Faculty Complete For Two Schools Of This County

Principal Glenn Tucker Announces His Teacher Personnel For Bolivia High School, Including Seven In High School

SHALLOTTE HIGH HAS LARGE FACULTY

Principal Henry C. Stone Announces Completed Personnel Save For Teacher Of Agriculture

A completed school faculty has been announced by Glenn Tucker, principal of Bolivia high school, who has given the home address of the new teachers is given: Glenn Tucker, high school; Blanch S. Tucker, Lewis H. Washburn, Washington; Miss Clarie Brooks, Evergreen; Miss Pauline Wright, Kings Mountain; Miss Mary Hammond, home economics teacher; Johnnie King, vocational agriculture teacher.

Elementary school: B. R. Page, Miss Martha Jane Robinson, Miss Mary Ellen Gibbs, Miss Jane Leary, Miss Greenlee, Mrs. Frances G. Holden, Miss Daisy Belle Maultsby, Miss Mary Mathews McRee, Miss Bertha Reid and Miss Mary Bright.

Only four new teachers are included in the list announced by principal Henry C. Stone for Charlotte high school. Their addresses follow: the name: High school: Henry C. Stone, Mrs. Edna W. Russ, Mrs. Emma Barker, Varina; Miss F. Creech, business department teacher; Miss Corrin Green, home economics teacher.

Elementary school: Miss Aileen Williams, Miss Muesette Wilkerson, Miss Clarice Swain, Miss Catherine C. Mintz, Mrs. S. S. Bass, Mrs. Mae Horne Russ, Mrs. Ruth Griffin, Miss Annie F. Bass, Miss Maule E. McAllister, Mrs. Anna Katharine Spruill, Miss Betty Blair, Mrs. Susie Kate Taylor, Miss Brightie G. Holden, Mrs. Betty H. Stike; Miss Zona Swain, Mrs. Frances Baker, Mrs. Katherine White, Miss Wynne De Lozier, Miss Gay Battle, Miss Mary E. Taylor and Miss Virginia Fritts.

Several Cases Tried In Court

Judge Stanaland Passes Sentence In Cases Against Tripp And Gore; Others Tried

Judge Walter M. Stanaland in Recorder's court here Monday sentenced D. E. Tripp to 18 months on the roads, from which judgment the defendant appealed and was bound over to superior court under bond of \$1,000.00. Tripp was tried at a special session of Recorder's court on Saturday last week on charges of being disorderly in a public place and resisting arrest.

The other defendant at that special session was Harris Gore, who faced charges of making an assault with a deadly weapon. The warrant was amended to include with intent to kill and Gore was bound over under bond of \$1,000.00.

The case against Edmund Lewis, white, for breaking and entering was not prosed with.

W. M. Boykin, colored, pleaded guilty to charges of reckless operation and was given 30 days on the roads. Judgment was suspended upon payment of costs and a fine of \$25.00, the fine being remitted.

Guy A. Eason, white, was up for larceny and drunk driving. The case was not prosed as to larceny. He was given 4 months on the roads, judgment being suspended upon payment of costs and a fine of \$50.00 and costs, his driving license to be revoked for a period of 12 months.

Mac McLain, colored, was charged with possession. Called and bound, judgment was nisi ci fe and capias.

Betty Fullwood, colored, was given 12 months on the roads when it was determined by the terms of a judgment when recently convicted of being a nuisance. Judgment was with held in a case charging him with making an assault with a deadly weapon.

W. E. Dasher recently visited Manteo where he witnessed the "Lost Colony".

Here's The Payoff--In Tobaccoland

MONEY.—Here is a typical scene in one of the tobacco warehouses of the Border Belt. It's the payoff window, and most of the farmers are receiving their checks this fall with a big smile. They are generally well-pleased with prices being paid.

It Took Bag Full Money To Pay Man's Taxes

Steve Mintz of Town Creek township sent in his tax money last week by his friend and neighbor, LeRoy Lewis, who brought it to town and to the office of Tax Collector C. E. Gause.

As a rule Mr. Gause is always accommodating to taxpayers bent on paying their taxes. In this instance he got a bit cantankerous and refused to count the money. It was all in pennies and the job of counting looked altogether too big.

However, Mr. Gause showed his resourcefulness. He lugged the bag of money across the street to the bank where Cashier Prince O'Brien brought both a pair of scales and a banker's scientific deductions into play. He found out that the pennies weighed exactly 23 pounds. His experience in monetary exchange knocked down the weight result to mean that there was exactly 3,450 pennies, or \$34.50 represented, and this was exactly the amount of taxes that Mr. Lewis was due the county.

It was, of course, all elementary, but satisfactory.

Gas Shortage Threatens Here

Indication That First Pinch Will Be Felt By Shrimping Boats In September

There is a threat that the first pinch of the gas shortage will hit Southport where it hurts most—in the shrimp fleet.

W. S. Wells reported this week that he has been informed that his gasoline allotment for the month of September will be 900 gallons, a fractional part of what he will need. He has taken steps to have his case reconsidered.

Neither of the other active gasoline distributors dealing with marine trade has been affected thus far.

Raids From Bear Cause Freeland Farm For Rent

A sort of improvised bear hunt in the Freeland community has resulted in a fine Brunswick county farm being available for rent.

It seems that a bear had been making a habit of raiding the premises of E. M. Little for an occasional bit of corn and peaches, and that these repeated raids were resented by the said land owner. Plans to waylay the bear through stillways and hunting methods were to no avail until Weston Evans and two companions finally caught the marauder in the act. Sighting the bear's shadowy form in the dark, he blazed away; and when bruin took refuge up a small tree, Evans, so the story goes, went under the tree and

Conducting Test That May Use Shrimp Heads

These Have Previously Been A Total Waste, But If Recent Experiments Are Successful, New Business May Result

SHRIMP MEAL IS VERY VALUABLE

If Successful Plan Of Processing Is Evolved This May Be Manufactured From Waste

For the first time in the history of the local shrimping industry a serious effort is being made to convert the waste product of the fishery into a product with commercial possibilities, it was announced here today by Frank A. Montgomery, of Wilmington, and Enfield. The product under consideration is a meal manufactured from shrimp heads and shrimp too small for the trade. Associated with Mr. Montgomery are Dr. Rhos. M. Hunter, of Henderson, and a prominent North Carolina feed manufacturer, whose identity Mr. Montgomery stated that he was not in a position at this time to reveal.

The tests have been underway for a little over one week, but, due to unsettled weather conditions for the past few days, a supply of the shrimp waste has been scarce, and only approximately 125 pounds have been processed. This material was furnished Mr. Montgomery through the courtesy of Capt. Jim Arnold, local shrimp and sea food dealer. Approximately 35 pounds of the finished meal has been produced. All tests have been conducted in the N. C. Fisheries building, the use of which was given Mr. Montgomery by town authorities. Mr. Montgomery stated that he was highly gratified at the spirit of cooperation given him by Capt. John Erickson, mayor of Southport, and the Board of Aldermen, as well as sea food dealers and other interested and forward-looking citizens.

Mr. Montgomery informed the State Port Pilot that the work he is undertaking here has the full cooperation of the State Department of Agriculture, the Department of Conservation and Development, Dr. Roy Dearstine, of State College, and officials of the U. S. Department of the Interior, Division of Fisheries Industry. All of these organizations are extremely interested in seeing a use developed for what has previously been a total loss to fishermen and dealers, namely the inedible portion of marketable shrimp and those too small for the trade. In the event such a use can be developed, it would in all probability mean a few more dollars each season in the pockets of local shrimpers and dealers, as Mr. Montgomery said he wanted all interested parties to know that it was his wish and the wish of those with whom he is associated to see that the fishermen and dealers obtain something for what has been a dead loss to them.

In disclosing information concerning the tests being made in Southport, Mr. Montgomery said that he did not at all desire to paint too rosy a picture of the possibilities of the projected venture, even in the event commercial production was undertaken, as any industry based on the shrimp waste would of necessity be rather small in scope, due to a limited amount of the raw material available. He did wish to stress, however, that, in his opinion, no matter how small returns were to everyone concerned, still they would represent dollars and cents which have been heretofore thrown away without benefit to anyone. Too, he said, the new industry, if successful, might prove to be the forerunner of a larger one which might, in time, make use of various other fishery products for which there is, at present, little, if any demand.

Shrimp meal, the product under consideration, has been proven to be very high in various ingredients necessary in feed supplements for dairy, swine and poultry feeds, and is highly desirable as a feedstuff when used in connection with fish meal and other products. Some meal suitable for feeding is at present being produced in California and along the Gulf coasts, but most of the present production goes into fertilizer manufacture. Making of the meal for use in feeds necessitates far greater care in

Holiday Monday For Courthouse

Since Monday is Labor Day, there will be no session of Brunswick county Recorder's court. Instead, Judge Walter M. Stanaland will hold his weekly session on Thursday, September 4, in order to clear his docket of cases and pave the way for trial of necessary matters in Superior court which convenes one week from Monday.

All offices in the courthouse will be closed for business, as officials take advantage of the holiday.

The same holds true for the city officials and with the post-office and local bank.

Department of Agriculture, the Department of Conservation and Development, Dr. Roy Dearstine, of State College, and officials of the U. S. Department of the Interior, Division of Fisheries Industry. All of these organizations are extremely interested in seeing a use developed for what has previously been a total loss to fishermen and dealers, namely the inedible portion of marketable shrimp and those too small for the trade. Photo Models Pay Visit To Local Island

Quite a bunch of lookers and on-lookers, (the lookers being pooms of pulchritude), were gathered up Sunday morning by Edmund McLaurin, of Wilmington, and W. B. Keziah, of Southport, and were taken to Bald Head Island aboard Frank O. Sherrill's yacht, Drifter, for a day of picture making.

It is a tough job to collect a sizeable bunch of good looking girls and take them anywhere without a swarm of admiring males appearing in the offing. The closed corporation that engineered the Sunday trip to the island appears to have done very nicely, and the boys who got in on this trip had to serve as pistol, shotgun, sword or camera bearers. The idea of the whole thing was to make pictures that would serve to color pirate stories.

Good looks have always been an essential, then as now, to the female pirate. These girls had the good looks, alright and it does not matter much what they wore or didn't wear. This is not a write-up of a wedding, although there was enough old guns and old swords along to have staged a first-class military affair.

Aircraft Warning Being Perfected

Organization Set Up To Cooperate With This Phase Of Defense Work

A committee of three men were placed in charge of naming an aircraft warning organization to function for Brunswick county, and they have suggested a tentative group to serve in this phase of civilian defense.

The central committee is comprised of W. F. Jones, chairman, John D. Eriksen and C. C. Russ. They have asked the following men to serve in their respective

To Hold Hearing Concerning New Bridge Location

Office Of Wilmington Army Engineers Gives Notice That Hearing Has Been Scheduled Thursday, September 4

AT TOWN CREEK ON RIVER ROAD

Will Be Fixed Span And Is Indication Of Improvements That May Follow To This Route

The application of the North Carolina State Highway and Public Works Commission, for approval of plans for the reconstruction of the bridge across Town Creek 3.5 miles above the mouth, on the "River Road", in Brunswick county, between Wilmington and Southport will be considered at a public hearing to be held in the U. S. Court Room, U. S. Custom House, Wilmington, at 11:00 A. M., Thursday, September 4.

All interested parties are invited to be present or to be represented at the above time and place, particularly the officials of any county, city, town, or local association whose interests may be affected by the proposed work. They will be given an opportunity to express their views upon the suitability of the location and the adequacy of the plans in reference to navigation, and to suggest changes considered desirable. Oral statements will be heard, but for accuracy of record all important facts and arguments should be submitted in writing, as the records of the hearing will be forwarded for consideration by the War Department. Written statements may be handed to the undersigned at the hearing or mailed to him beforehand.

The plans submitted by the applicant show a fixed span highway bridge having a channel span with a horizontal clearance of 38 feet and a vertical clearance of 8.7 feet above mean low water.

Baptist Union On Saturday

Meeting Will Be Held At Sabbath Home Church And Public Is Cordially Invited To Be Present

The Brunswick Baptist Union will meet at Sabbath Home Church on Saturday Aug. 30.

The following program has been arranged:

10 a. m.—Devotional; business; address, Rev. M. O. Alexander; sermon—Pastor; 12 Noon—Lunch.

1 p. m.—Devotional; "The Value of our Denominational Schools", Clifton Clemmons; "My Duty as a Christian", J. J. Little; adjourn.

The public is cordially invited to attend.

Commissioners In Session Monday

Members Of The Board Of County Commissioners Settle Several Matters Of Interest

A number of interesting matters resulted from Monday's session of the board of county commissioners.

Upon the recommendation of a group of citizens from Northwest township, F. O. Simmons was appointed electrical inspector for that township, replacing J. E. King.

(continued on page four)

MARKSMAN

J. A. DUBOIS, chairman of the marksmanship committee for the State Department, American Legion, attended the Legion meeting and fish fry at Town Creek Friday night. Prior to the meeting members engaged in target practice.

Funeral Held For H. L. Mintz

Prominent Shallotte Man Died Suddenly Of Heart Attack Monday Afternoon; Funeral From Late Residence

Harry L. Mintz, Sr., one of the distinguished citizens of Brunswick county, died suddenly at his home at Shallotte early Monday afternoon, death resulting from a sudden heart attack.

Except for two prior attacks which didn't seem to be serious, Mr. Mintz had suffered no recent illness and was very active up to the time of his passing. He was 58-years-of-age.

A retired mail carrier, Mr. Mintz was the first RFD carrier in Brunswick county. He was able to retire with 30 years service in September, 1933.

He was the son of the late John Henry Mintz and Theresa Butler Mintz and spent his entire life on his old home place. In 1904 he was married to Miss Mintz Catharine Tart and she, together with six sons, survives. They are 1st Lieut. R. I. Mintz, U. S. Air Corps, Camp Davis; C. S. Mintz, Goldsboro; LeRoy, Frederick, H. L., Jr., and Elwood Mintz, all of Shallotte.

The deceased was a member of the Junior Order United American Mechanics and the Woodmen of the World. He was active in the civic and religious affairs of his community. For many years he played a prominent part in keeping active the Presbyterian church at Shallotte, and for 15 years he served as a member of the school board of Shallotte high school.

Funeral services were held from the late residence Tuesday afternoon at 5 o'clock by Rev. J. D. Withrow, assisted by Rev. J. C. Whebe. Hundreds of friends and relatives gathered to pay their final tribute of respect, and the floral offerings were a beautiful tribute to the high esteem in which Mr. Mintz was held.

Interment was in the Mintz cemetery with the following active pallbearers: W. L. Rourk, L. C. Rourk, Irvin Rourk, M. R. Tripp, E. P. Clark, R. E. Nance, W. E. Swain and S. T. Russ.

Honorary pallbearers were: T. V. Howell, Dr. W. O. Rourk, Dr. M. H. Rourk, Dr. J. W. Hayes, E. H. Kirby, H. L. Stanley, W. R. Holmes, D. C. Andrews, B. M. Stanley, C. A. Russ, Jr., A. B. Willis, R. D. White, W. L. Swain, E. E. Parker, J. J. Ludlum, A. J. Brown, G. E. Brooks, W. Claude Gore, H. C. Stone, O. B. Sellers, J. J. Hawes, J. E. Dodson, J. W. Russ, H. B. Bennett, Judge E. H. Cranmer, C. Ed. Taylor, S. B. Frink, J. W. Ruark, Prince O'Brien, W. R. Dasher and W. F. King.

Applications For Police Job Sought

Members Of Board Of Aldermen Want To Give Place To Local Man If One Can Be Found To Fill Place

Herbert Rogers has resigned his job as chief-of-police for the city of Southport, effective September 1, and members of the board of aldermen are now ready to receive applications for the vacancy.

Anxious to fill the place with (Continued on page 4)

Impose Embargo Against Japan Canned Crabmeat

One Result Of This Action May Be Revival Of This Industry Along Atlantic Coast In Near Future

BUSINESS ENJOYS LARGE VOLUME

Heretofore Prices Of Crabmeat Products Have Been Forced Down By Competition Of Japan

Calling upon fishery interests of the North Carolina coast to "organize for conservation and perpetuation of their crabmeat supply," Representative J. Bayard Clark today predicted that President Roosevelt's recent order increasing import duties on Japanese canned crabmeat will "open a virtually new field of endeavor" for the Tarheel State.

Victory in the fight to eliminate unfair competition brought by Japanese crabmeat producers came last Friday when President Roosevelt issued a proclamation raising the tariff on canned imported crabmeat from 15 per cent ad valorem to 22½ per cent.

The action came after conservation leaders of the nation, including Congressman Clark, and sold President Roosevelt and the U. S. Tariff Commission upon the necessity for action to enable expansion of the American crabmeat industry, which assertedly had been "operating at a loss." Such a situation, the congressman declared, was due to operation of Japanese fishery interests, many of whom maintain "floating canneries" near the North American continent and, employing cheap labor, turn out crabmeat offered to the United States consumers "under typical oriental price-slashing methods."

To illustrate the manner in which Japanese crab packers have thrived from American sales, Congressman Clark pointed out that United States imports of canned crabmeat, paste and sauce during 1940 totaled 11,861,462 pounds, with about 90 per cent of these imports coming from Japan. The Commerce Department placed a value on these imports of \$3,596,643. The congressman further declared that during the first five months of the current year Japanese crabmeat imports to America totaled 1,676,000 pounds.

Licenses Are Placed On Sale

Game Warden Gets Them Scattered Around In Time For Purchase For Marsh Hen Hunting

It will be legal to go marsh hen hunting Monday, since it is the first day of September, but there is also the matter of licenses and license to be investigated.

As for the tide, it appears that hunters will have to be patient until the full moon period the last of next week, when the water should reach flood stage, but licenses are different.

Brunswick county Game Warden Eustas Russ said Monday that he has arranged for the sale of licenses at the following places in the county: Clerk of Court's office in Southport; R. M. Powell's station, Leland; G. L. Skipper, Winnabow, Ennis Long, Supply; Coastroad Service Station, Shallotte; Foster Mintz, Bolivia.

Tide Table

Following is the tide table for Southport during the next week. These hours are approximately correct and were furnished The State Port Pilot through the courtesy of the Cape Fear Pilot's Association.

TIDE TABLE	
Thursday, August 28	12:02 a. m.
