English To Canada

If Adolph Hitler's war machine rolls on, and if Paris, then London should fall, the surrender of the British to the Ger-

When and if England's soldiers are defeated in battle, only a third of the British might is spent, for still intact is the greatest navy on the face of the earth; and we simply cannot see John Bull's subjects lying down in sweet submission safeguard their lines of supply by sea. and turning over to the Huns all her ships of war.

While the fleet continued for months and even years to harass the Germans in every conceivable manner, the Nazi legions could, if they held possession of the British Isles, wreak their vengeance upon those still left on those shores.

But before any of these things take place, we believe we shall see a mass migration of the English to Canada, and the seat of government for the British Empire established there. To the north of us is a country of tremendous area that boasts of limitless undeveloped resources. In it, the English could set up housekeeping anew, and from this working Germans could be made miserable.

We trust that this eventuality may never be made necessary by subsequent events of the war, but if they do, don't be too surprised if the English become our near neighbor. And with the present paid? Let discussion proceed as to all find comfort in the midst of all this misery in the thought that prospects are good that Angleo-American unity will continue.

Food Raising-Food For Thought

|mers are vitally interested, and according to experts of the United States Department of agriculture, those farmers who produce crops of which a substantial portion go for export are likely to be in trouble this fall.

Extension workers in Raleigh have emphasized that this makes it absolutely necessary that the three-point Agricul-\$1.50 tural extension program of (1). Food for man and beast; (2), a more fertile freshwater fish line, and offered three or four days of fishing, tosoil, and (3), a balance of cash crops to send us one free, we thought bacco chewing and general hobwith livestock, be widely adopted in the it funny. Jimmie said it was a nobbing. Vance Beard, former
