that Principal C. A. Ledford has had considerable experience in Scout work, having served as scoutmaster of three troops, and as district Scout committeeman. He has agreed to take charge of a local troop provided enough boys express a desire for an organization. Monday night Elliott Moore, Victor Bartells, Jimmie Hood, Hilda and Realto Sorensen accompanied Mr. Ledford to Wilmington to attend a Scout Court of Honor.

### G. W. KIRBY DIES MONDAY MORNING

(Continued from page One)  
Holden, Dr. R. Holden, Carl Piggett and Charlie Trot, Honorary pallbearers were: J. W. Brooks, R. W. Davis, R. Galloway, J. E. Dodson, Joe Lennon, J. B. Vought and T. S. Memory.

### MINOR CASES IN COURT WEDNESDAY

(Continued from page 1)  
Bedford Stanland, white, pleaded guilty of operating a motor vehicle with improper license plates. Judgment was suspended upon payment of the costs. Snooks Clemmons, colored, was found guilty of passing a school bus while the latter was stopped. He was allowed to go free upon the payment of the costs in the case.

### GOOD PROGRESS AT FT. CASWELL

(Continued from page one)  
available for a large number of people, according to H. H. Thomas, who has the reconditioning work in charge. The old dock with iron rust proof pilings on the river side of the property is being rebuilt and about half the work is already completed. This dock will be used as a fishing pier and will be quite an attraction as fishing is credited with always having been good from it.

The property will have its own waterworks and power plant. A large diesel engine has already been shipped to furnish power. Practically all of the buildings will have steam heat.

While complete plans have never been announced, it is regarded as certain that Fort Caswell is well on its way towards becoming a great summer and winter resort. The many fine buildings already there, the fine climate and admirable geographical location are assuring that it will some day be one of the show places of the Atlantic Coast.

### CIVIC CLUB WILL MEET ON MONDAY

(Continued from page 1)  
club and worked up. "If you have ideas that you deem worthwhile regarding any sort of a public undertaking," says Mr. Keziah, "pass them on to the club secretary at any time, either personally or by letter. If your ideas are not fully formed you are urged to attend the meeting Monday night and outline anything that you think would be helpful. It may be that you have a suggestion that can be worked out to result in something of great value to Southport

or some section of Brunswick county.

"It is fairly well understood that Southport and Brunswick county will never get anything of real value by creating a 'sit-down' strike to wait for it to come along. The club thinks that if we are to get anything we will have to work for it and the club is prepared to work with its own members and with the general public."

### MAN SERIOUSLY BURNED SUNDAY

(Continued from page 1)  
ported that Clemmons was trying to arouse his companion, and being unable to do so decided to burn him into action.

The gasoline splashed over the greater part of Sellers' clothing, which was burned completely off before Robinson came from his home with a kettle of water and put out the flames. He and John Stone took the burned man into Robinson's house, discovered the seriousness of his condition and hurried with him to the Brunswick County Hospital.

A blood transfusion was given Monday in an effort to strengthen the injured man, but his condition Tuesday night was extremely serious.

### BOLIVIA GIRLS SUFFER DEFEAT

(Continued from page one)  
in the art of handling a basketball. It has not been learned here yet whether or not Bolivia will ask for a return game. In the event one is asked for it is assumed that it will be played at the Southport gym. Thursday night Waccamaw and Leland have the gym booked. Both contests are expected to prove interesting. Inquiries of the various coaches are indicative that every school team in Brunswick is expecting to enter

the Star-News tournament, several having already entered, and with the tide of interest already growing as strong as it was last year.

### HONOR ROLL FOR SOUTHPORT HIGH

(Continued from page one)  
duct included.

Second grade: Evelyn Mason, Margaret McGee, Beasie M. Plaxco and Billy Bowling. Third grade: Aileen Latta, Sally Ann McNeil, and LeRoy Sasser.

### Lespedeza One Valuable Crop

Recognized By Farm Experts As A Legume That Checks Erosion and Adds To Fertility Of Land

Lespedeza is recognized as one of the best crops a farmer can grow to conserve moisture, check erosion and add nitrogen and organic matter to the soil. Lespedeza fields also may be counted in a farmers' soil-conserving acreage, and they will help him earn soil-building payments under the soil-conservation program. February is the best time to sow Common, Tennessee 76, and Kobe lespedeza seed, said E. C. Blair, extension agronomist at
