## Bedding Project Is Not Relief

### This Matter Should Be Cleared Up For Benefit Of Public; Work Is Educational And Practical, Say Experts

Unless Brunswick county citizens interested in the mattress project being sponsored by the department of the home agent and the farm agent get in their applications within the next few days, this opportunity will be lost for them, according to word received Monday from Mrs. Marion S. Doshier.

Mrs. Doshier was particularly anxious to have the people know that this is not a relief, or charity project. Primarily, she says, it is an educational project, one that will show many of our citizens a very economical way by which they may completely supply themselves with bed mattresses.

The reason, she says, that the limit of income clauses is written in to govern the sign-up is in order that the mattresses made in Brunswick county may go to those families who need them most. Materials for making the mattresses are to be furnished, but a charge of \$1.50 is being made to cover actual expenses of manufacturing the bedding.

June 25 has been set as the deadline for making application for this county-wide project, and unless at least 120 applications have been received before that time Brunswick county citizens will be out of luck. It is estimated that there is a normal need for 1,000 of these mattresses in Brunswick.

### Citizens Living In Sections Not Now Served By REA Lines May Continue To Apply

E. D. Bishop superintendent of the Brunswick Electric Membership Corp. stated today that Congress had recently increased its appropriation from \$40,000,000 to \$100,000,000 for further expansion of the R. E. A. program throughout the country.

The R. E. A. program, which began in 1935, enjoyed its largest expansion in 1939 stated Mr. Bishop, and during the past several months statistics have been gathered that seem to prove beyond doubt that the R. E. A. program is not only filling the definite need in providing electric energy for rural communities but, from the standpoint of a public building program, it is one that will ultimately pay its own way.

## Red Cross Emergency Fund Mounts Above \$100-Mark

### Solicitors Find Citizens In All Sections Of County Ready And Anxious To Contribute To Sufferers

A Red Cross emergency relief fund being raised in Brunswick county has passed the \$100-mark and is steadily mounting as reports continue to come in from all over the county.

Among those workers who already have reported are representatives from Leland, Shallotte, Winnabow and Southport. As fast as the money is turned in to Mrs. H. C. Corlette, treasurer, it is being sent by J. Berg, chairman of the Brunswick County Chapter, to national headquarters in Washington, D. C.

To emphasize the importance of the relief work being carried on through private donations, attention is called to the emergency appropriation of \$50,000,000 asked by President Roosevelt from Congress this week for the aid of the Red Cross relief program in the European countries where war is now in progress.

Workers report a generous response to their pleas for aid to the fund designed to alleviate the suffering of the sick and wounded, the homeless and hungry victims of the gigantic war that is now raging in Europe. Wherever no donation is made at the first call, the person solicited has asked to be called on again; and many donors have expressed their desire to continue to contribute each week so long as this present emergency shall exist.

## Fishing Should Be At Its Best Here This Week-End

The belated fishing season should be in full swing by this week-end, according to W. B. Keziah, secretary of the Brunswick County Chamber of Commerce and liaison man between Southport boatmen and sportsmen far and wide.

This prediction is based upon the success of parties fishing out of here last week-end and the first of this week.

The biggest haul of Gulf Stream folks thus far this season was made Saturday by a party of Durham folks aboard the Sea Girl. 10 barracuda and 4 amberjack were taken in addition to about 250-ponds of other fish. The party reported losing 17 big Gulf Stream fish, several of which were brought near enough to the boat to be identified as bull dolphin. The party was composed of I. B. Harris, Kenneth Bailey, Guy Harris, C. B. Weatherly, Clifton Harris, Billie Nichols and A. D. Stanhope, all of Durham. The barracuda and amberjack averaged about 19 pounds each. The largest barracuda was taken by Clifton Harris, 15-year-old member of the party.

The first cero of the season in Southport waters, and also believed to be the first one on the North Carolina coast, was captured Sunday by a Fayetteville party composed of Mr. and Mrs. W. C. Downing, Mr. and Mrs. C. H. Watson, W. A. Dickinson and W. A. Dickinson, Jr. They were aboard the Empress and fishing just off Fort Caswell.
