(Continued from page one)
1, 1937, who have reached the age of 65 years since that time, or has gone to dependents of those who have died since that

date. The value in this program will come later, when monthly payments will be made to those who reach 65 years and have worked enough up to that time.

By combining this one estimated amount with the actual figures in four others, it is found that in these five major divisions, approximately \$45,352.00 has been paid to individuals in Brunswick county.

In the other five divisions, classed as services, by means of prorating, it is estimated that about \$19,325.00 have come to Brunswick county. In these services, the Federal agencies allow so much for the State, and the State matches practically all of these funds. This program has been in operation for more than three years. Brunswick county has almost exactly one-half of one per cent of the State's population (1930 Census). With these figures, an estimate of the amounts of each that have come to Brunswick in the more than three years is as follows:

Maternal and Child Welfare services, \$3,450.00; Services for Crippled children, \$2,900.00; Child Welfare Services, \$2,300.00; Vocational Rehabilitation, \$1,475.00; and Public Health Work, \$9,200.00.

In the past 18 months, through June, the Unemployment Compensation Commission, through its Wilmington Employment office, has distributed 1,616 checks in Brunswick county, totaling \$11,258.78. Its Central Office has records to show that there are 12 employers subject to the act in the county, that they have 354 protected workers, and that these employers have paid into the commission's Unemployment Fund \$9,842.09 in the two years of 1937 and 1938 and the first three months of 1939.

The Wilmington office has handled 387 initial claims for compensation, probably three or four claims for each claimant, and has handled 3,390 continued claims — the claims filed each week after the initial claim—for benefits for individuals living in Brunswick. Also, the office handled 1,812 registrations for work from Brunswick, and out of that number placed 177 in jobs. number placed 177 in jobs.

FOREST WARDEN MAKES REPORT BEFORE BOARD

out, there are numerous private

agencies also contributing to the program. Included are the Orton Protective Ass'n Reigal Paper Co. not to mention the work of the CCC camp which is located in this county, which has resulted in improvements of \$23,758.96 in value.

During the period covered in the report five lookout towers were manned by combination towermen and smoke chasers. Mr. Jones is free in his praise for the towermen and the district wardens who comprised his fire fighting organization, but he also gives much credit to the citizens of the county, and he attributes much of the increased efficiency to the interest and co-operation of the landowners.

short distance above Southport, and were there given every courtesy of the magnificent Sprunt Estate. Churchill Bragaw, the horticulturist, was assisted in entertaining by Charley Matthews, who was recently selected to manage the Bald Head Island estate of Frank Sherrill.

Both the boat trip and the visit to Orton and return were very pleasing to the visitors, none of whom, with the exception of Mike Dunnagan and Editor Park,

had ever been here before. All of them expressed their intention of returning at an early date.

The previous day E. B. Jeffress, of the Greensboro newspapers, drove down to Southport, accompanied by Mrs. Jeffress, their daughter and Mr. Daniel, of the Greensboro News.
