

N. C. Birth Rate Declines In May Statistics Show

Number Of Deaths In State Also Shows A Steady Drop During Past Three Months

CHILDREN'S DISEASES TOOK INCREASED TOLL

Diseases Of Children Took An Increased Toll Last Month Over May, 1937 Records Reveal

Raleigh, June 20—For the third successive month, North Carolina showed a declining birth rate in May. The total number of children born during that and the two preceding months was 20,083 as compared with 20,515 the corresponding period in 1937, showing a deficiency of 432.

Division of the State Board of Health, of which Dr. R. T. Stimpson is director, reports. The number of infants who died under a year old was 533, as compared with 380 a year ago, an increase of 153 for the month. Maternal deaths numbered 51, an increase of 9 over the previous May, while measles, which was in the State in epidemic form, took a toll of 51, an increase of 45 over last year. The increase in whooping cough deaths was 26, while 157 children under two years of age died from diarrhea and enteritis, an increase of 122.

Dr. Reynolds Comments

Dr. Reynolds further pointed out that preventable diseases in general showed a decrease. For example, there was a decrease of three in the number of deaths reported from diphtheria, the total for the month having been only 1, as compared with 4 last year. Typhoid fever deaths totaled only 2, compared with 6 in May a year ago. Tuberculosis in all forms showed a decline for the month of 11.

The May report revealed a decline of 9 in cancer deaths and

Sow Farrows Litter of 25

Mrs. Albert Marlatt of Medway, Ohio, claims a world's record for her Duroc-Jersey sow with its litter of 25 pigs. Mrs. Marlatt, shown here with the sow and some of the 20 pigs which survived, has found it necessary to resort to bottle feeding for most of the piglets, as the mother can care for only eight.

Unique Plane Fails To Fly As pontoons Give Trouble

Thousands Gather At Lake Waccamaw To Witness Failure Of Unique Plane To "Take Off"

CAUSEY EXPECTS TO FLY AT LATER DATE

Plane Has Slight Crash Up As It Leaves Boat To Which Attached; No One Injured

Thousands of people from a radius of hundreds of miles assembled at Lake Waccamaw Sunday afternoon to watch the initial "take off" of the world's most unique airplane, built by a group of Chadbourn High School students under the direction of Donald Causey, faculty member. They saw the plane but the attempt to fly the frail craft failed when the plane broke loose from the small boat attached to it in lieu of pontoons, and plunged into the waters of the lake.

When the vast throngs first saw the plane, it had pontoons attached to it. But Causey discovered they were unscientifically constructed and entirely inadequate to float the plane for a successful "take off". The pontoons were sawed off and the plane hitched to a light boat. The plane, however, became detached from the boat on the first trial and plunged with Causey into the lake.

He swam to safety and the plane was fished from the water, loaded on a truck and taken back to Chadbourn for repairs.

The setting was perfect at Lake Waccamaw yesterday afternoon for a trial flight of the widely-publicized home-made plane.

A brisk breeze was blowing; the waters were choppy but not

of 52 in pneumonia fatalities. Preventable accidents claimed only 98, as compared with 125 last May, or a decline of 27 for the month. Automobile fatalities reported to the State Board of Health in May numbered 61, as compared with 83 the corresponding 1937 month, a drop of 22.

In this connection, Dr. Reynolds, again commented on the report, referred to the safety campaign being waged throughout the State.

too rough; the weather was fair and a large and enthusiastic audience was on hand. But the pontoons did not think of all this.

Causey plans to remedy the trouble and set another date for a trial flight.

EXTENDED SLEEP

Mary Ellen Beardon, two years old and a curly haired blonde began the 73rd day of uninterrupted sleep in Chicago recently.

The child is a victim of encephalitis, the disease which killed Patricia Maguire, the "sleeping beauty" of suburban Oak Park after a sleep of five years and seven months.

Mary Ellen's malady came after an attack of measles. A fluttering of the eyelids is the only visible sign of consciousness.

CORN IN AUTO

E. W. Summerell of New Bern, N. C. grows corn in automobile. Several weeks ago he placed an ear of corn in the rear seat of his car and left it there for several days. Later, he said, one of the grains from his car sprouted from his cushion.

Summerell said he intended to leave the stalk in place until it grew larger.

See For Yourself

I am asking the voters of Brunswick county not to believe damaging rumors that are being spread with the idea of hurting me in my race for nomination as sheriff. If you have any doubts concerning my record as a law enforcement officer, I invite a fair investigation and I am willing for the facts to speak for themselves. It has been maliciously reported that I have already lined up deputies to work with me in the event of my nomination and election. This is untrue, for I believe the citizens of each community should have the right to say who shall serve them as local deputy sheriff. I have always been fair to the citizens and taxpayers of Brunswick county. Now I am asking that you treat me with the same consideration.
