

The Lighter Side Of Life

Our Helpmate

The most important development in the past week has been the organization of a Red Cross chapter in the Woman's Club. It has grown to be a community affair... all garments for children in Britain. All the Home Economic room at the high school each Monday afternoon at 2:30... Activities began this Monday and all garments to be finished by next Monday, if possible... Mrs. Frank Niernsee is in charge of things and she has arranged for the clothes to be cut and ready to sew each Monday. There is something for everyone to do... This is a worthwhile activity... We are sure that all the women in Southport will welcome the opportunity to do their bit for Britain... The following announcement will be of interest to friends in Brunswick county: "Mrs. Essie Tanner Drake announces the marriage of her daughter, Miss Elizabeth Tanner Zuidema, to Dr. Erastus Gennor Goodman on Wednesday, the fifth of March, nineteen hundred forty-one, in Chapel Hill, North Carolina." Dr. Goodman is the son of Mrs. Mariah Sandlin Goodman and the late Dr. E. G. Goodman of Town Creek. He received his B. S. Degree from the University of North Carolina and his medical degree from Duke University. He is now interning at Duke Hospital.

Mrs. Goodman, formerly of Battleboro, has made her home in Chapel Hill during the past four years.

The couple left for a wedding trip to Miami, Fla., and are expected to stop over on their return trip some time this week with Mrs. Maria Goodman.

Tug And Barges Weathered Here

A big seagoing tug, the Goliah, with a couple of barges in tow, put in here last week and remained for two days, awaiting abatement in the weather outside. They were bound up the coast around the cape, and the Goliah did not care to risk its heavily laden barges in the seas that were running out there.

The Goliah drew 18-feet of water and was one of the largest and most powerful tugs that has been seen in this harbor.

EVERYBODY ALIKE

There's one thing a lot of folks especially like about our store. That is our policy of treating everyone alike, whether they be large buyers or small.

You see, we are a small, growing business and we have a particularly sympathetic feeling for the little man who is just doing the best he can.

It's worse than it looks!

You'll agree that a telephone cord full of twists and kinks is unsightly and awkward to use—but did you know that it can also seriously affect service?

The conductor in your telephone cord is composed of scores of thread-like wires. They are very durable and, with normal use, will last indefinitely. But knots and kinks create an unnatural and intensified friction which is apt to break some of these tiny wires. When this occurs, it causes an unpleasant, static-like noise on your telephone.

Keep your telephone free from this trouble by keeping the cord free from kinks. Southern Bell Telephone and Telegraph Company, Incorporated.
